Spigen GlasTR EZ FIT Tempered Glass Screen Protector Instruction Manual

Model: AGL03385

1. PRODUCT OVERVIEW

The Spigen GlasTR EZ FIT Tempered Glass Screen Protector is designed to provide superior protection for your compatible iPhone model. Featuring 9H hardness tempered glass, it offers robust defense against scratches and impacts. The innovative auto-alignment installation kit ensures a precise and effortless application, minimizing bubbles and misalignment. An oleophobic coating helps resist daily fingerprints, maintaining screen clarity. This screen protector is also case-compatible with all Spigen iPhone 17e/16e/14/13 Pro/13 cases.

- **Tempered glass durability:** Rated at 9H hardness for robust protection.
- **Glass protection:** Frames the physical screen for a clean finish.
- **Innovative, auto-alignment installation kit:** For effortless application.
- **Oleophobic coating:** For daily fingerprint resistance.
- **Case compatible:** Designed to work with every Spigen iPhone 17e/16e/14/13 Pro/13 case.
- **Specifically designed for:** iPhone 17e/iPhone 16e/iPhone 14/iPhone 13 Pro/iPhone 13.

2. WHAT'S IN THE BOX

Your Spigen GlasTR EZ FIT package includes everything needed for a smooth installation:

- 2x Spigen GlasTR EZ FIT Tempered Glass Screen Protectors
- 2x Auto-alignment installation trays
- 2x Cleaning wipes (wet)
- 2x Microfiber cloths (dry)
- 2x Dust removal stickers
- 1x Squeegee
- Instruction Manual

3. SETUP & INSTALLATION

Follow these steps for a perfect, bubble-free installation of your Spigen GlasTR EZ FIT screen protector:

1. **Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dust to the screen.
2. **Clean Your Phone Screen:** Use the included cleaning wipe (labeled '1' or 'Wet') to thoroughly clean your iPhone screen. Ensure all smudges, dirt, and oils are removed.
3. **Dry Your Phone Screen:** Use the microfiber cloth (labeled '2' or 'Dry') to dry the screen completely. Polish until no streaks remain.
4. **Remove Dust:** Use the dust removal sticker to pick up any remaining dust particles from the screen. Gently dab the sticker across the screen, ensuring no residue is left behind.
5. **Attach the Auto-Alignment Tray:** Place your iPhone into the auto-alignment installation tray. Ensure it snaps securely into place. The tray is designed for a precise fit, guiding the screen protector perfectly onto your device.
6. **Remove Protective Film from Screen Protector:** Carefully peel off the protective film from the adhesive side of the screen protector (this is usually indicated by a 'Back' tab or similar). Avoid touching the adhesive surface.
7. **Apply the Screen Protector:** Align the screen protector with the top edge of the installation tray. Slowly lower the screen protector onto your iPhone screen. The tray will guide it into the correct position.
8. **Press and Slide:** Once the screen protector is in place, gently press down on the center strip (often labeled 'Press & Slide') and slowly slide it from top to bottom. This action helps adhere the protector and push out air.
9. **Wait:** Allow approximately 30 seconds for the adhesive to fully spread and settle.
10. **Remove the Tray:** Carefully remove the installation tray from your iPhone.
11. **Remove Remaining Protective Film:** Gently peel off any remaining protective film from the top surface of the screen protector.
12. **Remove Air Bubbles:** Use the included squeegee to push any remaining air bubbles towards the edges of the screen. Apply gentle, firm pressure.

Installation made simple.

Alignment tray makes glass application quick and easy without fail.

4. OPERATING YOUR DEVICE WITH THE SCREEN PROTECTOR

The Spigen GlasTR EZ FIT is engineered to maintain the original touch responsiveness and visual clarity of your iPhone screen.

- **True Touch Responsiveness:** Experience the same smooth and accurate touch response as your original screen.
- **Crystal Clarity:** Enjoy true tone crystal clarity without any added blemishes or distortion.
- **Oleophobic Coating:** The special coating reduces fingerprints and smudges, keeping your screen looking clean.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Spigen GlasTR EZ FIT screen protector, follow these maintenance tips:

- **Regular Cleaning:** Use a soft, lint-free cloth (like the included microfiber cloth) to gently wipe your screen daily. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol-based solutions (other than the provided wipe for initial cleaning), or solvents, as these can damage the oleophobic coating.
- **Protect from Sharp Objects:** While the 9H hardness provides excellent scratch resistance, extreme pressure or very sharp objects can still cause damage. Avoid placing your phone face down on rough surfaces or in pockets with keys/coins.
- **Inspect for Damage:** Periodically check the screen protector for any cracks or significant scratches. If the protector is damaged, it's recommended to replace it to maintain optimal screen protection.

6. TROUBLESHOOTING

Here are solutions to common issues you might encounter during or after installation:

- **Air Bubbles After Installation:**
 - **Small Bubbles:** Most small bubbles will disappear naturally within 24-48 hours.
 - **Large Bubbles:** Use the included squeegee tool to gently push large bubbles towards the nearest edge of the screen. If a bubble persists due to a dust particle, carefully lift the nearest corner of the screen protector slightly, use a dust removal sticker to lift the particle, and then reapply.
- **Misalignment:** If the screen protector is significantly misaligned, it's best to gently lift it from one corner, reposition it using the alignment tray (if possible), and reapply. If the adhesive is compromised, use the second protector provided.
- **Edges Not Sticking:** Ensure the screen was thoroughly cleaned and dried before application. If edges are lifting, gently press them down with the microfiber cloth or squeegee. If the issue persists, the screen protector may need to be replaced.
- **Reduced Touch Sensitivity:** This is rare with tempered glass protectors. Ensure the screen protector is fully adhered without any gaps. If the issue continues, contact customer support.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	3.54 x 1.18 x 0.5 inches
Item Weight	1.06 ounces
Item Model Number	AGL03385
Special Features	9H Surface Hardness
Compatible Devices	iPhone 17e / iPhone 16e / iPhone 14 / iPhone 13 Pro / iPhone 13
Material	Tempered Glass
Item Hardness	9H
Finish Type	Glossy
Water Resistance Level	Water Resistant
Unit Count	2.0 Count
