Spigen Glas.tR EZ Fit Screen Protector for iPhone 13 Mini - User Manual

INTRODUCTION

The Spigen Glas.tR EZ Fit is a premium tempered glass screen protector designed specifically for the iPhone 13 Mini. It offers robust protection against scratches and impacts with its 9H hardness rating. The innovative EZ Fit installation tray ensures a perfect, bubble-free application every time. This manual provides detailed instructions for installation, usage, and maintenance to help you maximize the lifespan and performance of your screen protector.

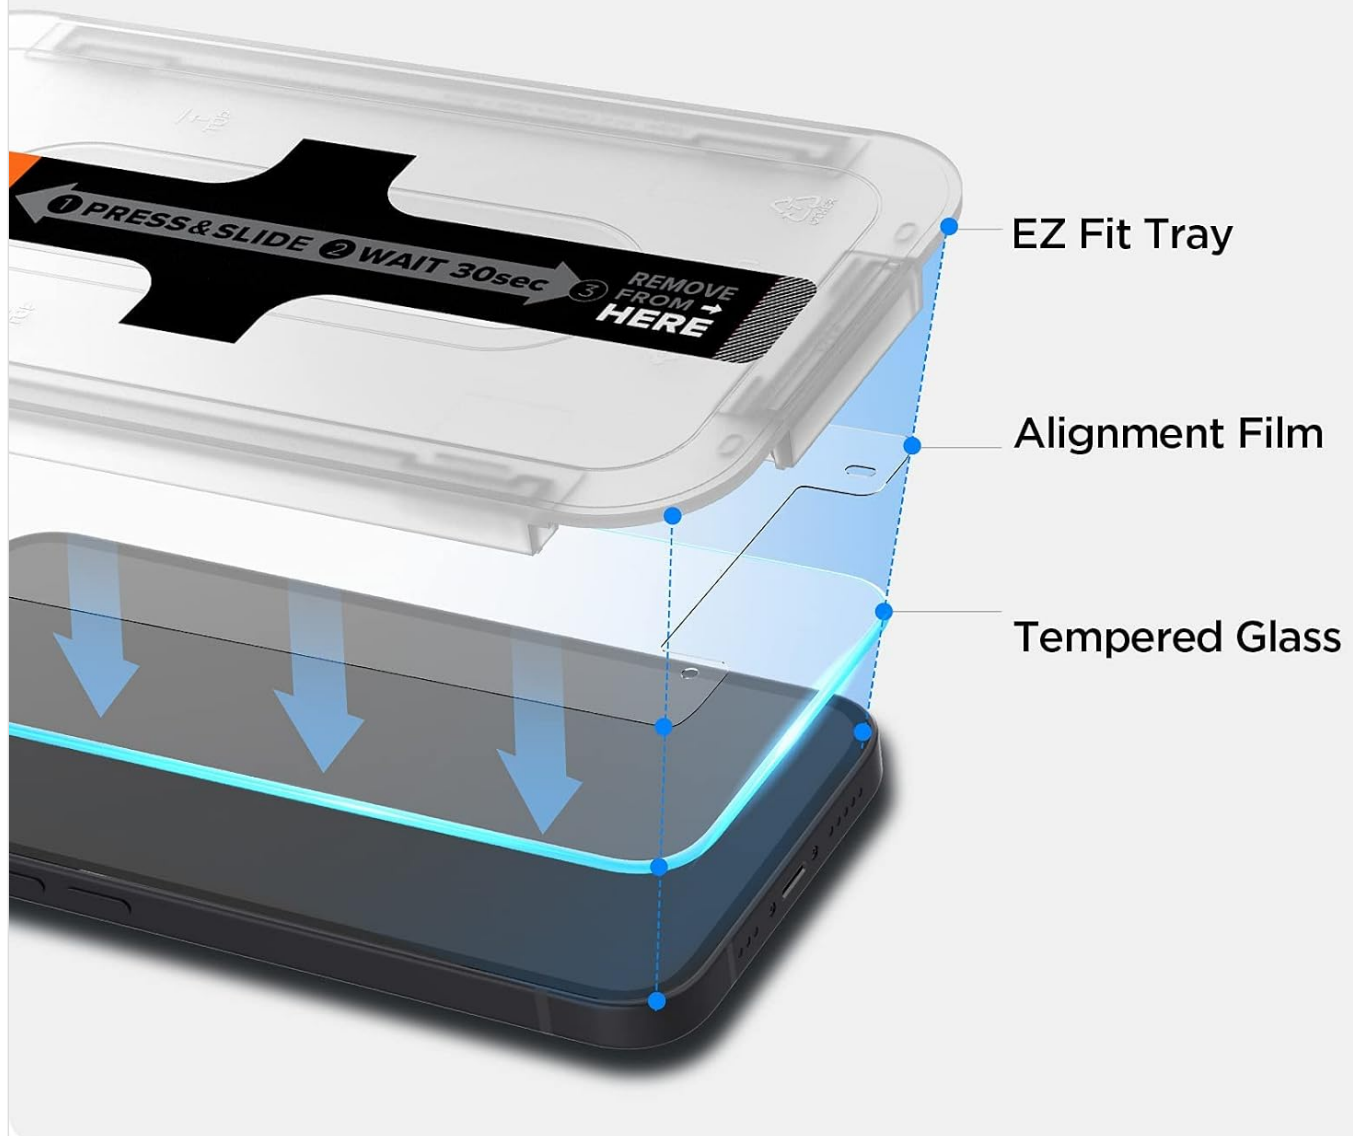

SETUP AND INSTALLATION

Proper installation is crucial for optimal performance. Follow these steps carefully for a perfect, bubble-free application.

1. **Preparation:** Ensure your iPhone 13 Mini screen is completely clean and free of dust, smudges, and fingerprints. Use a microfiber cloth and screen cleaner if necessary. Work in a dust-free environment.
2. **Identify Components:** Your kit includes the tempered glass screen protector, an EZ Fit installation tray, and cleaning accessories.

Don't break a sweat.

Not compatible with
iPhone 12 mini
iPhone 13 | 13 Pro

Ensure your device is an iPhone 13 Mini for proper fitment. This screen protector is specifically designed for the iPhone 13 Mini and is not compatible with other models like the iPhone 12 Mini, iPhone 13, or iPhone 13 Pro.

4. Install the Screen Protector:

- a. **Step 1: Prepare the Tray.** Carefully peel off the protective film from the EZ Fit installation tray.

Hands peeling a protective film from the Spigen EZ Fit installation tray.

- b. **Step 2: Position the Tray.** Gently place the EZ Fit Tray over your clean iPhone 13 Mini screen. The tray will

automatically align the screen protector for a perfect fit.

- c. **Step 3: Apply Pressure.** Press firmly along the center of the tray to initiate the adhesive process. Wait for approximately 30 seconds to allow the adhesive to spread evenly across the screen.

Finger pressing down on the center of the Spigen EZ Fit tray to apply the screen protector.

- d. **Step 4: Remove the Tray.** Carefully lift and remove the EZ Fit Tray from your iPhone. The screen protector should now be perfectly aligned and applied.

MAINTENANCE

To maintain the clarity and effectiveness of your Spigen Glas.tR EZ Fit screen protector, follow these simple maintenance guidelines:

- **Cleaning:** The screen protector features an oleophobic coating that resists fingerprints and smudges. For cleaning, gently wipe the screen with a soft, lint-free microfiber cloth. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or ammonia-based solutions, as these can damage the oleophobic coating and the screen protector itself.
- **Protection Layers:** The multi-layered design provides durable protection.

Quick and undisturbed touch response time.

Reinforced for longer lasting durability from general wear and tear.

The screen protector features a multi-layered design for enhanced protection, including an AG Coating, 9H Tempered Glass, an Anti-scattering Film, and a Silicone Resin layer.

TROUBLESHOOTING

While the EZ Fit installation system is designed for ease, minor issues can sometimes occur. Here are solutions to common problems:

- **Bubbles After Installation:** Small bubbles are common immediately after installation. Most will disappear naturally within 24-48 hours as the adhesive settles. To expedite the process, gently push larger bubbles towards the nearest edge using a microfiber cloth or a soft card (like a credit card).
- **Dust Under the Protector:** If you notice dust particles under the screen protector, it indicates the screen was not perfectly clean before installation. While difficult to fix without removing and potentially damaging the protector, you may try gently lifting a corner with a dust removal sticker to extract the dust, then re-applying. This is not always successful and may introduce new issues.
- **Misalignment:** The EZ Fit tray is designed to prevent misalignment. If the protector is misaligned, it may be due to

incorrect placement of the phone in the tray or not following the steps precisely. Re-installation is generally not recommended as it can compromise the adhesive.

SPECIFICATIONS

Feature	Detail
Brand	Spigen
Model Number	AGL03397
Compatible Devices	iPhone 13 Mini (Apple iPhone 13 mini)
