VTech VM819-2

VTech VM819-2 Digital Video Baby Monitor User Manual

Model: VM819-2

Brand: VTech

Introduction

Check in on your little one with a 2.8-inch LCD screen on the VTech VM819-2 Digital Video Baby Monitor. Soothe your baby using the lullabies and soft sounds that play right from the baby unit. Plus, you can make sure your infant is cozy by monitoring the nursery temperature that's displayed right on the LCD screen. Best of all, with the industry's best battery life, you can easily monitor your baby throughout the night with up to 19 hours of video streaming on one charge.

What's in the Box

- 1 Parent unit
- 2 Baby Unit
- 3 AC adapters
- Quick start guide

Image: The complete VTech VM819-2 system, including the parent unit and two baby units.

Product Features

- **Best-in-class Battery Life and Range:** With up to 19 hours of video streaming, this 2-camera system lets you monitor your children throughout the night easily. With up to 1000 feet of range, you can stay connected with your children from another room or even from the yard.
- **Privacy Guaranteed. No Wi-Fi or App Pairing:** Trusted by US families for more than 3 decades, each VTech monitor is transmitted via secured internal 2.4GHz channel with FHSS technology, so you can rest assured that you're the only one who can hear and see your baby.
- **2.8" Display with Temperature Indication:** Clearly see every little move right from the parent unit. Besides, the built-in temperature sensor on the camera will send alert to the parent unit. Let you know when it’s time to adjust the thermostat.
- **Two Viewing Options:** Choose how you want to keep an eye on your family - single view or patrol model (single view that transitions to a different camera every 10 seconds).
- **Soothing Lullabies and 2-Way Talk:** Gently lull your baby to sleep with 2 calming melodies and 2 sets of ambient sound. The 2-way talk back lets your baby to hear the sound of your voice no matter where you are.

- **Auto-on Screen and Sound Indications:** The screen can be turn off and the sound be muted to let you the silence needed and to save power. When baby is crying, the screen will auto turn on with a visual alert on the sound indicator bar on the parent unit.
- **Easy Set-up Plug & Play:** The parent unit and the two cameras are configured for monitoring right out of the box - no pairing or connections required. The cameras can be set on desk top or wall mounted.
- **Temperature Sensor:** The built-in temperature sensor on the baby camera will send alert to the parent unit. Lets you know when it's time to adjust the thermostat.

Image: Visual representation of the product's key features.

Image: Battery life details for screen-on and audio-only modes.

Setup

Charging the Parent Unit

Before initial use, charge the parent unit battery for 12 hours. When the battery is fully charged, the battery icon becomes solid. The parent unit can operate on battery power or AC power. The baby unit(s) must be connected to AC power.

Connecting the Baby Unit(s)

Connect the small plug of the power adapter to the baby unit and the large plug to a wall outlet. Use only the adapters supplied with this product. The baby unit will power on automatically.

Positioning the Camera

Place the baby unit in a location that provides a clear view of your baby. Ensure the baby unit is out of reach of your baby. The camera features an adjustable angle for optimal viewing.

Image: The baby unit camera offers adjustable pan and tilt for flexible positioning.

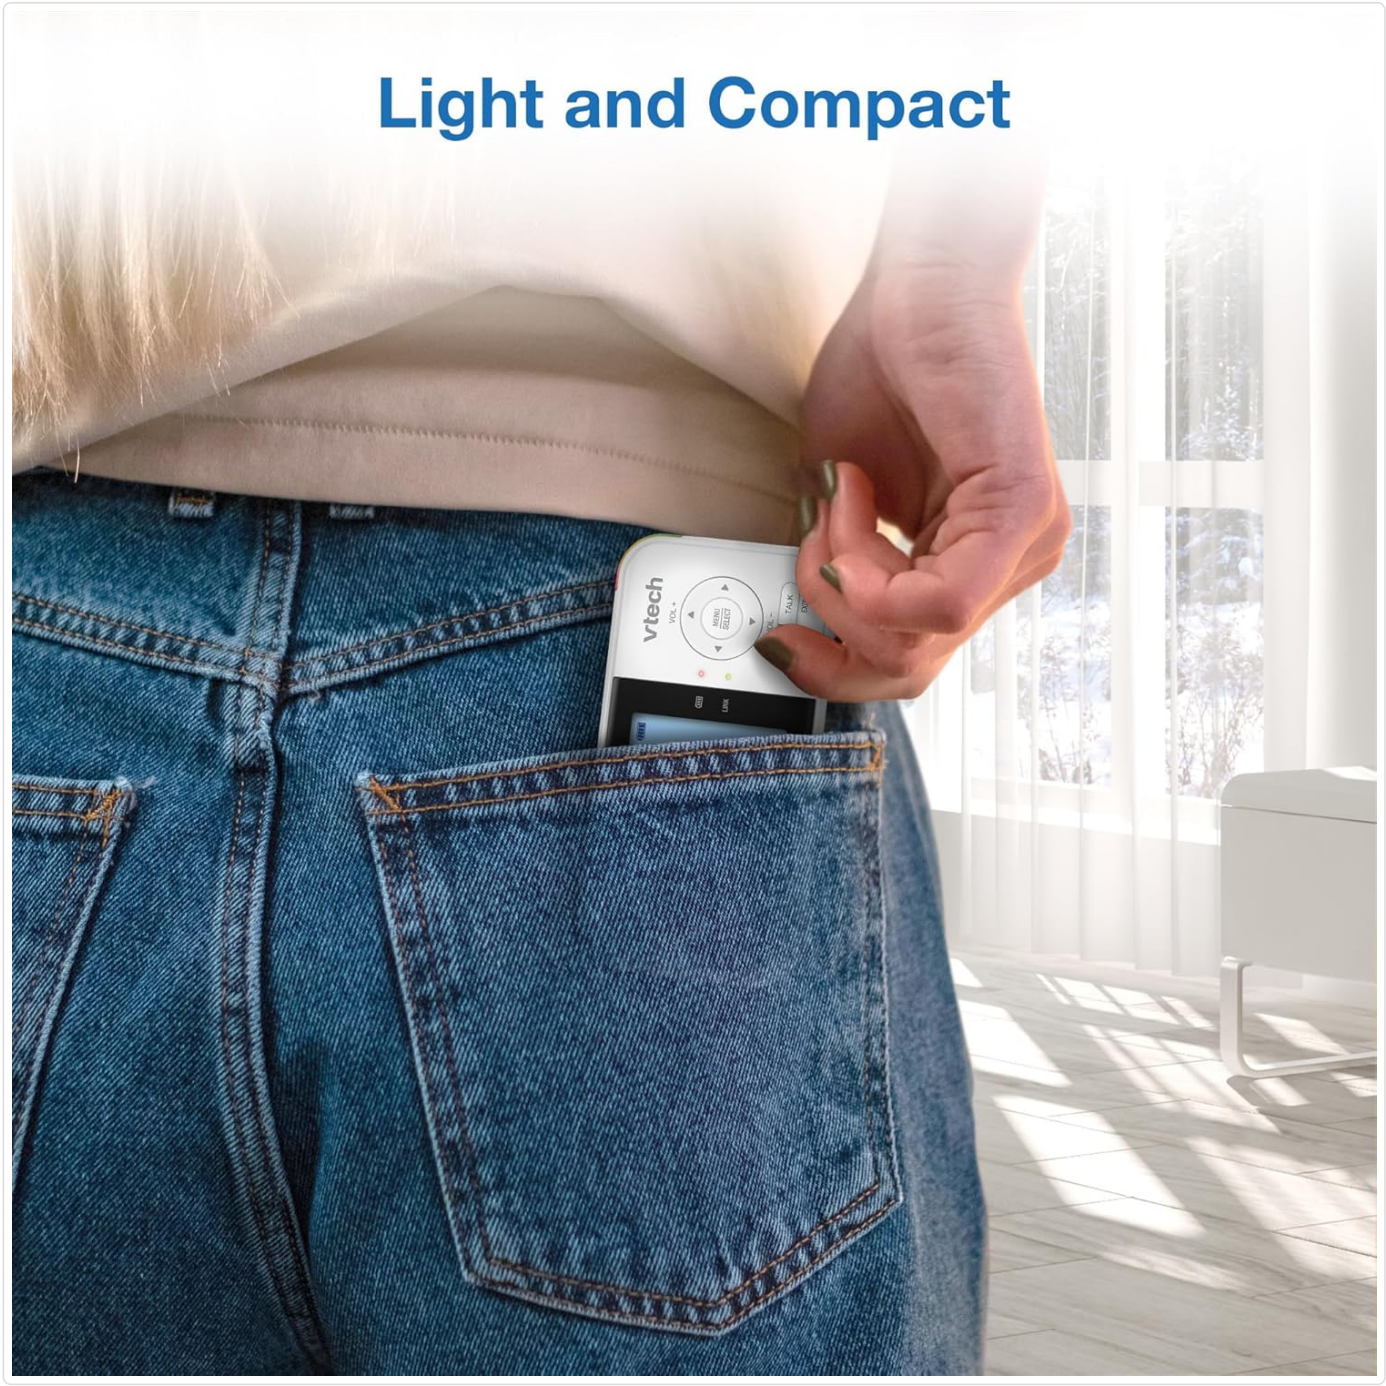

Image: The parent unit is light and compact, designed for easy portability.

Operating Instructions

Power On/Off

To power on the parent unit, press and hold the POWER button. To power off, press and hold the POWER button again.

Adjusting Volume

Press the VOL+ or VOL- buttons on the parent unit to adjust the listening volume.

Two-Way Talk

Press and hold the TALK button on the parent unit to speak to your baby through the baby unit. Release the button to hear your baby again.

Image: The two-way talk-back intercom allows you to soothe your baby from another room.

Switching Between Cameras

If you have two baby units, press the CAM button on the parent unit to switch between Camera 1 and Camera 2. You can also activate Patrol mode to automatically cycle through cameras every 10 seconds.

Night Vision

The baby unit has infrared LEDs that allow you to see your baby clearly in the dark. When the baby unit detects low light levels, the night vision feature will automatically activate.

Lullabies and Soothing Sounds

Access the menu on the parent unit to select from 2 calming melodies and 2 sets of ambient sounds to help soothe your baby to sleep.

Image: The baby unit can play soothing sounds and lullabies to comfort your child.

Temperature Monitoring

The baby unit includes a temperature sensor that displays the nursery temperature on the parent unit's LCD screen. An alert will be sent if the temperature goes outside a preset range.

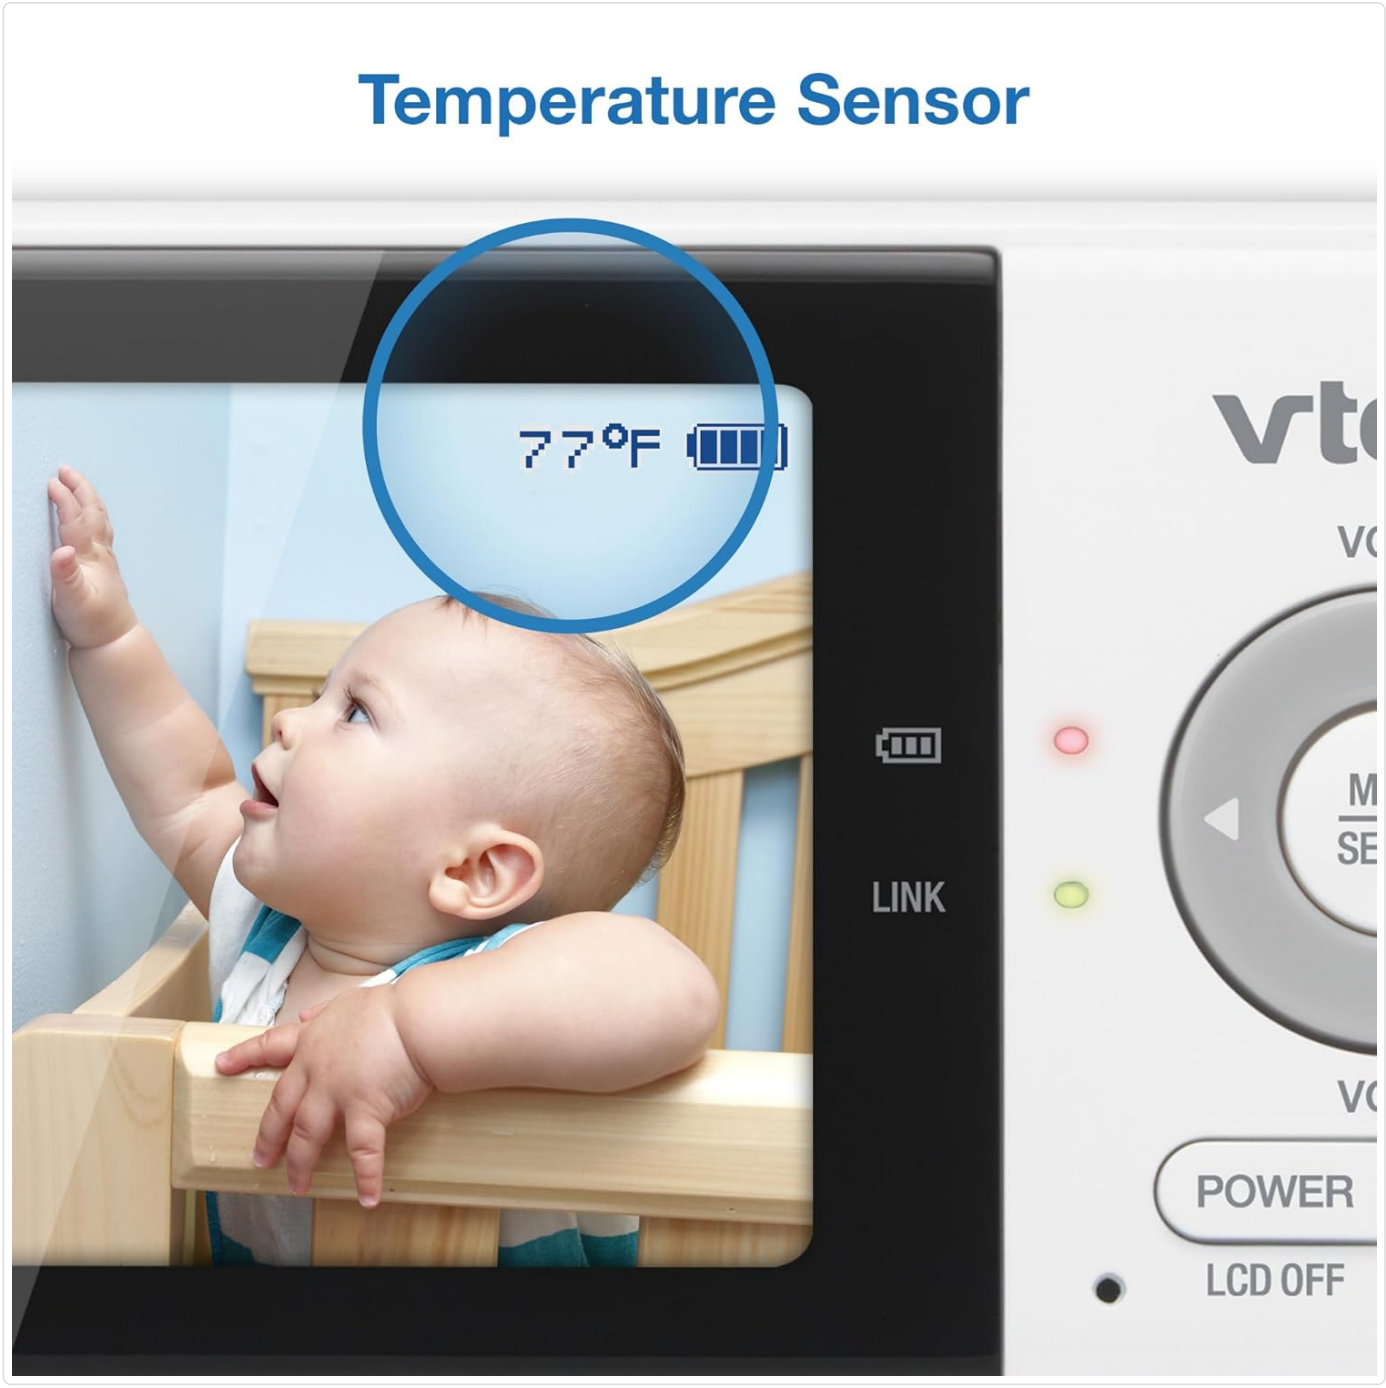

Image: The parent unit displays the nursery temperature for continuous monitoring.

VOX (Sound-Activated Screen Mode)

In VOX mode, the parent unit screen turns off to save power. When sound is detected above a certain level from the baby unit, the screen will automatically turn on and provide a visual alert on the sound indicator bar.

Image: The monitor operates on a secure, private connection without Wi-Fi or apps.

Image: The monitor offers an extended range of up to 1000 feet for flexible monitoring.

Maintenance

Cleaning

Clean the baby monitor units with a slightly damp cloth. Do not use cleaning sprays or liquid cleaners. Ensure units are dry before use.

Battery Care

To maintain optimal battery life, fully charge the parent unit before first use and whenever the low battery indicator appears. Avoid extreme temperatures.

Troubleshooting

Issue	Solution

Issue	Solution
No Link / Out of Range	Ensure baby unit is powered on and within range (up to 1000ft). Move parent unit closer to baby unit. Avoid large metal objects or other electronic devices that may cause interference.
No Picture / Black Screen	Check if the baby unit is powered on. Ensure the parent unit battery is charged. If in VOX mode, make a sound near the baby unit to activate the screen.
Sound Issues (Static, Echo, No Sound)	Adjust the volume on the parent unit. Move the parent unit closer to the baby unit. Ensure no other devices are causing interference.
Poor Night Vision Quality	Ensure the baby unit's lens is clean. Check for any obstructions blocking the infrared LEDs.
Parent Unit Battery Drains Quickly	Ensure the parent unit is fully charged before use. Reduce screen brightness. Use VOX mode to turn off the screen when quiet.

Specifications

Feature	Detail
Model Name	VM819-2
Screen Size	2.8 Inches
Connectivity Technology	Wireless (2.4GHZ FHSS)
Number of Cameras	2
Range	Up to 1000 feet
Battery Life (Video Streaming)	Up to 19 hours
Battery Life (Audio Only)	Up to 29 hours
Night Vision	Automatic Infrared
Two-Way Audio	Yes
Temperature Sensor	Yes
Lullabies	Yes (2 melodies, 2 ambient sounds)
VOX Mode	Yes (Sound-Activated Screen)
Mounting Type	Desktop or Wall Mount
Color	White
Dimensions (L x W x H)	4.9 x 1.24 x 2.8 inches
Item Weight	1.39 pounds
UPC	735078051004

To whom it may concern,

Multiple Models Confirmation Letter-BU

I, the undersigned, hereby confirm that the family models are listed in the following table.

These models are **identical** as follows:

- ☒ Electronics/electrical designs, including software & firmware
- ☒ Construction design/Physical design/Enclosure
- ☒ PCB layout
- ☐ (Others, please specify)_____

The only **differences** between these models are the follows for marketing purpose:

- ☒ Color
- ☐ Cosmetic details
- ☐ Trade name
- ☒ Model Number
- ☒ (Others, please specify)

Model VM3256-ab BU/ VM819-ab BU is identical to model VM350-ab BU except for model designation and appearance.

- ☒ Suffix ("-2,-3") represents
- ☐ Color code
- ☐ Packing configuration
- ☒ Others, please specify) ,
  - suffix is alphanumeric character or blank is presenting number of baby unit.
  - 5 = any alphanumeric character or blank is presenting color of enclosure.

For the product subject to authorization under FCC Declaration of Conformity:

In addition, it is to confirm that all the below information

1) the U.S. responsible party,

2) FCC label artworks and location,

3) FCC required statement in the user manual

are the same but different in the following model numbers only:

Item No.	New model	Model Number	Trade Name	Remarks
1	☒YES	VM350 BU	vtech	1 baby unit
2	☒YES	VM350-2 BU	vtech	2 baby unit
3	☒YES	VM350-ab BU	vtech	a baby unit
4	☒YES	VM3256 BU	vtech	1 baby unit
5	☒YES	VM3256-2 BU	vtech	2 baby unit
6	☒YES	VM3256-ab BU	vtech	a baby unit
7	☒YES	VM819 BU	vtech	1 baby unit
8	☒YES	VM819-2 BU	vtech	2 baby unit
9	☒YES	VM819-ab BU	vtech	a baby unit

The sample being submitted to Bay Area Compliance Labs Corp.(Shenzhen) for conformity assessment is VM3456 BU (test model) of the above list.
All above model's FCC ID is EW780-1383-09, IC is 1135B-80136309.

Regards,

Michael Tsui

Frequently Asked Questions

How do I pair/register my Baby Unit to my Parent Unit?

Step 1 Press **MENU** on the Parent Unit.

Step 2 Press ◄ or ► to scroll to the Camera icon with the + sign, then press ▲

Step 3 Press ▲ or ▼ to choose an empty Baby Unit slot (CAM 1 -4) then press **MENU/SELECT**. The Parent Unit will display an hourglass icon.

Step 4 Poke the **PAIR** hole on the underside of the Baby Unit with a narrow object such as a pen point. The Baby Unit **On/Off** LED will flash.

A check mark appears on the Parent Unit to confirm successful pairing.

The battery in the Parent Unit is not holding a charge.

Ensure that the battery is properly installed and connected to the Parent Unit. Look for the battery icon in the upper right corner of the display.

Check the installation of the power adapter, both at the electrical outlet and Parent Unit. The electrical outlet should not be controlled by a switch.

A full charge takes approximately 12 hours.

If the battery has been in service for more than one year, replace the battery. Batteries can be purchased at www.vtechphones.com.

I cannot hear my child on the Parent Unit

Try increasing the sensitivity level on the Parent Unit. The baby Unit may not detect sounds when the sensitivity level is set below a certain level. To adjust the sensitivity:
