ProCase Rugged Shockproof Case for iPad Pro 11-inch (PC-08363001)

User Manual

1. PRODUCT OVERVIEW

The ProCase Rugged Shockproof Cover Case (Model PC-08363001) is designed to provide comprehensive protection for your Apple iPad Pro 11-inch. This case is compatible with the 4th Gen 2022 (A2759, A2435, A2761, A2762), 3rd Gen 2021 (A2377, A2459, A2301, A2460), 2nd Gen 2020 (A2228, A2231, A2068, A2230), and 1st Gen 2018 (A1980, A2013, A1934, A1979) models. It features a multi-layer construction, a 360-degree rotatable kickstand, an ergonomic hand strap, and a built-in Apple Pencil holder.

This case is engineered to protect your device from accidental drops, shocks, and scratches, making it ideal for various environments and uses.

3. SETUP AND INSTALLATION

Proper installation ensures maximum protection for your iPad. Follow these steps carefully:

1. **Disassemble the Case:** Carefully separate the three layers of the case: the hard PC front cover, the hard PC inner cover, and the shock-absorbing TPU shell. Begin by peeling back the TPU outer layer from the corners, then unclip the hard PC inner frame.
2. **Insert iPad into Inner Frame:** Place your iPad Pro 11-inch into the hard PC inner cover, ensuring all edges are securely seated.
3. **Attach Front Cover:** Snap the hard PC front cover onto the inner frame, making sure all clips engage properly around the iPad's screen.

4. **Reinstall TPU Shell:** Carefully wrap the shock-absorbing TPU outer shell around the assembled inner frame and iPad. Ensure all ports, buttons, and camera cutouts align correctly and the TPU layer is snug around the entire device.

4. OPERATING FEATURES

4.1 360-Degree Rotatable Kickstand

The integrated kickstand allows for versatile viewing and typing angles. Rotate the kickstand to achieve horizontal or vertical orientations. Extend the stand to prop up your iPad for hands-free use, whether for watching videos, typing, or video calls.

5. MAINTENANCE

To ensure the longevity and effectiveness of your ProCase Rugged Shockproof Case, follow these maintenance guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and grime. For stubborn stains, use a mild soap solution and rinse thoroughly. Ensure the case is completely dry before re-installing your iPad.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong chemicals, as these can damage the material and finish of the case.
- **Inspect Regularly:** Periodically check the case for any signs of wear, cracks, or damage, especially after significant impacts. Replace the case if its protective integrity is compromised.
- **Storage:** Store the case in a cool, dry place away from direct sunlight when not in use.

6. TROUBLESHOOTING

If you encounter any issues with your ProCase Rugged Shockproof Case, consider the following:

- **Difficulty Installing/Removing:** The case is designed for a snug fit to provide maximum protection. Ensure you follow the disassembly/assembly steps carefully, applying gentle but firm pressure. Do not force components, as this may cause damage.
- **Buttons Not Responding:** Verify that the iPad is correctly seated within the case and that the case's button covers are aligned with the iPad's physical buttons. Re-adjust if necessary.
- **Ports Not Accessible:** Check for proper alignment of the case with the iPad's ports. If a port is obstructed, the case might not be fully seated or correctly assembled.
- **Kickstand or Hand Strap Issues:** Ensure the kickstand is fully extended and locked into position for stability. For the hand strap, ensure it is adjusted to a comfortable tension.

If problems persist, please contact ProCase customer support for assistance.
