Setup and Installation

This section provides general guidelines for installing your Axxess car stereo. Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

Mounting

- The unit is designed for **Dashboard Mount** installation.
- Use the provided frame to secure the unit into the vehicle's double-DIN slot.
- Ensure the unit is firmly seated and does not obstruct any vehicle controls or airbags.

Wiring Connections

- Connect the main power harness using the provided couplers. Ensure a secure connection to avoid power interruptions.
- Attach the **GPS Coupler** to the designated port for navigation functionality.
- Connect the **Antenna Pin** for FM radio reception.
- Utilize the **USB Cable** for connecting external storage devices or charging compatible devices.
- For reverse camera integration, connect the **Camera Connector**.
- If using external amplifiers or a subwoofer, connect the **RC Out Cable** and **Subwoofer Coupler** accordingly.
- Connect the **Charging Cable** to the appropriate power source.
- For vehicles with steering wheel controls, connect the **OEM Steering Wheel Control** wires as per your vehicle's wiring diagram.

MAINTENANCE

To ensure the longevity and optimal performance of your Axxess car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and exterior. Avoid abrasive cleaners or solvents.
- **Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Software Updates:** Periodically check for and install software updates to ensure system stability and access to new features.
- **Power Management:** Ensure proper vehicle electrical system function to prevent power fluctuations that could damage the unit.

TROUBLESHOOTING

If you encounter issues with your Axxess car stereo, refer to the following common troubleshooting steps:

- **No Power:**
  - Check all power connections and fuses in your vehicle.
  - Ensure the vehicle's ignition is on.

- **No Sound:**
  - Verify speaker connections.
  - Check volume levels and mute settings.
  - Ensure the correct audio source is selected.

- **Bluetooth Connection Issues:**
  - Ensure Bluetooth is enabled on both the stereo and your device.
  - Delete previous pairings and attempt to re-pair.
  - Move your device closer to the stereo.

- **GPS Not Working:**
  - Ensure the GPS antenna is properly connected and has a clear view of the sky.
  - Check GPS settings within the Android system.

- **Touchscreen Unresponsive:**
  - Restart the unit.
  - Ensure the screen is clean and free of debris.

If problems persist, consult a qualified technician or contact Axxess customer support.
