Polisport Motocross (MX) Replica Plastic Enduro Kit for Kawasaki KLR 650 (2008-2018)

Instruction Manual

INTRODUCTION

This manual provides essential information for the installation, use, and maintenance of your Polisport MX Replica Plastic Enduro Kit. This kit is designed to offer an OEM-quality replacement for your Kawasaki KLR 650 (2008-2018) dirt bike, ensuring a perfect fit, durability, and enhanced aesthetics. Polisport is a leading manufacturer committed to high standards and continuous innovation in plastic components for motorcycles.

IMPORTANT SAFETY INFORMATION

Always wear appropriate safety gear when working on your motorcycle. Ensure the motorcycle is stable and secure before beginning any installation. If you are unsure about any step, consult a qualified mechanic. Improper installation can lead to damage to the product or motorcycle, and may compromise rider safety.

- Ensure the motorcycle is turned off and cooled down before handling any parts.
- Use appropriate tools for installation to prevent damage to fasteners or plastic components.
- Keep all small parts and fasteners away from children.
- Dispose of old parts responsibly.

PACKAGE CONTENTS

Your Polisport MX Replica Plastic Enduro Kit for Kawasaki KLR 650 (2008-2018) includes the following components:

- Front Fender
- Rear Fender
- Radiator Scoops (2)
- Side Panels (2)

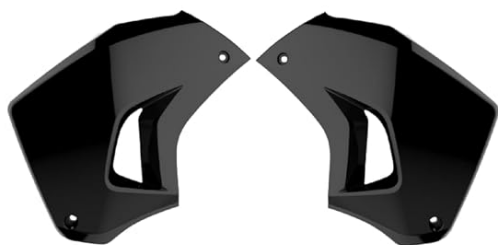

90858

FRONT FENDER

REAR FENDER

RADIATOR SCOOPS (2)

SIDE PANELS (2)

BODY PROTECTION

Restyling kits protect your bike's original surface from abrasion by acting as a buffer during minor impacts.

MODERN DESIGNS

Polisport restyling kit embraces new, slick designs while keeping the pieces simple to replace and install.

FITMENT OPTIONS

**KAWASAKI KLR 650
(2008-2018)**

Easy installation.

No special hardware.

No changes to bike seat or tank.

REVIVE YOUR RIDE

Image: This kit is specifically designed for Kawasaki KLR 650 models from 2008 to 2018, ensuring easy installation with no special hardware or modifications to the bike's seat or tank.

General Installation Steps:

- 1. Preparation:** Park your Kawasaki KLR 650 on a stable, level surface. Ensure the engine is off and cool. Gather necessary tools (e.g., screwdrivers, wrenches, plastic trim removal tools).
- 2. Removal of Old Plastics:** Carefully identify and remove the existing plastic components (front fender, rear fender, radiator scoops, side panels). Note the location and type of fasteners used for each part. Keep all fasteners organized.
- 3. Installation of New Plastics:**
 - Begin with the front fender. Align the pre-drilled holes on the new Polisport fender with the mounting points on your bike. Secure it using the original fasteners.
 - Proceed to the rear fender, aligning and securing it in the same manner.
 - Install the radiator scoops, ensuring they fit snugly and are properly aligned with their mounting points.
 - Finally, attach the side panels. Ensure all tabs and clips engage correctly for a secure fit.

4. **Final Check:** Once all new plastic components are installed, gently tug on each part to ensure it is securely fastened and does not wobble. Double-check all fasteners for tightness.

OPERATING AND USAGE

Once installed, your Polisport MX Replica Plastic Enduro Kit provides enhanced protection and a refreshed aesthetic for your Kawasaki KLR 650.

- **Enhanced Protection:** The durable plastic construction provides reliable coverage against scratches, debris, and weather elements encountered during off-road riding.
- **OEM Quality and Fit:** Designed as an exact replica of stock OEM plastic, the kit ensures a perfect fit and maintains the original lines of your motorcycle.
- **Durability and Flexibility:** Crafted from high-resistance materials, these plastics are built to withstand impacts and the rigors of motocross and enduro riding.

- **Aesthetic Upgrade:** The kit restores the appearance of your bike, offering a maximum gloss finish and bold color that holds up well over time.

MAINTENANCE

To ensure the longevity and appearance of your Polisport plastic kit, follow these simple maintenance guidelines:

- **Cleaning:** Wash the plastic components regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners, which can damage the finish. Use a soft cloth or sponge.
- **Protection:** Consider applying a plastic polish or protectant designed for motorcycle plastics to maintain the gloss and protect against UV degradation.
- **Inspection:** Periodically inspect all plastic parts for cracks, damage, or loose fasteners. Address any issues promptly to prevent further damage or potential safety hazards.

TROUBLESHOOTING

Most issues related to the Polisport plastic kit are minor and can be resolved with basic checks.

Problem	Possible Cause	Solution
Plastic part does not fit correctly.	Incorrect model year, misaligned mounting points, or original fasteners not fully removed.	Verify the kit is for Kawasaki KLR 650 (2008-2018). Re-align the part carefully, ensuring all pre-drilled holes match. Check for any obstructions or remaining old fasteners.
Part feels loose after installation.	Fasteners not tightened sufficiently, or missing fasteners.	Ensure all fasteners are present and tightened to the manufacturer's specifications. Do not overtighten, as this can strip threads or crack plastic.
Scratches or dull finish appear prematurely.	Abrasive cleaning agents used, or exposure to harsh chemicals/UV without protection.	Use only mild soap and water for cleaning. Apply a plastic protectant regularly. Minor scratches may be buffed out with specialized plastic polish.

SPECIFICATIONS

Attribute	Detail
Brand	Polisport
Model	Enduro Replica Plastic
Item Model Number	90858
Color	Black
Material	Plastic
Exterior Finish	Plastic
Vehicle Service Type	Motorcycle
Fit Type	Vehicle Specific Fit (Kawasaki KLR 650, 2008-2018)
Item Weight	6.91 pounds
