SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Always supervise children and individuals with limited mobility when using the bathtub.
- Ensure the bathtub is placed on a flat, stable, and non-slip surface before filling with water.
- Do not overfill the bathtub. The water level should be appropriate for the user to prevent overflow.
- Check water temperature before entering to avoid burns.
- Avoid using abrasive cleaners or sharp objects that could damage the bathtub material.
- Do not stand on the edges of the bathtub.
- Keep away from open flames or high heat sources.
- After use, ensure the bathtub is completely drained and dried before folding and storing to prevent mold or mildew.

PACKAGE CONTENTS

Verify that all components are present in the package:

- Foldable Bathtub x1
- Inflatable Back Seat x1
- Inflatable Seat x1
- Bathtub Top Cover x1
- Bathtub Cover x10 (Disposable liners)
- Storage Bag x1

SETUP INSTRUCTIONS

The Kiseely Portable Bathtub is designed for quick and easy assembly. Follow these steps:

1. **Unfold the Bathtub:** Carefully remove the bathtub from its storage bag. Place it on a flat, stable surface. Gently pull the sides outwards until the bathtub is fully expanded and the support rods are locked into place.
2. **Install Support Rods (if applicable):** Ensure all internal support rods are correctly positioned and secured to provide stability.
3. **Inflate Seats:** Use a pump (not included) to inflate the back seat and main seat. Insert them into the bathtub as desired for comfort.
4. **Position the Bathtub:** Place the bathtub in your desired location, ensuring it is on a level surface and near a drain for easy water disposal.
5. **Attach Drain Hose (if included):** If a drain hose is provided, attach it securely to the bathtub's drain outlet.

Lid is included to keep water hot for longer time

OPERATION

Using your Kiseely Portable Foldable Bathtub is straightforward:

1. **Fill with Water:** Begin filling the bathtub with water. Always check the water temperature before entering.
2. **Use Bathtub Cover:** For extended heat retention, place the bathtub top cover over the tub once filled. The bathtub's 6-layer material is designed to maintain water temperature for up to 120 minutes.
3. **Enjoy Your Bath:** Enter the bathtub carefully. The spacious design allows for comfortable soaking.
4. **Drain Water:** After use, open the drain plugs (both side and bottom drains) to empty the water. Ensure the water flows directly into a suitable drain.

Image: An exploded view diagram showing the six layers of material used in the bathtub's construction, including waterproof canvas, high-density flocking cloth, pearl cotton, synthetic PVC, heat preservation coating, and polyester peach skin, designed for efficient temperature retention.

MAINTENANCE AND STORAGE

Proper care ensures the longevity of your bathtub:

- **Cleaning:** After each use, rinse the bathtub thoroughly with clean water. Use a mild soap and soft cloth for cleaning if necessary. Avoid harsh chemicals or abrasive brushes.
- **Drying:** Ensure the bathtub is completely dry before folding and storing. This prevents mildew and extends the product's life.
- **Folding:** Once dry, carefully fold the bathtub back into its compact form.
- **Storage:** Store the folded bathtub in its provided storage bag in a cool, dry place away from direct sunlight and extreme temperatures.

ONLY 5 CM AFTER FOLDING

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|------------------------|--|---|
| Bathtub is not stable. | Not fully unfolded; support rods not locked; uneven surface. | Ensure the bathtub is fully expanded and all support rods are securely in place. Place on a flat, level surface. |
| Water is leaking. | Drain plug not sealed; material damage. | Check that the drain plugs are securely closed. Inspect the bathtub for any visible damage or punctures. Contact customer support if damage is found. |
| Strong plastic smell. | New product odor. | Rinse the bathtub thoroughly with warm water and mild soap. Allow it to air out in a well-ventilated area for several days before first use. |

| Problem | Possible Cause | Solution |
|-------------------------------|--|--|
| Water cools down too quickly. | Bathtub cover not used; extreme ambient temperature. | Ensure the bathtub top cover is used during bathing. The 6-layer material helps retain heat for up to 120 minutes. |
