

Marantec Comfort 260

Marantec Comfort 260 Garage Door Operator User Manual

Model: Comfort 260 | Brand: Marantec

1. INTRODUCTION AND OVERVIEW

The Marantec Comfort 260 is a high-quality garage door operator designed for reliable and energy-efficient automation of various garage door types. This system is engineered for both swing gates and sectional doors, offering enhanced safety features and user convenience.

Key features include integrated power-saving technology, LED lighting, and a sensitive obstacle detection system that ensures the gate stops and reverses upon contact with an obstruction. The system also incorporates slide-on protection to prevent unintended movement. With its robust design and advanced radio technology, the Comfort 260 provides a secure and comfortable solution for your garage door automation needs.

2. SAFETY INSTRUCTIONS

Always prioritize safety when installing, operating, or maintaining the garage door operator. Failure to follow these instructions could result in serious injury or property damage.

- Ensure the installation area is clear of obstructions and that the garage door operates smoothly manually before installing the operator.
- Do not allow children to play with or near the garage door operator or its controls. Keep remote controls out of reach of children.
- Never walk or stand under a moving garage door.
- Regularly inspect the garage door system, including springs, cables, rollers, and pulleys, for signs of wear or damage. Do not attempt to repair these components yourself; contact a qualified technician.
- The Comfort 260 features a sensitive obstacle detection system. Test this feature periodically by placing a soft object (e.g., a cardboard box) in the path of the closing door to ensure it reverses upon contact.
- In case of power failure, use the manual release mechanism to operate the door. Refer to the installation guide for details on manual release.
- Disconnect power to the operator before performing any maintenance or repairs.

3. PACKAGE CONTENTS

Carefully unpack the box and verify that all components are present. If any items are missing or damaged, contact your retailer immediately.

Image: The Marantec Comfort 260 garage door operator, including the main unit, power cable, and handheld transmitter, displayed next to its packaging box.

- Marantec Comfort 260 Drive Unit with integrated control
- 1 Handheld Transmitter (with 1 CR2032 battery included)
- 1 Module Receiver
- 1 Universal Installation Kit for swing and sectional doors
- 1 Power Cable with plug
- Operating Instructions (this manual)
- Warning Sticker

Note: Drive rail can be selected separately depending on the gate height and is not included in this standard package.

4. SETUP AND INSTALLATION

The Marantec Comfort 260 is designed for quick and easy assembly with common tools. Refer to the detailed installation guide provided in the package for specific steps and diagrams. This section provides a general overview.

Image: The main unit of the Marantec Comfort 260 garage door operator, showing its compact design and connection to the drive rail.

4.1 Pre-Installation Checks

- Verify the type and weight of your garage door are within the operator's specifications (e.g., swing gates up to 3.5m width/90kg, sectional doors up to 5m width/90kg).
- Ensure adequate clearance around the door and the installation area for the operator and rail system.
- Confirm a suitable power outlet is available near the installation point.

4.2 Mounting the Drive Unit and Rail

Mount the drive unit securely to the ceiling or wall above the garage door opening, following the instructions in the universal installation kit. Assemble and attach the drive rail to the unit and the door.

4.3 Electrical Connection

Connect the power cable to the drive unit and plug it into a grounded electrical outlet. Ensure all connections are secure.

4.4 Programming and Limit Settings

Follow the instructions in the detailed manual to program the opening and closing limits of your garage door. This step is crucial for safe and proper operation.

Image: Close-up view of the Marantec Comfort 260 control panel, showing the display and programming buttons.

5. OPERATING INSTRUCTIONS

The Marantec Comfort 260 offers convenient and secure operation via its handheld transmitter and optional accessories.

5.1 Using the Handheld Transmitter

Image: A person demonstrating the ease of use of the Marantec handheld transmitter to operate the garage door.

- The handheld transmitter uses secure bi.linked radio technology with 128-bit encryption and rolling codes for maximum security.
- Press the assigned button on the transmitter to open or close the garage door. The operator features soft start and soft stop functions for smooth and quiet operation.
- The transmitter has two function keys that can be freely assigned for various commands or to control other Marantec devices.

Image: Detailed view of the Marantec handheld transmitter, showing its compact size and key dimensions (60mm, 39mm, 12mm).

5.2 Smart Home Integration (maveo)

The Comfort 260 is compatible with the maveo smart home system, allowing you to integrate your garage door into a smart home environment. This enables control via smartphone apps and linkage with other smart devices.

5.3 Advanced Settings

Further settings can be programmed on the drive unit, such as gate running speed and intermediate positions. Refer to the detailed programming guide for instructions on accessing and adjusting these parameters.

Image: The Marantec garage door operator installed in a garage, illuminating the space with its integrated LED lighting, with a car parked underneath.

6. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your Marantec Comfort 260 garage door operator. Always disconnect power before performing any maintenance.

- **Monthly:** Inspect the garage door and operator for any signs of wear, damage, or loose parts. Check the balance of the door by manually opening it halfway; it should stay in place.
- **Quarterly:** Lubricate moving parts of the garage door (rollers, hinges, bearings) with a garage door specific lubricant. Do not lubricate the operator's drive rail unless specified by Marantec.
- **Annually:** Have a qualified technician perform a comprehensive inspection and service of your garage door system and operator.
- Keep the area around the operator clean and free from debris.

Image: Close-up view of the integrated LED lighting module within the Marantec Comfort 260 operator, highlighting its energy-efficient design.

7. TROUBLESHOOTING

This section provides solutions to common issues you might encounter with your Marantec Comfort 260 garage door operator. For problems not listed here, or if solutions do not resolve the issue, contact customer support.

Problem	Possible Cause	Solution
Door does not move or stops unexpectedly.	Power outage; Obstruction in door path; Remote control battery low; Safety sensors misaligned.	Check power supply; Remove obstruction; Replace remote battery (CR2032); Align safety sensors.
Remote control not working.	Battery dead; Out of range; Remote needs reprogramming.	Replace battery; Move closer to the operator; Refer to manual for reprogramming steps.
Door reverses immediately after touching the floor.	Closing force setting too high; Limit settings incorrect.	Adjust closing force (refer to manual); Re-program limit settings.
Unusual noises during operation.	Lack of lubrication; Worn parts; Loose components.	Lubricate door components; Inspect for worn or loose parts and tighten/replace as necessary.

8. SPECIFICATIONS

Detailed technical specifications for the Marantec Comfort 260 garage door operator.

Model	Comfort 260
Part Number	183501
Item Weight	3.2 Kilograms
Product Dimensions	36 x 19 x 12.5 cm
Color	Black
Material	Metal
Handheld Transmitter Battery	1 CR2032 (included)
Max. Gate Weight (Swing/Sectional)	90 kg
Max. Gate Width (Swing)	3.5 m
Max. Gate Width (Sectional)	5 m (single-walled), 3 m (double-walled)
Running Speed	Max. 160 mm/sec

9. WARRANTY AND SUPPORT

Marantec stands behind the quality of its products.

Image: A graphic indicating "Made in Germany" quality and a "5-year warranty" for Marantec products.

9.1 Warranty Information

Marantec offers a **5-year warranty** on drive systems for private use. This warranty covers the engine unit and the engine control. Replacement parts receive a **6-month warranty**.

Please retain your proof of purchase for warranty claims.

9.2 Customer Support

For technical assistance, troubleshooting not covered in this manual, or warranty inquiries, please contact Marantec customer support:

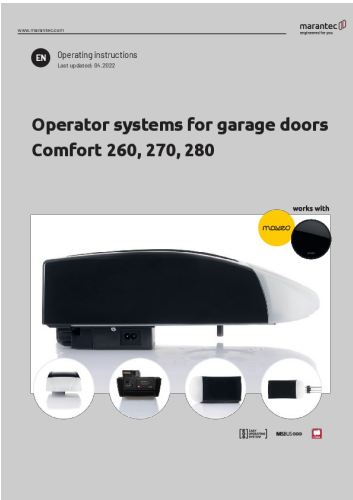

Email: info@marantec.com

Please visit the official Marantec website for regional contact information and further resources.

maveo connect stick - plug & play connectivity module

192584

maveo connect Basic-Bundle - plug & play connect kit; module incl. Special 630 photoaid

Features

Remote Door Control

Open and close your garage door with a tap on your smartphone. No more searching for remotes or struggling with manual operation.

Light Control

Switch on the garage door opener's light with a simple tap of the app, ensuring safety and visibility in your garage.

Status at a Glance

Always know whether your garage door is open or closed with just one look: status right on your smartphone.

Auto-Close Timer

Set up a timer to automatically close your garage door after a specified time. For added safety, our bundle includes a light barrier, ensuring your garage door won't close if there's an obstruction.

Coming-Home Scenario

Create a preference around your home: when you enter the zone, maveo connect stick sends you a push notification, offering a quick way to open your garage door as you arrive.

Guest Passes

Share access to your garage with friends and family effortlessly. Manage their access and revoke permissions instantly, so you're always in control. Never lost remotes again!
