5. OPERATING INSTRUCTIONS

The VECELO Daybed is designed for multi-functional use, serving as both a comfortable bed and a stylish seating area.

Using as a Daybed/Sofa:

To use the frame as a daybed or sofa, simply arrange pillows and cushions against the back and sides to create a comfortable seating area. The sturdy metal frame provides excellent support for lounging.

Using as a Bed:

For sleeping, ensure a standard twin-size mattress is placed securely on the steel slats. The robust construction provides a stable and comfortable sleeping surface without the need for a box spring.

Trundle Bed Operation (if applicable to your model):

Some VECALO daybed models include a pull-out trundle bed for additional sleeping space. If your model includes this feature, the trundle frame typically rolls out from underneath the main daybed. It often features 360-degree swivel casters for easy movement and locking mechanisms to keep it in place when in use or stored.

6. MAINTENANCE

Proper maintenance will ensure the longevity and continued performance of your VECELO Daybed Frame.

- **Cleaning:** Wipe the metal frame with a dry cloth to remove dust. For deeper cleaning, use a damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** Keep the daybed in a dry environment to prevent rust or damage to the metal finish.
