WHAT'S IN THE BOX

Your Tek Styz Bluetooth 5.3 Headset package includes the following components:

- (1) Bluetooth Earbud
- (1) MicroUSB Charging Cable
- (3) Ear Adapters (various sizes for optimal fit)
- (1) Large Over-Ear Adapter (ear hook)
- User Manual (this document)

KEY FEATURES

- **Ultra-Compact Design:** Lightweight and designed for comfort, featuring IPX5 water resistance.
- **Advanced Noise Cancellation:** Equipped with DUAL noise-isolating 6.0 chips and CVC6.0 + DSP for high-fidelity sound and clear communication via dual microphones.
- **Extended Battery Life:** Offers up to 24 hours of talk/listen time and 720 hours of standby time on a single 2-hour charge.
- **Bluetooth 5.3 Technology:** Provides a stable connection and reduced power consumption with long-range capability (up to 33ft).
- **Multi-functional Control:** A single button allows for answering/rejecting calls, pausing music, and activating voice notifications.
- **On-Screen Battery Display:** For newer Android/iOS devices, battery life can be viewed directly on your phone, complemented by a 4-level LED indicator on the headset.
- **Wide Compatibility:** Certified to work with various smartphones, laptops, computers, and tablets running Android, Windows, and iOS systems.

SETUP GUIDE

1. Charging the Headset

Before first use, fully charge your headset. Connect the provided MicroUSB charging cable to the headset's charging port and the other end to a USB power source (e.g., computer USB port, wall adapter). The charging indicator light will behave as follows:

- **Charging:** Indicator light is red/solid.
- **Fully Charged:** Indicator light turns blue/off.

A full charge typically takes approximately 2 hours.

2. Powering On/Off

- **Power On:** Slide the power switch to the "ON" position. You will hear an audible prompt.

- **Power Off:** Slide the power switch to the "OFF" position. You will hear an audible prompt.

3. Pairing with Your Device

To connect your headset to a Bluetooth-enabled device:

1. Ensure the headset is powered off.
2. Press and hold the multi-function button until the indicator light flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "Tek Styz Headset" or similar name from the list of found devices.
5. Once connected, the indicator light on the headset will flash blue slowly, and you will hear a confirmation tone.

The headset can connect to two devices simultaneously. After successful pairing, the headset will automatically attempt to reconnect to the last paired device when powered on.

4. Adjusting the Fit

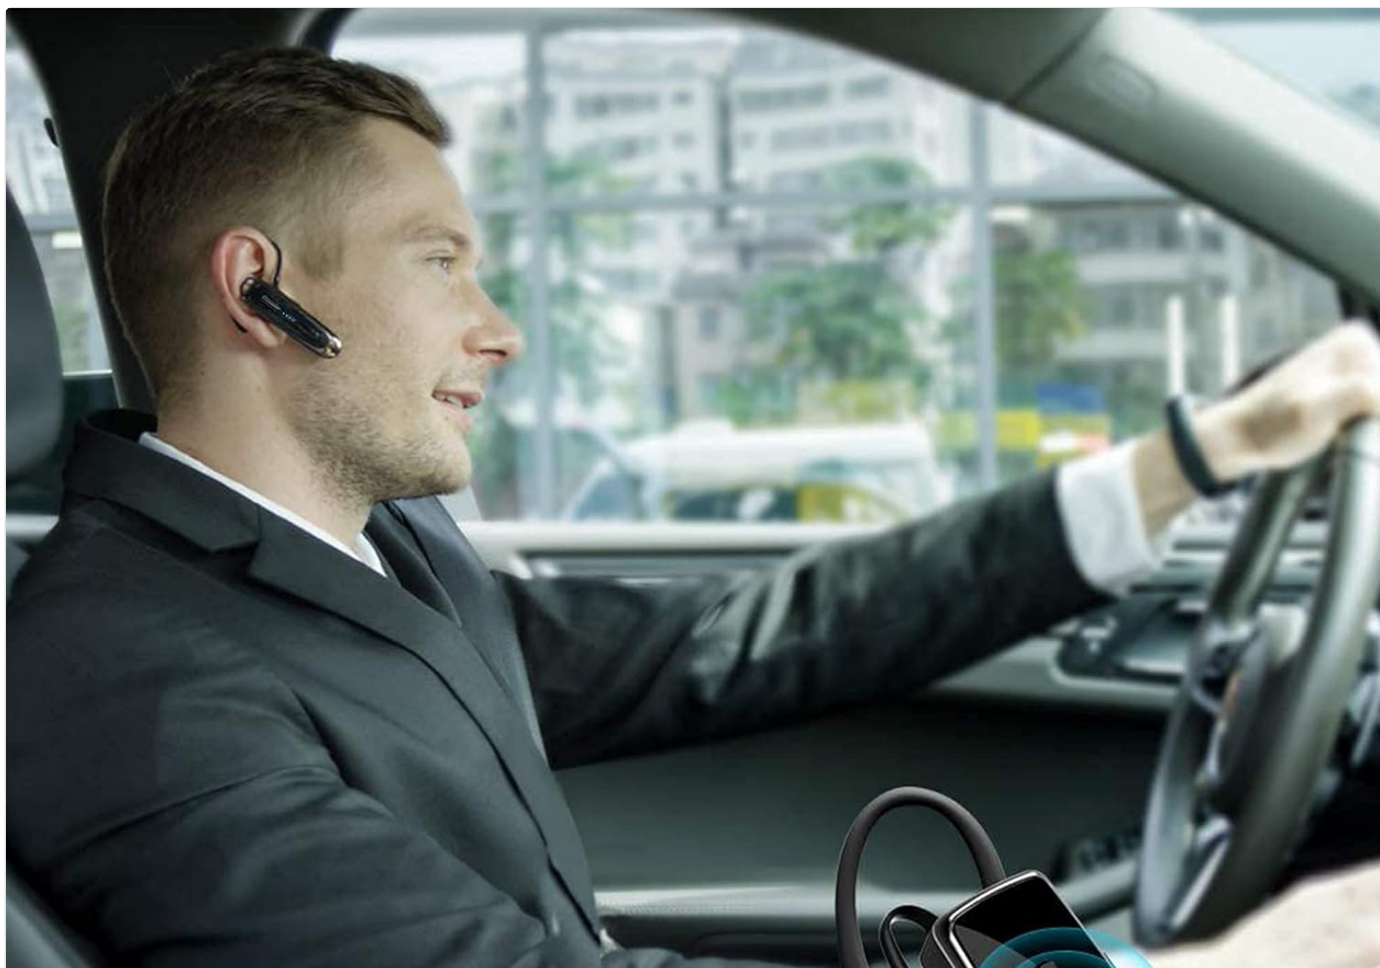

The package includes multiple ear adapters and an over-ear adapter (ear hook) to ensure a comfortable and secure fit. Experiment with different sizes and the ear hook to find the best fit for your ear.

OPERATING INSTRUCTIONS

Multi-function Button Operations

The main button on the headset controls various functions:

- **Power On/Off:** Slide the dedicated power switch.
- **Answer/End Call:** Short press the multi-function button.
- **Reject Call:** Press and hold the multi-function button for 2 seconds.
- **Redial Last Number:** Double-click the multi-function button.
- **Play/Pause Music:** Short press the multi-function button during music playback.
- **Activate Voice Assistant (Siri/Google Assistant):** Long press the multi-function button for 3 seconds.

Multi-Function Answer, Hang up, Pause, Skip, Next

- Answer or end calls; double-click redial recent calls
- When listening to the music, click to pause, and then click to play
- Volume+/Previous Track and Volume-/Next Track Buttons

Image: Visual guide to the multi-function button, illustrating controls for calls, music playback, and track navigation.

Volume Control and Track Navigation

The headset features dedicated buttons for volume and track control:

- **Volume Up:** Short press the Volume + button.
- **Volume Down:** Short press the Volume - button.
- **Next Track:** Long press the Volume + button.
- **Previous Track:** Long press the Volume - button.

Battery Level Indication

The headset provides battery level information in two ways:

- **LED Indicator:** The headset has a 4-level LED battery indicator (100%, 75%, 50%, 25%).
- **On-Screen Display:** For compatible Android and iOS devices, the battery level of the headset will be displayed on your phone's screen.

MAINTENANCE AND CARE

Proper care will extend the life of your Tek Styz Headset:

- **Cleaning:** Wipe the headset with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Water Resistance:** The headset is IPX5 water resistant, meaning it can withstand low-pressure water jets from any direction. It is not designed for submersion. Avoid exposing it to excessive moisture or liquids. *(Note: One product image indicates IPX3, but the product description and feature bullets state IPX5. Please refer to IPX5 for water resistance.)*
- **Storage:** Store the headset in a cool, dry place away from extreme temperatures and direct sunlight.
- **Battery Care:** To maintain battery health, avoid fully discharging the battery frequently. Charge the headset regularly, even if not in use for extended periods.

Image: The headset shown with water droplets, illustrating its water resistance. While the image text states IPX3, the product specifications confirm IPX5 water resistance.

TROUBLESHOOTING

If you encounter issues with your headset, please refer to the following common solutions:

Problem	Possible Cause / Solution
Headset does not power on.	Battery is depleted. Charge the headset for at least 30 minutes.
Cannot pair with device.	Ensure the headset is in pairing mode (flashing red and blue). Bluetooth is not enabled on your device. Headset is too far from the device (max 33 feet range). Clear previous Bluetooth connections on your device and try again.
No sound or poor sound quality.	Volume on headset or device is too low. Headset is out of range or connection is unstable. Ensure the headset is properly seated in your ear. Check for obstructions between the headset and your device. The headset features CVC6.0 + DSP for noise cancellation; ensure microphone is not obstructed.
Call quality is poor.	Ensure the microphone is not covered. Move closer to your connected device. Check for environmental noise interference.

Clear Microphone & CVC6.0 Noise Cancellation

Sensitive microphone extended down to your mouth, picks up voice perfectly.

CVC6.0 + DSP is the BEST Noise cancellation available to ensure clear sound heard and spoken!
