Tek Styz TS-1242

Tek Styz Bluetooth 5.3 Headset Instruction Manual

Brand: Tek Styz
Model: TS-1242

PRODUCT OVERVIEW

Image: The Tek Styz Bluetooth 5.3 Headset in white, featuring its ergonomic design and visible control indicators.

The Tek Styz Bluetooth 5.3 Headset is a wireless earpiece designed for clear communication and audio playback. It features advanced Bluetooth 5.3 technology for stable connections and efficient power consumption. This headset is compatible with a wide range of devices, including Android, iOS, Mac, and Windows systems, and is specifically designed to be compatible with Sony C5502 devices.

Equipped with dual microphones and CVC 6.0 noise cancellation, it aims to deliver high-quality sound and clear voice transmission, reducing background noise during calls. The headset is also IPX5 waterproof, offering protection against splashes and sweat, making it suitable for various environments.

KEY FEATURES

- **Bluetooth 5.3 Technology:** Provides a stable and efficient wireless connection with extended range and reduced power consumption.

- **Dual Microphones with CVC 6.0 Noise Cancellation:** Ensures clear communication by actively reducing ambient noise for both the user and the caller.
- **IPX5 Waterproof Rating:** Offers protection against water splashes and sweat, suitable for daily use and light outdoor activities.
- **Long Battery Life:** Up to 24 hours of talk time and music playback, with a standby time of up to 720 hours.
- **Multifunctional Control Button:** Allows for easy management of calls (answer/reject/hang up) and music playback (pause/play).
- **Voice Notifications:** Informs about incoming calls, battery levels, and pairing status (requires newest Android or iOS software).
- **Wide Compatibility:** Works with various smartphones, laptops, computers, and tablets across Android, iOS, Mac, and Windows operating systems.

SETUP

1. Unboxing and Initial Inspection

Upon opening the package, please verify that all components are present and in good condition. The retail box should contain the following items:

- One (1) Bluetooth Earbud Headset
- One (1) MicroUSB Charging Cable
- Three (3) Ear Adapters (various sizes for comfortable fit)
- One (1) Large Over Ear Adapter (ear hook)
- Instruction Manual (this document)

2. Charging the Headset

Long Lasting Battery Time

24 Hours Talking Time, 1440 Hours Standby Time

Image: Visual representation of the headset's long-lasting battery, capable of 24 hours of talk time.

Before first use, fully charge the headset. Connect the provided MicroUSB charging cable to the headset's charging port and the other end to a USB power source (e.g., computer USB port, wall adapter). The charging indicator light on the headset will show its charging status. A full charge typically takes approximately 2 hours.

Once fully charged, the headset provides up to 24 hours of talk time or music playback, and up to 720 hours of standby time.

3. Wearing the Headset

The headset comes with multiple ear adapters and an over-ear adapter (ear hook) to ensure a comfortable and secure fit. Experiment with different sizes of ear adapters to find the one that best seals in your ear canal for optimal sound quality and comfort. The over-ear adapter can be used for added stability, especially during movement.

Gently place the earbud into your ear and adjust the ear hook (if used) over your ear until the headset feels secure and comfortable. Ensure the microphone is positioned towards your mouth for clear voice pickup.

OPERATING INSTRUCTIONS

1. Power On/Off

- **To Power On:** Press and hold the Multifunction Button (or designated power button) for approximately 3-5 seconds until you hear a power-on prompt or see an indicator light.
- **To Power Off:** Press and hold the Multifunction Button (or designated power button) for approximately 3-5 seconds until you hear a power-off prompt or the indicator light turns off.

2. Bluetooth Pairing

Smart compatibel with various brands of digital products/multimedia

Image: The headset's broad compatibility with different digital products and multimedia devices.

To connect your headset to a new device:

1. Ensure the headset is powered off.
2. Press and hold the Multifunction Button for about 5-7 seconds until the indicator light flashes red and blue alternately, indicating it is in pairing mode.

3. On your device (smartphone, tablet, computer), go to Bluetooth settings and turn Bluetooth on.
4. Search for available devices. The headset should appear as "TS-1242" or a similar name.
5. Select the headset from the list to connect. Once paired, the indicator light will typically turn solid blue or flash slowly, and you may hear a connection confirmation sound.

The headset supports connecting to two devices simultaneously. After pairing with the first device, disable Bluetooth on the first device, pair with the second, then re-enable Bluetooth on the first device. The headset should automatically connect to both.

3. Call Management

Answer Hang up Key

- **Answer or end calls; double-click redial recent calls**
- **When listening to the music, click to pause, and then click to play**

Image: Demonstration of the headset's touch-sensitive area for call management.

- **Answer Call:** Press the Multifunction Button once when an incoming call rings.
- **End Call:** Press the Multifunction Button once during a call to hang up.
- **Reject Call:** Press and hold the Multifunction Button for about 2 seconds when an incoming call rings.
- **Redial Last Number:** Double-click the Multifunction Button to redial the last dialed number.

4. Music Playback

- **Play/Pause:** Press the Multifunction Button once to play or pause music.
- *(Note: Volume control and track skipping may be controlled via your connected device.)*

5. Voice Assistant Activation

If your connected device supports a voice assistant (e.g., Siri, Google Assistant), you can activate it through the headset. Press and hold the Multifunction Button for approximately 2 seconds (or as per your device's instructions) to activate the voice assistant.

6. Noise Cancellation

Clear Microphone & CVC6.0 Noise Cancellation

Sensitive microphone extended down to your mouth, picks up voice perfectly.

CVC6.0 Noise cancellation ensure clear sound being heard

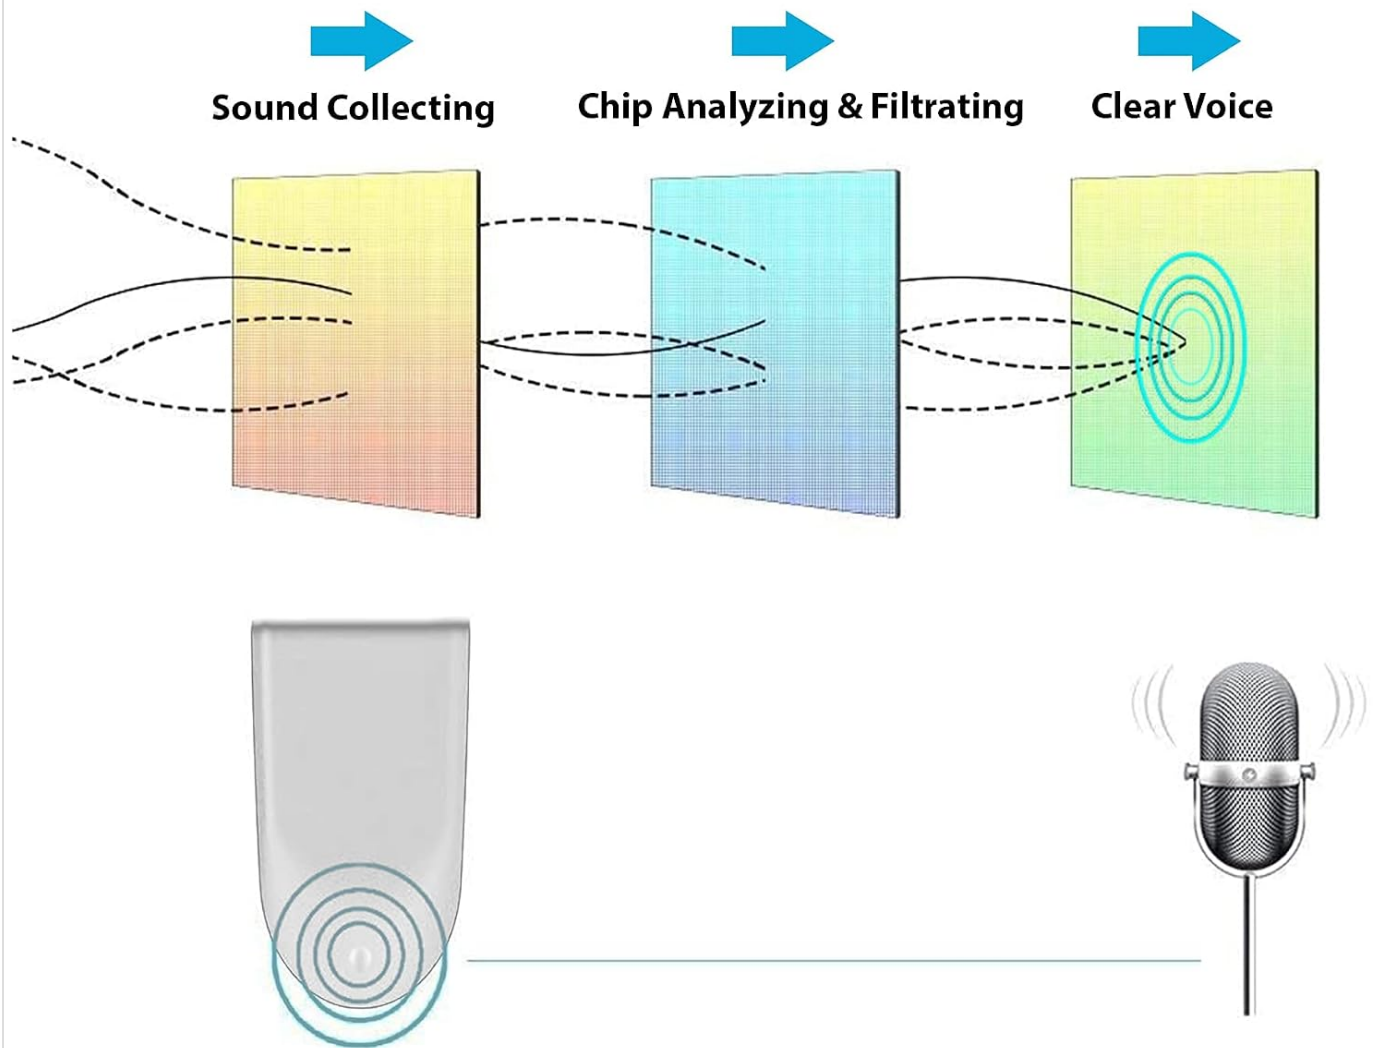

Image: How CVC6.0 noise cancellation processes sound for clear communication.

The headset features CVC 6.0 noise cancellation technology, which works to reduce ambient background noise during calls. This technology automatically processes incoming and outgoing audio to ensure your voice is heard clearly and distractions are minimized.

MAINTENANCE

1. Cleaning

To maintain the headset's performance and hygiene, regularly clean it with a soft, dry, lint-free cloth. For the ear adapters, you may gently wipe them with a damp cloth and mild soap, ensuring they are completely dry before reattaching. Do not use harsh chemicals, abrasive cleaners, or immerse the headset in water.

2. Storage

When not in use, store the headset in a cool, dry place, away from direct sunlight, extreme temperatures, and humidity. Avoid placing heavy objects on the headset to prevent damage. It is recommended to store it in its original packaging or a protective case.

3. Water Resistance (IPX5)

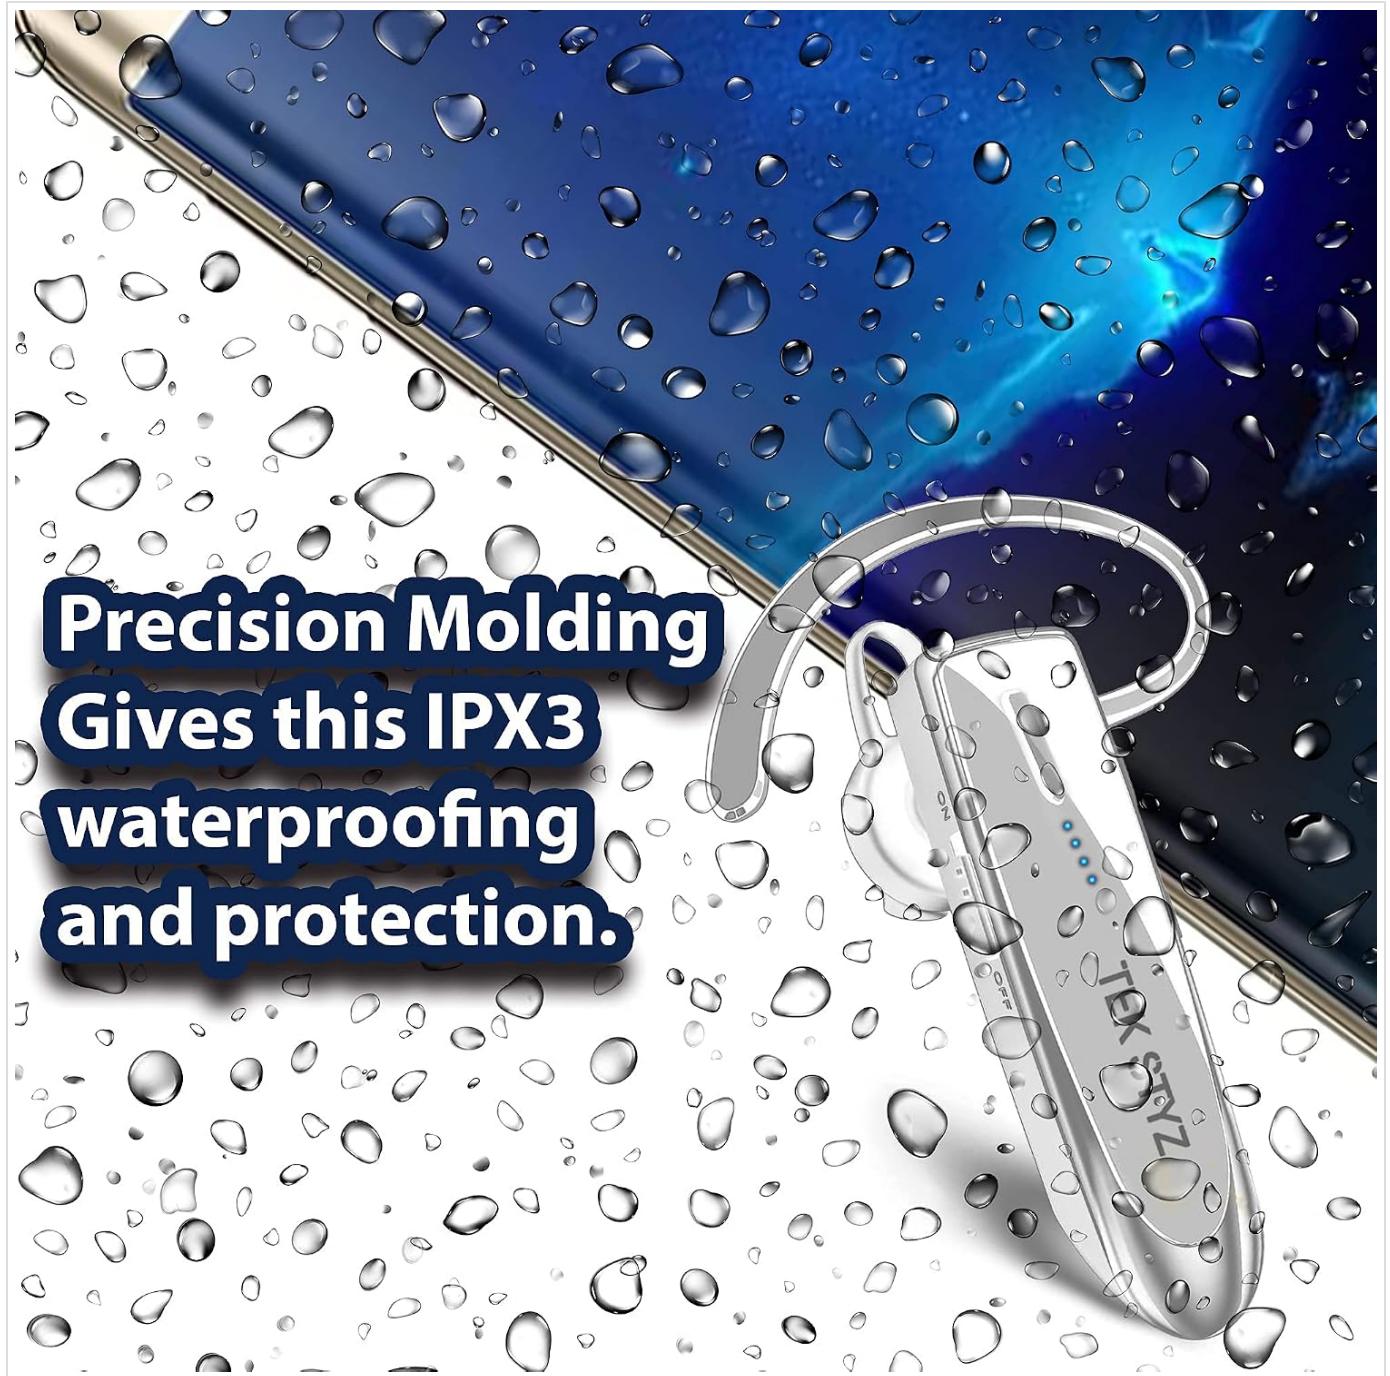

Image: The headset demonstrating its water-resistant properties. The product is rated IPX5 for protection against water jets.

The Tek Styz Bluetooth Headset is rated IPX5, meaning it is protected against low-pressure water jets from any direction. This makes it resistant to sweat and light rain. However, it is not designed for submersion in water. Do not expose the headset to running water, showers, swimming, or heavy rain. Ensure the charging port cover (if present) is securely closed when not charging to maintain water resistance.

TROUBLESHOOTING

If you encounter any issues with your headset, please refer to the following common problems and their solutions:

Problem	Possible Solution
Headset won't turn on.	Ensure the headset is fully charged. Connect it to the charger and wait for the charging indicator.
Cannot pair with device.	Ensure the headset is in pairing mode (flashing red/blue light). Make sure Bluetooth is enabled on your device. Move the headset closer to your device (within 33 feet). Forget/remove the headset from your device's Bluetooth list and try pairing again. Restart both the headset and your device.
No sound or poor sound quality.	Check the volume levels on both the headset and your connected device. Ensure the headset is properly connected to your device. Try a different ear adapter size for a better seal. Move away from sources of strong electromagnetic interference.
Microphone not working.	Ensure the headset is properly positioned with the microphone facing your mouth. Check microphone settings on your connected device. Ensure the headset is selected as the audio input device.
Battery drains quickly.	Ensure the headset is fully charged before use. Battery life can vary based on usage (e.g., high volume, continuous calls).
