General Assembly Steps:

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Attach the side posts to the headboard using the provided hardware.
3. Assemble the footboard, ensuring the base feet are correctly oriented.
4. Connect the side rails to the headboard and footboard. Ensure all connections are secure but do not fully tighten until the frame is square.
5. Install the center support beams and legs for added stability.

OPERATING INSTRUCTIONS

This platform bed frame is designed for direct mattress placement. No box spring or additional foundation is required. Simply place your latex, foam, or spring mattress on the wooden slats after assembly.

- **Under-Bed Space:** The 6-inch under-bed clearance allows for easy cleaning with vacuum cleaning robots.
