

LINNIW DH-JH01

LINNIW DH-JH01 HEPA Air Purifier Replacement Filter Instruction Manual

Brand: LINNIW | Model: DH-JH01

INTRODUCTION

Thank you for choosing the LINNIW DH-JH01 HEPA Air Purifier Replacement Filter. This manual provides essential information for the proper installation, operation, and maintenance of your new filter to ensure optimal air purification performance. This 4-in-1 True HEPA Filter is designed to enhance air quality by capturing various airborne particles and reducing unpleasant odors.

COMPATIBILITY

These replacement filters are compatible with the following air purifier models:

- VOOPNU DH-JH12
- ToLife TZ-K1
- FreAire KN6391
- Kloudi DH-JH01
- POMORON MG01JH and MJ001H
- EPI080/EP1080
- MK0I MK0b Air Purifier

Wide Compatibility

Perfect Fit for Your Air Purifier

Compatible with **MK01, MK-06, DH-JH12, TZ-K1, KN6391, HAP601, MG01JH, MJ001H, MJ012H, DH-JH01** and **EPI081/EP1081** Air Purifier.

KEY FEATURES

The LINNIW DH-JH01 replacement filter incorporates a multi-layer filtration system to ensure clean and fresh air:

- **4-in-1 HEPA Filter:** Attaches 99.97% of airborne particles as small as 0.3 microns.
- **Activated Carbon Filter:** Effectively addresses unpleasant odors and gases, including pet odors, smoke, and VOCs.
- **Pre-Filter:** Captures larger particles like hair, fibers, lint, and pet fur.
- **Upgrade Silver Ions Layer:** Designed to help reduce bad pollutants.

Powerful 4 Layer Filtration

360° Thoroughly Purify for Your Home

SETUP AND INSTALLATION

Installing the LINNIW DH-JH01 air filter is a straightforward process. Please follow these steps:

1. **Step 1:** Flip over your air purifier machine. Remove the bottom cover by twisting it counter-clockwise to the 'OPEN' position.
2. **Step 2:** Carefully take out the old filter. Ensure to remove any plastic packaging from the new replacement filter before installation.
3. **Step 3:** Insert the new filter into the machine unit, ensuring it is oriented correctly.
4. **Step 4:** Replace the bottom cover and twist it clockwise to the 'LOCK' position.

OPERATING YOUR AIR PURIFIER WITH NEW FILTER

After installing the new filter, your air purifier is ready for operation. Most compatible air purifiers feature intuitive controls for fan speed, timer settings, and a night mode for quiet operation. Some models may also include a slot for essential oils to diffuse pleasant scents.

The filter works continuously to remove common household pollutants, including pollen, dust, smoke, pet dander, and volatile organic compounds (VOCs), providing a cleaner and fresher indoor environment.

Children & Pets Friendly

Provide fresh and clean air for them

Powerful Air Circulation

Enjoy the pure and fresh air in your home

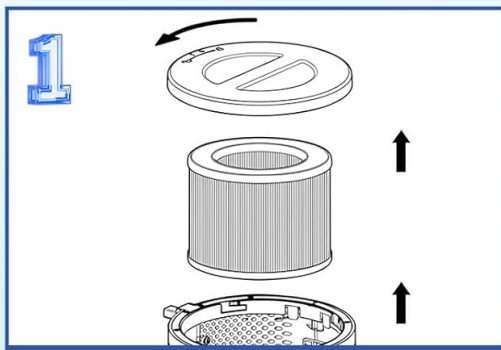

Up to

287 ft²

Image: A graphic highlighting the filter's effectiveness with a filtration rate of $\geq 99.97\%$ and a recommended filter lifespan of 3-6 months.

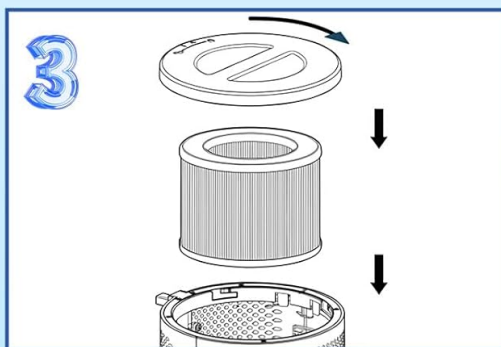

Easy To Install

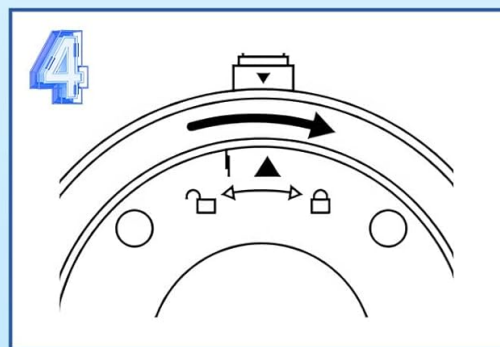

Step 1 : Flip over the machine, remove the cover and take out the old filter

Step 2 : Take the new filter out and unpack it

Step 3 : Put the new filter in and confirm the direction to close the cover

Step 4 : Turn the base cover clockwise from OPEN to LOCK

MAINTENANCE

For optimal performance, it is recommended to replace the MK0b filter every 3-6 months. This duration may vary depending on your usage frequency and environmental air quality. Your air purifier will typically indicate when a filter change is due, often by a blinking blue light on the control panel.

Refer to the 'Setup and Installation' section for detailed steps on how to replace the filter.
