WHAT'S IN THE BOX

Your Polaroid Go Instant Mini Camera package includes the following items:

- Camera Body Only
- USB charging cable
- Wrist strap
- Quick Start Guide
- Safety & Compliance Booklet

SETUP

1. Charging the Camera

Before first use, ensure your Polaroid Go camera is fully charged. Connect the provided USB charging cable to the camera's charging port and a power source. The charging port is located on the side of the camera.

2. Loading Film

The Polaroid Go camera uses specific Polaroid Go format film. To load the film:

1. Locate the film door latch on the bottom of the camera.
2. Slide the latch to open the film door.
3. Insert the film pack, aligning the yellow arrow on the film pack with the yellow arrow inside the camera. Ensure the darkslide is facing up.
4. Close the film door firmly. The camera will automatically eject the darkslide.

OPERATION

1. Powering On/Off

Press the power button located on the top of the camera to turn it on or off. The film counter display will show the number of remaining photos.

3. Flash Control

Press the flash button (lightning bolt icon) to toggle the flash on or off. Use the flash in low-light conditions or to add a creative effect.

4. Selfie Mirror & Self-Timer

The reflective surface next to the lens acts as a selfie mirror, allowing you to compose your self-portraits. Activate the self-timer feature for group shots or hands-free selfies.

5. Double Exposure

The camera features a double exposure mode to layer two images onto a single frame for artistic effects. Refer to the Quick Start Guide for detailed instructions on activating and using this feature.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera body and lens. Avoid abrasive materials or harsh chemicals.
- **Film Storage:** Store unused film packs in a cool, dark place. Once a photo is ejected, protect it from light for the first few minutes of development by keeping it face down or in a dark place.
- **Battery Care:** Recharge the camera regularly to maintain battery health. Avoid extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Polaroid Go camera, consider the following:

- **Dark or Underexposed Photos:** Ensure adequate lighting. Use the flash in dimly lit environments.
- **Blurry Photos:** Hold the camera steady while taking a picture. Ensure your subject is within the recommended focus range.
- **Film Ejection Issues:** Check that the film pack is correctly inserted and the film door is securely closed. Ensure there are no obstructions in the film ejection slot.
- **Battery Not Charging:** Verify the USB cable is properly connected to both the camera and the power source. Try a different USB port or cable.

SPECIFICATIONS

Feature	Detail
Brand	Polaroid
Model Name	Polaroid Go
Special Feature	Timer
