cellularline MAG Wireless Charging Holder - User Manual

MODEL: MAGWIRHOLDERVENTK

1. Introduction

The cellularline MAG Wireless Charging Holder is a MagSafe-compatible car mount designed for wireless charging up to 7.5W. It features a universal mount that easily adapts to various car air vents, ensuring practical and secure installation. The integrated magnetic pad provides maximum stability for your device, even on uneven roads, and facilitates efficient charging. A 1-meter USB-C cable is included for convenient use.

2. Package Contents

- MAG Wireless Charging Holder (Smartphone holder)
- 1-meter USB-C Cable

3. Product Features

- **MagSafe Wireless Charging:** Provides up to 7.5W for MagSafe-compatible devices.
- **Universal Air Vent Mount:** Designed to fit various vehicle air vents for stable installation.
- **Ultra-Safe Magnetic Mount:** Securely holds your smartphone, minimizing movement on diverse road conditions.
- **MagSafe Optimized Design:** Features an integrated magnetic pad for precise device alignment and consistent charging.
- **Included USB-C Cable:** A 1-meter USB-C cable is provided for immediate power connection.

4. Setup

4.1 Installing the Holder

1. Identify a suitable air vent in your vehicle. The holder is designed for universal compatibility with various vent types.
2. Gently push the universal hook of the holder onto one of the air vent slats until it is securely fastened. Ensure the holder is stable and does not obstruct your view or vehicle controls.

Image: A detailed view of the universal hook mechanism, highlighting its design for secure attachment to air vents.

4.2 Connecting Power

1. Connect the included 1-meter USB-C cable to the charging port on the MAG Wireless Charging Holder.
2. Plug the other end of the USB-C cable into a compatible USB power source in your vehicle (e.g., a car charger adapter, not included). Ensure the power source can deliver sufficient power for wireless charging.

4.3 Attaching Your Device

1. Ensure your smartphone is MagSafe-compatible. For optimal performance, use the device without a case or with a MagSafe-compatible case.
2. Align the back of your MagSafe-compatible smartphone with the magnetic charging pad on the holder. The magnets will automatically snap the device into place, ensuring proper alignment for wireless charging.

WARM TIPS

Use without case or with a MagSafe-compatible case.

Image: An illustration demonstrating the proper use of the holder with MagSafe-compatible iPhones, advising on case usage for optimal magnetic connection.

5. Operating Instructions

5.1 Wireless Charging

Once your MagSafe-compatible device is securely attached to the holder and the holder is powered, wireless charging will begin automatically. The holder delivers up to 7.5W of power. A charging indicator on your device screen will confirm that charging is active.

5.2 Secure Device Mounting

The strong magnetic attachment ensures your smartphone remains stable and secure, even during vehicle movement over rugged roads, sharp turns, or speed bumps. This design prevents vibrations and accidental falls, allowing for safe navigation and hands-free use.

6. Maintenance

To ensure the longevity and optimal performance of your cellularline MAG Wireless Charging Holder, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, or slightly damp cloth to wipe the surface of the holder. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the material.
- **Cable Care:** Handle the USB-C cable gently. Avoid bending or twisting it excessively, especially near the connectors, to prevent internal damage.
- **Storage:** When not in use for extended periods, store the holder in a cool, dry place away from direct sunlight and extreme temperatures.

7. Troubleshooting

- **Device Not Charging:**

- Ensure the USB-C cable is securely connected to both the holder and the vehicle's power source.
- Verify that the vehicle's power source (e.g., cigarette lighter adapter) is functioning correctly.
- Check if your smartphone is properly aligned with the magnetic charging pad. Re-position the device if necessary.
- Confirm your smartphone is MagSafe-compatible. If using a case, ensure it is a MagSafe-compatible case.

- **Device Not Holding Securely:**

- Ensure your smartphone is MagSafe-compatible.
- If using a case, ensure it is a MagSafe-compatible case. Non-MagSafe cases may interfere with the magnetic connection.
- Check for any foreign objects or debris between the phone and the charging pad that might obstruct the magnetic connection.

- **Holder Instability on Air Vent:**

- Ensure the universal hook is fully engaged with the air vent slat.
- Adjust the position of the holder on the vent to find the most stable point.

8. Specifications

Feature	Detail
Model Name	MAGWIRHOLDERVENTK
Brand	cellularline
Wireless Charging Output	Up to 7.5W
Mounting Type	Vent
Special Features	MagSafe, Wireless Charging
Compatible Devices	Smartphones (MagSafe-compatible recommended)
Cable Included	1m USB-C Cable
Material	Kunststoff (Plastic)
Item Weight	218 g
Color	Black
