Interphone QUIKLOX Universal Smartphone Holder Kit Instruction Manual

Model: SMQUIKLOXCRA BPROSB

INTRODUCTION

The Interphone QUIKLOX Universal Smartphone Holder Kit provides a secure and convenient solution for mounting your smartphone on motorcycles. This kit integrates the robust Interphone Crab case with a versatile mirror or crossbar attachment, ensuring your device remains protected and accessible during rides. Its design focuses on quick attachment and release, universal compatibility, and the option for enhanced vibration protection.

PACKAGE CONTENTS

Verify that all components are present in the package:

- QUIKLOX Smartphone Holder (Crab Case)
- Mirror or Crossbar Attachment
- Mounting Hardware (e.g., screws, washers, hexagonal key if included)
- Rubber inserts for various mirror/crossbar diameters (if applicable)

FEATURES

- **Quick Attach and Release:** The QUIKLOX system allows for immediate insertion and removal of the smartphone.
- **Universal Compatibility:** Designed to fit smartphones ranging from 3.5" to 7.5" in size.
- **Versatile Mounting:** Includes attachment for mirror stems or crossbars on motorcycles.
- **Adjustable:** The holder can be adjusted for optimal viewing angles.
- **Lightweight Design:** Constructed for minimal added weight to your motorcycle.
- **Rotatable:** Allows for both portrait and landscape orientation of the smartphone.
- **Anti-Vibration Ready:** Compatible with optional QUIKLOX anti-vibration modules for enhanced device protection.

SETUP AND INSTALLATION

Follow these steps to properly install your QUIKLOX smartphone holder:

1. Attaching the Mount to Your Motorcycle

1. **Identify Mounting Point:** Choose a suitable mirror stem or crossbar on your motorcycle. Ensure it is stable and does not obstruct your view or controls.
2. **Secure the Clamp:** Open the clamp of the mirror/crossbar attachment. Place it around the chosen bar. If necessary, use the provided rubber inserts to ensure a snug fit and prevent slippage.
3. **Tighten the Clamp:** Use the appropriate tool (e.g., hexagonal key) to tighten the clamp securely. Ensure the mount is firm and does not rotate freely. Do not overtighten.

2. Attaching the Smartphone Holder to the Mount

1. **Align QUIKLOX System:** The smartphone holder features a QUIKLOX male connector. Align this connector with the female receiver on the mirror/crossbar attachment.
2. **Engage and Lock:** Push the holder firmly onto the receiver until you hear a click, indicating it is securely locked in place.
3. **Verify Security:** Gently tug on the smartphone holder to ensure it is firmly attached and does not wobble.

Image: The QUIKLOX smartphone holder (left) connected to the mirror/crossbar attachment (right). The holder features adjustable arms to secure various phone sizes, and the attachment provides a robust connection point for motorcycle handlebars or mirror stems.

OPERATING INSTRUCTIONS

Inserting Your Smartphone

1. **Adjust Holder Arms:** Gently pull apart the adjustable arms of the QUIKLOX smartphone holder to create enough space for your device.

2. **Place Smartphone:** Carefully place your smartphone into the holder, ensuring it is centered and the arms securely grip the device without obstructing buttons or ports.
3. **Secure Device:** Release the arms, allowing them to close firmly around your smartphone. The holder is designed to accommodate phones from 3.5" to 7.5".

Removing Your Smartphone

1. **Release Arms:** Gently pull apart the adjustable arms of the holder to release the grip on your smartphone.
2. **Remove Device:** Carefully lift your smartphone out of the holder.

Adjusting Viewing Angle and Orientation

The QUIKLOX system allows for easy adjustment of your smartphone's position:

- **Angle Adjustment:** Loosen the adjustment knob on the mount to tilt the smartphone holder to your desired viewing angle. Tighten the knob to secure the position.
- **Orientation (Rotation):** The holder can be rotated 360 degrees. Simply rotate the smartphone holder on its axis to switch between portrait and landscape orientation. Ensure it clicks into a stable position if applicable.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your smartphone holder:

- **Cleaning:** Wipe the holder and mount with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the materials.
- **Check Fasteners:** Periodically check all screws and clamps to ensure they remain tight. Vibrations from riding can sometimes loosen fasteners over time. Retighten as necessary.
- **Inspect for Wear:** Examine the adjustable arms and the QUIKLOX locking mechanism for any signs of wear or damage. Replace components if significant wear is observed.

TROUBLESHOOTING

If you encounter issues with your QUIKLOX smartphone holder, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Smartphone not held securely.	Arms not fully closed; phone size outside range; worn arms.	Ensure arms are fully gripping the phone. Verify phone size is within 3.5" to 7.5". Inspect arms for damage.
Mount wobbles or rotates on handlebar/mirror.	Clamp not tightened sufficiently; incorrect rubber inserts used.	Retighten the clamp securely. Use appropriate rubber inserts for a snug fit.
Holder detaches from mount unexpectedly.	QUIKLOX mechanism not fully engaged; damaged locking mechanism.	Ensure the holder clicks firmly into place. Inspect the QUIKLOX connection for wear or damage.
Excessive vibration transferred to phone.	No anti-vibration module installed; severe road conditions.	Consider installing the optional QUIKLOX anti-vibration module. Avoid extremely rough terrain.

SPECIFICATIONS

Feature	Detail
Model Number	SMQUIKLOXCRA BPROSB
Compatible Devices	Smartphones (3.5" to 7.5")
Mounting Type	Mirror or Crossbar Attachment
Color	Black
Special Features	Adjustable, Lightweight, Rotatable
Item Weight	8.1 ounces (approx. 230 grams)
Package Dimensions	9.09 x 4.8 x 2.44 inches (approx. 23.1 x 12.2 x 6.2 cm)
Manufacturer	Cellularline S.p.A.

Warranty Information

This product is covered by a limited manufacturer's warranty against defects in materials and workmanship. For specific warranty terms, duration, and claim procedures, please refer to the documentation provided with your purchase or visit the official Interphone website. Keep your proof of purchase for warranty claims.

Support

For further assistance, technical support, or inquiries regarding your Interphone QUIKLOX Universal Smartphone Holder Kit, please contact the manufacturer, Cellularline S.p.A., or visit their official support channels. Contact information can typically be found on the product packaging or the manufacturer's website.
