4. SETUP AND INSTALLATION

Follow these steps to assemble and install your lamp rewire kit:

1. Pass the lamp cord through the threaded pipes, decorative neck, and saddle.
2. Tie an underwriter's knot with the lamp cord wires.

3. Separate the lamp socket into its three parts.
4. Connect the wire ends around the screws inside the socket. Ensure proper polarity (ribbed wire to neutral, smooth wire to hot).
5. Reassemble the socket by attaching the top part to the base until it clicks securely.
6. Secure the assembled socket, saddle, decorative neck, and threaded pipes to your lamp base.

Assemble Lamp Socket

Item Model Number	light-sockets
Brand	Qc
Material	Metal
Color	Silver
Base Type	Medium

8. TROUBLESHOOTING

If you encounter issues during installation or operation, consider the following:

- **No Power:** Ensure the lamp is properly plugged into a working outlet. Check the bulb for proper installation and functionality.
- **Flickering Light:** Verify all wire connections are secure and that the bulb is screwed in tightly.
- **Difficulty Assembling:** Refer to the detailed installation steps and the provided video for visual guidance. Ensure all components are correctly oriented.
- **Polarity Issues:** If the lamp does not function or if you are unsure about wiring, consult a qualified electrician. The cord has a ribbed side for neutral and a smooth side for hot.

9. WARRANTY AND SUPPORT

Qc stands behind its products with a **100% Happiness Guarantee**. If any part of the kit is damaged or if you are not completely satisfied, please contact us for a free replacement or support.

For further assistance, you may refer to the official [Installation Manual \(PDF\)](#).
