[Specifications](#)

[Warranty & Support](#)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Hampton Bay Mena 54-inch Ceiling Fan. This versatile fan is designed for both indoor and covered outdoor locations, such as porches and patios. It features an integrated 21.5-Watt dimmable LED light kit with color-changing technology and a convenient remote control for ease of use.

The fan incorporates QuickFit installation features, including a slide-on mounting bracket, a magnetic light kit with a pre-attached shade, and Quick Install blades, designed to simplify the setup process.

2. SAFETY INFORMATION

Please read and understand all safety instructions before beginning installation. Failure to follow these instructions could result in electric shock, fire, or personal injury.

- Ensure the power is disconnected at the circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting the weight of the fan (at least 35 lbs).
- Do not operate the fan with damaged blades or housing.
- Keep hands, clothing, and other objects clear of the fan blades when the fan is in operation.
- This fan is damp rated for use in covered outdoor locations. Do not expose to direct water spray.

3. SETUP & INSTALLATION

The Hampton Bay Mena ceiling fan features QuickFit installation for a faster and easier setup process.

3.1. Mounting Bracket Installation

Begin by securely attaching the slide-on mounting bracket to your ceiling junction box. Ensure the bracket is firmly fastened to a structural support capable of holding the fan's weight.

Slide-On Mounting Bracket

Image 3.1: A hand demonstrating the installation of the slide-on mounting bracket to the ceiling.

3.2. Blade Installation

The Quick Install ABS blades attach in seconds without the need for screws. Align each blade with its slot on the motor housing and click it into place until it is secure.

Click & Lock Blades

Image 3.2: A close-up view showing a fan blade being clicked and locked into its position on the fan's motor housing.

3.3. Light Kit Assembly

The magnetic light kit attaches quickly and easily. Connect the wiring harness from the fan to the remote receiver, then align the magnetic light kit with the fan's base and allow it to snap into place. Finally, twist and lock the frosted white plastic shade onto the light kit.

Twist & Lock Light Shade

Image 3.4: A hand demonstrating the twist and lock mechanism for securing the light shade.

3.4. Dual-Mount Option

This fan can be installed on flat or angled ceilings. For angled ceilings, an extension downrod (sold separately) may be required.

4. OPERATING INSTRUCTIONS

Your Hampton Bay Mena ceiling fan is operated using the included remote control.

4.1. Remote Control Functions

- **Power Button:** Turns the fan and light on/off. The fan remembers the last settings when powered on.
- **Fan Speed Buttons:** Adjusts the fan speed (3-speed reversible motor).
- **Light On/Off Button:** Controls the integrated LED light.
- **Color Changing Button:** Cycles through the three available light temperature settings.

4.2. Light Temperature Settings

The integrated LED module features Color Changing technology, allowing you to select from three distinct light output settings:

- **2700K:** Warm White
- **3000K:** Soft White
- **5000K:** Daylight

Press the color changing button on the remote to cycle through these options.

4.3. Dimmable LED

The 21.5-Watt LED light kit is dimmable. Use the appropriate button on your remote control to adjust the brightness to your preference.

4.4. Reversible Motor

The fan features a reversible motor for year-round comfort. In warm weather, operate the fan in a counter-clockwise direction to create a cooling breeze. In cool weather, operate the fan in a clockwise direction at a low speed to circulate warm air near the ceiling.

5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish or electrical components.
- **Blade Care:** The ABS blades are designed for durability. Avoid using harsh chemicals on the blades.
- **Light Kit:** The integrated LED module does not require bulb replacement. If the light is not functioning, refer to the troubleshooting section.
- **Tightness:** Periodically check all screws and connections for tightness.

Always ensure power is turned off at the circuit breaker before performing any cleaning or maintenance.

6. TROUBLESHOOTING

If you experience issues with your Hampton Bay Mena ceiling fan, consult the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low or not paired.	Check circuit breaker; Verify all wire connections are secure; Replace remote battery or re-pair remote.
Light does not work	No power to the light; Loose wire connections; Integrated LED module failure.	Check circuit breaker; Verify light kit wiring; Contact customer support if LED module is faulty.

Problem	Possible Cause	Solution
Fan wobbles	Loose blades or mounting bracket; Unbalanced blades.	Ensure all blade screws and mounting bracket screws are tight; Use a balancing kit (not included) if necessary.
Remote control not responding	Low battery; Remote not paired with receiver.	Replace remote battery; Follow pairing instructions (refer to remote control manual if separate).

7. SPECIFICATIONS

Detailed technical specifications for the Hampton Bay Mena 54-inch Ceiling Fan (Model 99918).

- **Model Number:** 99918
- **Brand:** Hampton Bay
- **Fan Size:** 54 inches
- **Color:** White (Matte finish)
- **Number of Blades:** 5
- **Blade Material:** Acrylonitrile Butadiene Styrene (ABS) Plastic
- **Motor:** 3-speed reversible motor
- **Light Type:** Integrated LED
- **LED Wattage:** 21.5 Watts
- **Light Color Temperature:** 2700K (Warm White), 3000K (Soft White), 5000K (Daylight)
- **Dimmable:** Yes
- **Control Method:** Remote Control
- **Mounting Type:** Ceiling Mount (Dual-mount for flat or angled ceilings)
- **Indoor/Outdoor Usage:** Indoor / Covered Outdoor (Damp Rated)
- **Power Source:** Corded Electric
- **Energy Efficiency:** Energy Star compliant, Energy Efficient Standby Power Shutoff
- **GTIN/UPC:** 082392999186
