

Dometic Rally AIR 260 Plus Right (Model ZZ1011)

Kampa Dometic Replacement Curtains Instruction Manual

Model: Rally AIR 260 Plus Right (Part Number: ZZ1011)

Brand: Dometic

INTRODUCTION

This manual provides essential instructions for the installation, care, and maintenance of your official Kampa Dometic Replacement Curtains for the Rally AIR 260 Plus Right awning. These curtains are designed as direct replacements to restore the privacy and aesthetic of your awning.

Important Compatibility Note:

These replacement curtains are specifically designed for the **Rally AIR 260 Plus Right** awning model. Please verify your awning's model name and size, typically found on the awning bag, before proceeding with installation. These curtains are not compatible with other awning models.

SAFETY INFORMATION

- Ensure the awning is stable and securely pitched before attempting any installation or replacement of parts.
- Handle curtains carefully to avoid damage to the fabric or attachment points.
- Keep small parts away from children to prevent choking hazards.
- If unsure about any step, consult a qualified professional or Dometic customer support.

PACKAGE CONTENTS

Your package should contain the following items:

- Kampa Dometic Replacement Curtains (Quantity as per purchase)

Inspect all contents upon receipt to ensure no items are missing or damaged.

SETUP AND INSTALLATION

Follow these steps to install your new replacement curtains:

1. **Prepare the Awning:** Ensure your Rally AIR 260 Plus Right awning is fully erected and stable. If replacing old curtains, carefully remove them from their attachment points.
2. **Identify Attachment Points:** Locate the curtain rails or attachment loops inside your awning. These are typically along the top edge of the windows.
3. **Attach the Curtains:**
 - For curtains with hooks: Align the hooks on the curtain with the corresponding loops or eyelets on the awning's curtain rail. Gently push the hooks through the loops until secure.
 - For curtains with a channel: Slide the curtain's top edge into the designated channel on the awning. Ensure it slides smoothly without snagging.
4. **Secure Bottom (if applicable):** Some curtains may have ties or loops at the bottom to secure them to the awning frame or base. Fasten these if present to prevent the curtains from flapping.
5. **Adjust and Inspect:** Once installed, adjust the curtains to hang evenly. Inspect all attachment points to ensure they are securely fastened.

Figure 1: Kampa Dometic replacement curtains installed inside an awning. The white curtains are visible, providing privacy and shade through the awning's windows. The view outside shows a grassy field with vehicles.

OPERATING INSTRUCTIONS

Once installed, the curtains can be opened or closed as needed to control light and privacy within your awning. Ensure they are not caught or pinched when folding or packing away the awning.

MAINTENANCE

Cleaning

- Clean the curtains regularly with a soft cloth and mild, non-abrasive soap solution.
- Do not use harsh chemicals, bleach, or abrasive cleaners, as these can damage the fabric.
- Rinse thoroughly with clean water and allow to air dry completely before storing or folding.
- Do not machine wash or tumble dry.

Storage

- Ensure curtains are completely dry before folding and storing to prevent mildew.
- Store in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep away from sharp objects that could puncture or tear the fabric.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Curtains do not fit.	Incorrect awning model or curtain size.	Verify your awning model (Rally AIR 260 Plus Right). These curtains are specific to this model.
Curtains are difficult to attach.	Attachment points are misaligned or obstructed.	Ensure the awning is fully erected and taut. Check for any debris in the curtain rail or damaged loops.
Curtains appear damaged upon arrival.	Shipping damage or manufacturing defect.	Contact your retailer or Dometic customer support immediately for assistance.
