

## COMHOMA CH153

# COMHOMA Ergonomic Office Chair CH153 User Manual

Model: CH153 | Brand: COMHOMA

## 1. INTRODUCTION

---

Thank you for choosing the COMHOMA Ergonomic Office Chair CH153. This manual provides essential information for the safe assembly, operation, and maintenance of your new office chair. Please read these instructions carefully before use and retain them for future reference.

The COMHOMA CH153 is designed to provide comfort and support for extended periods of sitting, featuring a breathable mesh design, adjustable components, and a robust construction.

## 2. SAFETY INFORMATION

---

- **Maximum Weight Capacity:** This chair is designed to support a maximum weight of 158.76 kg (350 lbs). Do not exceed this limit to prevent damage or injury.
- Ensure all screws and bolts are securely tightened before initial use and periodically check for tightness.
- Do not stand on the chair or use it as a step stool.
- Keep children and pets away from the chair during assembly.
- Use the chair on a level and stable surface.
- Avoid exposing the chair to direct sunlight or extreme temperatures for prolonged periods.

## 3. PACKAGE CONTENTS

---

All necessary components for assembly are included in the package. Please ensure all parts are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support.

## 4. ASSEMBLY INSTRUCTIONS

---

Assembly of the COMHOMA CH153 office chair is designed to be straightforward and can typically be completed within ten minutes. Follow the detailed instructions provided in the included assembly guide. A general overview of the assembly process is as follows:

1. Attach the casters to the chair base.
2. Insert the gas lift cylinder into the center of the chair base.
3. Attach the seat mechanism to the underside of the seat cushion.
4. Place the assembled seat onto the gas lift cylinder.
5. Attach the backrest to the seat mechanism.
6. Secure the armrests to the seat and backrest.
7. Install the headrest onto the top of the backrest.

## 5. OPERATING INSTRUCTIONS

Your COMHOMA CH153 office chair features multiple adjustment options to customize your seating experience:

- **Chair Height Adjustment:** Locate the lever under the seat on the right side. Pull the lever up while seated to lower the chair, or pull it up while standing to raise the chair. Release the lever to lock the height.
- **Backrest Recline and Lock:** The chair offers 3 lockable recline angles: 90°, 120°, and 130°. Use the lever under the seat to adjust the recline angle. Push the lever in to lock the backrest at your desired angle, and pull it out to allow for rocking motion.
- **Lumbar Support Adjustment:** The adaptive lumbar support can be adjusted vertically to fit the curve of your lower back. Gently push or pull the lumbar support mechanism on the backrest to find your optimal position.
- **Headrest Adjustment:** The 3D headrest can be adjusted up and down by approximately 4 inches and rotated up to 45° to provide neck and head support.
- **Armrest Adjustment:** The armrests are adjustable. Locate the buttons or levers on the side of the armrests to raise or lower them to your preferred height.
- **Clothes Hanger:** A convenient clothes hanger is integrated into the back of the chair to prevent outerwear from wrinkling.

## 6. MAINTENANCE AND CARE

---

Proper care will extend the life and appearance of your office chair:

- **Cleaning:** Wipe clean with a damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the mesh and frame materials.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary.
- **Caster Care:** Keep the casters free of hair and debris to ensure smooth movement.
- **Mesh Care:** The high-density mesh is resistant to abrasion. For deeper cleaning, a mild soap solution can be used, followed by wiping with a clean, damp cloth. Ensure the mesh is completely dry before use.

# Breathable & Elastic

High-density mesh seat keeps air circulation

## 7. TROUBLESHOOTING

---

If you encounter any issues with your COMHOMA CH153 office chair, refer to the following common solutions:

- **Chair does not adjust height:** Ensure the gas lift lever is fully engaged or disengaged as required. Check if the gas lift cylinder is properly seated in the base and seat mechanism.
- **Chair squeaks:** Check all bolts and screws for tightness and re-tighten if loose. A small amount of silicone lubricant can be applied to moving parts if necessary, avoiding contact with mesh or fabric.
- **Casters not rolling smoothly:** Inspect casters for accumulated hair, dust, or debris and clean them thoroughly. Ensure the chair is on a suitable surface (hard floor recommended).
- **Backrest does not recline or lock:** Verify that the recline lock lever is correctly positioned. Check for any obstructions in the reclining mechanism.

If problems persist, please contact COMHOMA customer support for assistance.
