CARE AND MAINTENANCE

- **Cleaning:** Wipe bricks with a damp cloth and mild soap if necessary. Rinse thoroughly and air dry. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the building set in a cool, dry place away from direct sunlight to prevent discoloration or warping of plastic components. Keep all pieces together in a container to avoid loss.
- **Handling:** Handle the assembled model with care to prevent accidental disassembly.

TROUBLESHOOTING

If you encounter any issues during assembly or play, refer to the following common solutions:

Missing Pieces:

- Carefully check all packaging materials and the surrounding area. Small pieces can sometimes be overlooked.
- If a piece is genuinely missing, please contact customer support with details of the missing part (refer to the instruction manual for part identification).

Difficulty Connecting Bricks:

- Ensure the bricks are aligned correctly before applying pressure.
- Apply firm, even pressure. Some new bricks may require a bit more force initially.
- If a brick seems too tight or loose, double-check that it is the correct piece for that step.

Model Falls Apart Easily:

- Verify that all connections are fully pressed together. A loose connection can weaken the overall structure.
- Review previous steps in the instruction manual to ensure no steps were skipped or pieces misplaced.
