Bielmeier Electric Staple Gun User Manual

Model: BCSG-4 | Brand: popolo

1. INTRODUCTION

The Bielmeier 2-in-1 Cordless Electric Staple Gun is a versatile tool designed for various fastening tasks, including upholstery, material repair, carpentry, and DIY projects. Its lightweight and user-friendly design ensures comfortable operation for extended periods.

Figure 1: Bielmeier Electric Staple Gun and accessories.

This kit includes the electric staple gun, 1200 staples, 400 nails, and a USB Type-C charging cable, providing everything needed to start projects right out of the box.

2. SETUP

2.1 Charging the Device

The Bielmeier Electric Staple Gun is powered by a 1,500mAh lithium-ion battery. It requires approximately 2 hours for a full charge using the provided USB Type-C cable. The LED indicator light will turn green when fully charged.

Figure 2: USB Type-C Charging Port and ON/OFF Switch.

Important: Do NOT use the stapler while it is charging.

2.2 Loading Staples and Nails

This cordless stapler is compatible with T50 staples (1/4 - 9/16 inch) and brad nails (9/16 - 5/8 inch). It features a quick-release loading magazine at the bottom for fast and easy installation.

1. Squeeze the pusher assembly and pull it out from the bottom of the gun.
2. For staples, place the staple strip in the magazine with points facing upwards.
3. For nails, insert the nails into the left side of the magazine with points facing upwards.
4. Push the assembly back until it locks securely into place.

Easy To Load Nails And Staples

Figure 3: Steps for loading staples and nails.

A transparent window is designed for monitoring your staple/nail levels, ensuring you know when a refill is needed.

3. OPERATING INSTRUCTIONS

3.1 Powering On and Off

To power on the device, slide the ON/OFF switch (located at the bottom of the handle) to the "I" position. To power off, slide it to the "0" position. It is highly recommended to turn the power switch off when not in use.

3.2 Firing Staples/Nails

The stapler gun is designed with three safety switches for safe operation: the Power ON/OFF button, the contact striker, and the activate trigger. The LED indicator light will turn green when the gun is ready to fire.

1. Ensure the power switch is in the "ON" position.

2. Place the contact striker firmly against the material you wish to fasten. The striker must be fully depressed for the gun to activate.
3. Once the LED indicator turns green, squeeze the trigger to shoot a staple or nail.

Figure 4: Operating the staple gun with safety features.

The stapler can fire up to 50 pins per minute and consistently shoot up to 850 staples per full charge, offering complete flexibility for various tasks.

3.3 Official Product Video: Operation Overview

4. MAINTENANCE

To ensure the longevity and optimal performance of your Bielmeier Electric Staple Gun, keep it clean and free from debris. Regularly check the magazine for any staple or nail fragments that might obstruct proper loading. Store the device in a dry environment away from extreme temperatures.

5. TROUBLESHOOTING

If the staple gun is not firing or performing as expected, consider the following:

- **Check Battery Charge:** Ensure the device is fully charged. The LED indicator should be green.
- **Verify Loading:** Confirm that staples or nails are correctly loaded into the magazine and the pusher assembly is locked.
- **Engage Safety Striker:** Make sure the contact striker is fully depressed against the work surface. The gun will not fire if the striker is not engaged.
- **Power Switch Position:** Double-check that the ON/OFF switch is in the "ON" position.

If issues persist after checking these points, please refer to the warranty and support section for further assistance.

6. SPECIFICATIONS
