WEIJIA 72017 Appliance Touch-Up Paint White User Manual

Model: 72017

INTRODUCTION

This manual provides instructions for the proper use and maintenance of the WEIJIA 72017 Appliance Touch-Up Paint in White. This product is designed to repair minor scratches and chips on appliance surfaces, restoring their original appearance.

IMPORTANT SAFETY INFORMATION

WARNING: This product is a **FLAMMABLE LIQUID AND VAPOR**. Vapors are harmful and can cause eye irritation. Harmful or fatal if swallowed. Always use in a well-ventilated area. Keep away from heat, sparks, open flames, and other ignition sources. Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water. If swallowed, do not induce vomiting; seek immediate medical attention. Keep out of reach of children and pets. Refer to the product label for additional safety precautions and first aid instructions.

Image: WEIJIA 72017 Appliance Touch-Up Paint bottle. The label clearly displays "APPLIANCE BRUSH TOUCHUP 72017 WHITE" and a warning about flammability, harmful vapors, eye irritation, and danger if swallowed. Net weight is 0.6 FL OZ (18ML).

SETUP AND PREPARATION

1. **Clean the Surface:** Ensure the appliance surface to be touched up is clean, dry, and free of grease, dirt, or rust. Use a mild detergent and water, then dry thoroughly.
2. **Ventilation:** Work in a well-ventilated area to minimize exposure to vapors.
3. **Shake Well:** Before use, shake the touch-up paint bottle vigorously for at least one minute to ensure the paint is

- thoroughly mixed.
4. **Test Area:** If possible, test the paint on an inconspicuous area or a similar surface to confirm color match and application technique.

OPERATING INSTRUCTIONS (APPLICATION)

1. **Open Carefully:** Unscrew the cap slowly to prevent spills. The cap contains a brush applicator.
2. **Apply Thin Coats:** Dip the brush into the paint, wiping off any excess on the rim of the bottle. Apply a very thin, even coat of paint directly to the scratch or chip. Avoid applying too much paint at once.
3. **Allow Drying:** Let the first coat dry completely before applying additional coats. Drying time may vary depending on humidity and temperature, but typically takes 15-30 minutes.
4. **Multiple Coats:** For deeper scratches or chips, apply several thin coats rather than one thick coat. Allow adequate drying time between each coat.
5. **Smooth Finish:** Once the final coat is dry, the touched-up area should blend with the surrounding surface.
6. **Clean Up:** Immediately clean any accidental spills or drips with a suitable solvent (e.g., mineral spirits) before the paint dries.

MAINTENANCE

- **Storage:** After use, ensure the cap is tightly sealed to prevent the paint from drying out. Store the bottle upright in a cool, dry, well-ventilated place, away from direct sunlight and heat sources.
- **Disposal:** Dispose of any unused paint or empty containers according to local regulations for hazardous waste. Do not pour down drains.
- **Care for Touched-Up Area:** Once fully cured (typically 24-48 hours), the touched-up area can be cleaned with standard appliance cleaners. Avoid abrasive cleaners or scrubbing vigorously on the repaired spot.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Paint appears too thick or clumpy.	Not shaken sufficiently; paint has partially dried.	Shake the bottle vigorously. If paint is too dry, it may need replacement.
Color does not match.	Surface not clean; incorrect product for appliance color.	Ensure surface is clean. Verify the paint color matches your appliance's original finish.
Uneven finish.	Too much paint applied at once; insufficient drying time between coats.	Apply thinner coats. Allow ample drying time between applications.

SPECIFICATIONS

- **Part Number:** 72017
- **Brand:** WEIJIA
- **Color:** White
- **Size:** 0.6 fl.oz. (18 mL)
- **Item Form:** Liquid
- **Container Type:** Bottle with brush applicator

- **Finish Type:** Matte
