### Sensea 3276005621374

# Sensea No-Drill Extendable Shower Curtain Rod

Model: 3276005621374

## PRODUCT OVERVIEW

---

The Sensea No-Drill Extendable Shower Curtain Rod is designed for easy installation without the need for tools or drilling. Made from durable aluminum, this telescopic rod can be adjusted to fit widths between 75 cm and 135 cm, making it suitable for various shower cabins or bathtubs. Its simple and modern design integrates seamlessly into any bathroom decor.

## SETUP INSTRUCTIONS

---

This shower curtain rod features a spring-loaded mechanism for quick and easy installation. No tools are required, and your walls or tiles will remain undamaged.

1. **Measure the Width:** Determine the exact distance between the two walls where you intend to install the rod. Ensure the surface is clean and dry.
2. **Adjust the Rod Length:** Hold the rod and twist one end to extend or retract it. Adjust the rod to be slightly longer (approximately 2-3 cm) than the measured distance between the walls. This slight excess length is necessary for the spring mechanism to create tension.
3. **Position the Rod:** Compress the rod by pushing the ends inwards, then position it between the two walls at the desired height.
4. **Release and Secure:** Release the compressed rod. The internal spring will push the ends outwards, creating tension against the walls to hold the rod firmly in place. Ensure both ends are securely pressed against the wall surfaces.
5. **Test Stability:** Gently pull down on the rod to confirm it is stable and can support the weight of a shower curtain.

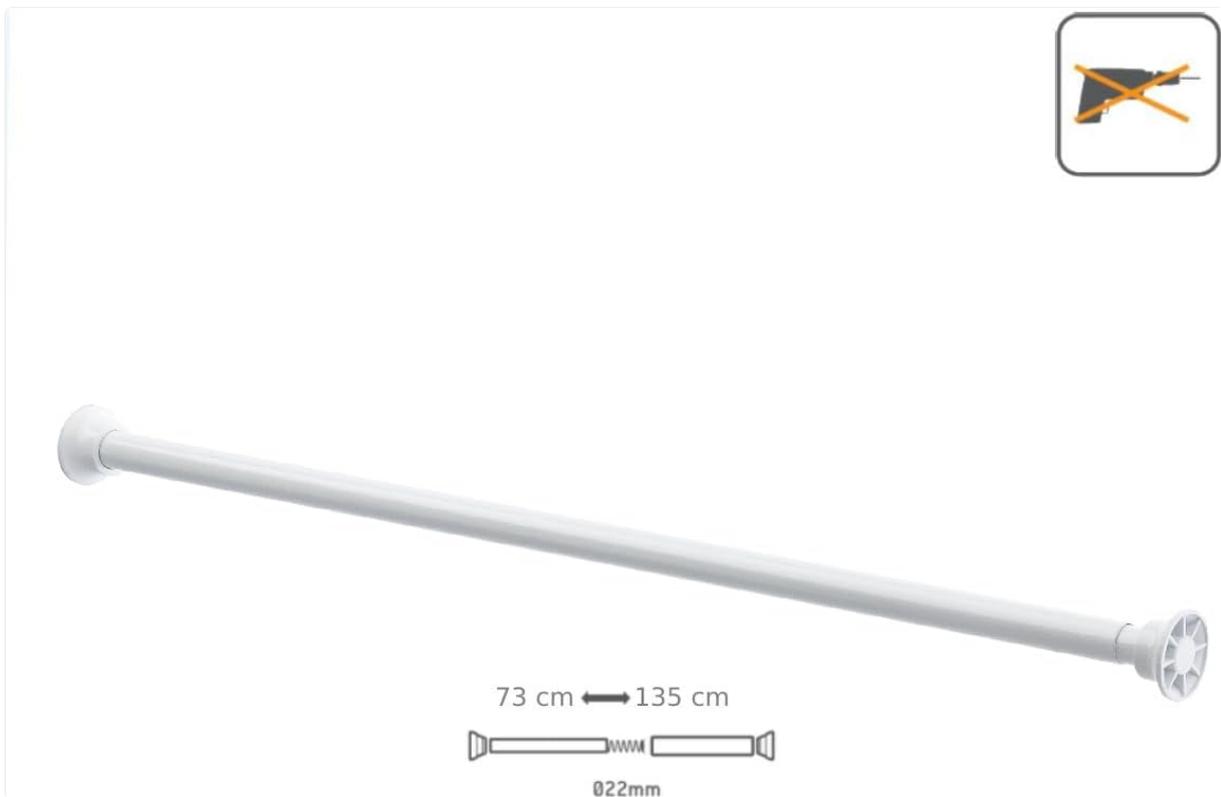

Image: Diagram illustrating the adjustable length of the rod from 73 cm to 135 cm and its 22mm diameter.

## OPERATING INSTRUCTIONS

---

Once installed, the Sensea shower curtain rod requires minimal operation.

- **Attaching a Shower Curtain:** Before installing the rod, slide your shower curtain rings or hooks onto the rod. If the curtain is already installed, you may need to remove one end of the rod, slide the curtain on, and then re-install.
- **Adjusting Position:** To reposition the rod, simply compress it slightly to release tension, move it to the new desired location, and then release to secure it again.

## **MAINTENANCE**

---

To ensure the longevity and appearance of your Sensea shower curtain rod, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the rod regularly with a soft, damp cloth to remove soap scum, water spots, and dust.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, scouring pads, or chemical solvents, as these can damage the aluminum finish. Mild soap and water are sufficient.
- **Check Tension:** Periodically check the tension of the rod to ensure it remains securely in place. If it feels loose, re-adjust it as per the setup instructions.

## TROUBLESHOOTING

| Problem                                | Possible Cause   | Solution   |
|--|--|--|
| Rod slips or falls down.               | Insufficient tension; walls are wet or slippery; rod is too short for the opening. | <ul style="list-style-type: none"> <li>• Ensure walls are clean and dry before installation.</li> <li>• Re-adjust the rod to be slightly longer (2-3 cm) than the opening to create more tension.</li> <li>• Ensure the end caps are firmly pressed against the wall.</li> </ul> |
| Rod is difficult to extend or retract. | Internal mechanism might be stiff or dirty.  | <ul style="list-style-type: none"> <li>• Gently twist and pull/push the rod ends.</li> <li>• Ensure no debris is obstructing the telescopic movement.</li> </ul>   |
| Rod appears bent or damaged.           | Excessive force during installation or impact.                                     | <ul style="list-style-type: none"> <li>• If the rod is significantly bent, it may affect its stability and function. Consider replacement.</li> </ul>  |

## PRODUCT SPECIFICATIONS

- **Brand:** Sensea
- **Model Number:** 3276005621374
- **Material:** Aluminum
- **Color:** White
- **Adjustable Length:** 75 cm to 135 cm
- **Diameter:** Approximately 22 mm (as per image)
- **Product Dimensions (L x W x H, packaged):** 6 x 10 x 84 cm
- **Weight (packaged):** 200 grams
- **Installation Type:** Wall-mounted (tension fit, no drilling)

## WARRANTY AND SUPPORT

Sensea products are designed for durability and reliability. For any questions regarding installation, operation, or potential issues not covered in this manual, please contact Sensea customer support or refer to the retailer's warranty policy. Keep your purchase receipt for warranty claims.
