Valera SN6001

Valera Swiss Nano Light 6001 Professional Ionic Hairdryer Instruction Manual

Model: SN6001

1. INTRODUCTION

The Valera Swiss Nano Light 6001 is a professional ionic hairdryer designed for efficient and comfortable hair styling. Its compact and lightweight design ensures ease of use and convenient storage. Featuring an ergonomic handle and easily accessible temperature and fan speed controls, this hairdryer delivers professional styling results, leaving hair shiny and well-cared for. This manual provides essential information for safe and effective operation.

2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of electric shock, fire, or injury, always follow these basic safety precautions:

- Keep out of reach of children.
- Do not rinse or immerse the appliance in water.
- Keep the power plug and cord away from hot surfaces.
- Do not use the hairdryer while bathing or in wet environments.
- Always unplug the appliance after use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.

3. PRODUCT FEATURES

The Valera Swiss Nano Light 6001 is equipped with advanced features for superior hair care:

- **Compact and Lightweight Design:** Super lightweight professional hairdryer with a powerful PM Pro motor, measuring only 17 cm in length for comfortable handling.
- **Ionic Function:** Powerful ionization function for shiny hair without static charge, promoting smoother, healthier-looking hair.
- **Customizable Settings:** Six combinations of temperature and fan speed for individual adjustment to suit various hair types and styling needs.
- **Ergonomic Handle:** Designed for a comfortable grip and ease of use.
- **Long Power Cord:** Features a flexible two-meter long cable for increased maneuverability.

- **Included Accessory:** Comes with one professional hairdryer nozzle (6 cm) for targeted airflow.
- **Swiss Made:** Manufactured in Switzerland, ensuring high quality and reliability.

4. SETUP

1. **Unpack:** Carefully remove the hairdryer and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Inspect:** Check the hairdryer and power cord for any visible damage. Do not use if damaged.
3. **Power Connection:** Ensure your power outlet voltage matches the hairdryer's specifications (1800W).
4. **Attach Nozzle:** If desired, attach the professional nozzle (6 cm) by aligning it with the hairdryer's front and pushing it firmly into place until it clicks securely.

5. OPERATING INSTRUCTIONS

Follow these steps for effective and safe hair drying:

1. **Plug In:** Insert the power plug into a suitable electrical outlet.
2. **Select Settings:** Use the switches located on the handle to select your desired temperature and fan speed. The hairdryer offers six combinations to choose from.
3. **Styling:** For targeted styling, attach the professional nozzle. Direct the airflow towards the section of hair you are styling.
4. **Maintain Distance:** Always maintain a safe distance between the hairdryer and your hair/scalp to prevent burns or overheating.
5. **Cool Shot Function:** Utilize the cool shot button (if available) to set your style with a burst of cool air.
6. **Finish:** After use, switch off the hairdryer and unplug it from the power outlet.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your hairdryer.

- **Cleaning the Air Filter:** Regularly check and clean the rear air filter to prevent dust and hair buildup. A clogged filter can reduce airflow and cause overheating. Ensure the hairdryer is unplugged before cleaning. Gently remove the filter cover and brush away any debris.
- **Cleaning the Exterior:** Wipe the exterior of the hairdryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Cord Care:** Do not wrap the power cord tightly around the appliance, as this can damage the cord. Store the cord loosely.
- **Storage:** Store the hairdryer in a dry place, away from direct sunlight and moisture, when not in use.

7. TROUBLESHOOTING

If you encounter any issues with your Valera Swiss Nano Light 6001, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Hairdryer does not turn on.	No power supply.	Check if the hairdryer is properly plugged into a functional power outlet. Test the outlet with another appliance.
Reduced airflow or weak performance.	Clogged air filter.	Unplug the hairdryer and clean the rear air filter as described in the Maintenance section.
Hairdryer overheats and shuts off.	Blocked air intake/outlet or prolonged use.	Unplug the hairdryer and allow it to cool down for several minutes. Clean the air filter. Ensure air vents are not blocked during use.
Unusual noise during operation.	Debris in the motor or fan.	Unplug the hairdryer immediately. Do not attempt to open the appliance. Contact customer support.
