PACKAGE CONTENTS

Ensure all items are present in the package:

- M10 TWS Wireless Earbuds (Left and Right)
- Wireless Charging Case
- USB Charging Cable
- User Manual
- Multiple Sizes of Ear Tips (typically S, M, L)

PRODUCT OVERVIEW

Familiarize yourself with the components of your M10 TWS Wireless Earbuds and charging case.

Image: The M10 TWS Wireless Earbuds resting inside their open charging case. The case features a digital display indicating the battery level and charging status of both the case and individual earbuds.

Charging Case

- **Digital Display:** Shows battery percentage of the case and charging status of each earbud.
- **Charging Ports:** For charging the case.

- **Earbud Slots:** Securely holds and charges the earbuds.

Earbuds

- **Touch Control Area:** For managing playback, calls, and voice assistant.
- **Microphone:** For calls and voice commands.
- **Charging Contacts:** Connects with the case for charging.

SETUP

Initial Charging

1. Place both earbuds into the charging case.
2. Connect the charging case to a power source using the provided USB cable.
3. Allow the earbuds and case to fully charge before first use. The digital display on the case will indicate charging progress.

First-Time Pairing

Important: Follow these steps carefully to ensure both earbuds connect correctly.

1. Ensure both earbuds are in the charging case and fully charged.
2. Open the charging case. The earbuds will automatically power on and attempt to pair with each other. This process may take up to 2 minutes.
3. Once the earbuds have successfully paired with each other (indicated by a specific light pattern or audio cue, refer to earbud indicators if available), proceed to your mobile device.
4. On your mobile device, go to Bluetooth settings and search for available devices.
5. Select "M10" from the list of devices to connect.
6. A confirmation sound or notification will indicate a successful connection.

Note: Skipping the step where earbuds pair with each other first may result in only one earbud connecting to your phone.

OPERATING INSTRUCTIONS

The M10 TWS Earbuds feature intuitive touch controls for various functions.

Image: A visual guide detailing the touch control gestures for the M10 TWS Earbuds, including actions for song switching, answering

calls, summoning Siri, power on/off, play/pause, and volume adjustment.

Touch Control Functions

Action	Function
Tap once	Play/Pause music, Answer/Hang up calls
Double Tap (Left/Right)	Skip Forward/Backward (specific earbud for direction)
Hold for 2 seconds	Summon Voice Assistant (Siri, Google Assistant)
Hold for 3 seconds	Adjust Volume (specific earbud for up/down)
Hold for 5 seconds	Power On/Off

Wearing the Earbuds

For optimal sound quality and comfort, choose the ear tips that best fit your ears. Insert the earbuds gently into your ear canal and rotate slightly to secure them. A proper seal is essential for deep bass and noise isolation.

MAINTENANCE

Cleaning

- Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth.
- Remove ear tips and clean them with mild soap and water if necessary, ensuring they are completely dry before reattaching.
- Clean the charging contacts on both the earbuds and the case to ensure proper charging.

Water Resistance (IPX7)

The earbuds are IPX7 waterproof, meaning they can withstand immersion in water up to 1 meter for 30 minutes. They are resistant to sweat and can be washed with water and soap. However, the charging case is not waterproof. Do not immerse the charging case in water.

Storage

When not in use, store the earbuds in their charging case to protect them and keep them charged. Store in a cool, dry place away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your M10 TWS Earbuds, refer to the following common problems and solutions:

- **Only one earbud connects:**
This often occurs if the earbuds do not pair with each other before connecting to your device. Place both earbuds back into the charging case, close the lid, then open it again. Allow up to 2 minutes for them to pair with each other. Then, reconnect to your device. If the issue persists, try resetting the earbuds (refer to the reset procedure if available, or try forgetting the device on your phone and repeating the first-time pairing

steps).

• **Earbuds not charging:**

Ensure the charging contacts on both the earbuds and the case are clean and free of debris. Verify the USB charging cable is securely connected to both the case and a working power source. Check the charging case's battery level on its digital display.

• **No sound or low volume:**

Check the volume levels on both your connected device and the earbuds. Ensure the earbuds are properly seated in your ears for a good seal. Reconnect the earbuds to your device.

• **Bluetooth disconnection:**

Ensure the earbuds are within the effective Bluetooth range of your device (typically 10 meters/33 feet) and there are no significant obstructions. Try disconnecting and reconnecting the earbuds from your device's Bluetooth settings.

SPECIFICATIONS

Feature	Detail
Model Name	M10 TWS5.3V
Brand	M10
Connectivity Technology	Wireless (Bluetooth 5.1)
Headphones Form Factor	In Ear
Headphones Ear Placement	In Ear
Noise Control	Active Noise Cancellation
Impedance	30 Ohm
Sensitivity	99 dB
Headphones Jack	USB (for charging case)
Waterproof Rating	IPX7 (earbuds only)
Playing Time	Up to 6 hours (earbuds), up to 30 hours with charging case
Charging Time	Less than 1 hour
Product Dimensions	11 x 4 x 10 cm; 100 g
Batteries	Internal rechargeable batteries

WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation provided at the time of purchase or contact your retailer. Keep your proof of purchase for any warranty claims.
