**JCLOUD P300**

# JCLOUD Smart Scent Air Machine User Manual

Model: P300
Brand: JCLOUD

## INTRODUCTION

The JCLOUD Smart Scent Air Machine utilizes advanced cold-air diffusion technology to convert essential oils into a dry mist of micro-particles. This waterless and heatless process ensures maximum utilization of essential oils and efficient scent dispersion. Designed for both home and commercial spaces, this diffuser provides a consistent and pleasant aroma, effectively eliminating unwanted odors.

## SAFETY INFORMATION

- Avoid direct skin contact with undiluted essential oils.
- Keep the device and essential oils out of reach of children and pets.
- Use the device in a well-ventilated area.

## PRODUCT COMPONENTS

The JCLOUD Smart Scent Air Machine package includes the main scent air machine (Model P300), instructions, and an HVAC tube for optional integration.

## SETUP

### Initial Setup

1. Download the "Aroma-Link" app on your mobile device.
2. Connect the waterless diffuser via the app.
3. Add your preferred essential oils to the 300 ml oil bottle.
4. Press the power button to start the device.

### HVAC System Installation

For integration with an HVAC system, use the provided HVAC tube. Refer to the video below for detailed installation instructions.

## OPERATION

### Control via Mobile App ("Aroma-Link")

The most convenient way to control your JCLOUD Smart Scent Air Machine is through the "Aroma-Link" mobile application. This allows for precise scheduling and scent intensity adjustments.

*Figure 4: Controlling the scent machine using the Aroma-Link mobile application.*

- Download and open the "Aroma-Link" app.
- Connect the diffuser to the app.
- Set the working time and scent grade (intensity).
- To set a schedule: Tap "Set", enable desired days, tap the pencil icon to edit programs, toggle on/off, then tap "Save".
- The default diffusion cycle is 10 seconds of work followed by 110 seconds of pause. This can be adjusted via the app.
- A "Fan" button in the app toggles a booster fan for wider scent dispersion. Note that this may slightly increase operational noise.

## Manual Control (Front Panel)

Basic functions can be controlled directly from the front panel buttons:

- **Power On/Off:** Hold down the **Enter** button.
- **Toggle Fan:** Hold down the **Back** button.
- **Set Time:** Tap the **^** and **>** buttons simultaneously. (Time is automatically set when using the app).

## MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your JCLOUD Smart Scent Air Machine.

- **Regular Cleaning:** Clean the device regularly as needed.
- **Cleaning the Oil Stem:** If the device appears to stop venting from the nozzle, the stem that goes into the oil bottle may be clogged. Carefully pull the stem off, run a thin wire through it to clear any blockages, and then reattach the stem. This typically needs to be done about once a month.

## TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---|---|---|
| Device not emitting scent. | Clogged oil stem. | Remove the oil stem and clear any blockages with a thin wire. Ensure the oil bottle is properly inserted. |
| Device beeps 5 times. | Lost Wi-Fi connection or server issue. | The device will beep once when it reconnects. If persistent, check your Wi-Fi connection or consider using Bluetooth control only. |
| Need to reset settings. | System requires a factory reset. | Press the **1st** and **4th** buttons simultaneously, then choose "yes" for FACTORY MODE. The default password is **1234**. |
