Beats Studio Buds User Manual

True Wireless Noise Cancelling Earbuds

INTRODUCTION

Welcome to your Beats Studio Buds user manual. These true wireless noise cancelling earbuds are designed to deliver powerful, balanced sound with the flexibility of Active Noise Cancelling (ANC) and Transparency mode. They offer seamless compatibility with both Apple and Android devices, ensuring a versatile listening experience.

WHAT'S IN THE BOX

Your Beats Studio Buds package includes the following components:

- Beats Studio Buds true wireless noise cancelling earphones
- Charging case
- Ear tips with three size options (small, medium, large)
- USB-C to USB-C charging cable
- Quick Start Guide
- Warranty card

Note: A USB-C power adapter is sold separately and is not included in the box.

WHAT'S IN THE BOX

- Beats Studio Buds
- USB-C to USB-C charging cable
- Eartips with three size options
- Quick Start Guide
- 'b' logo sticker
- Warranty card

SETUP

1. Charging Your Earbuds

Before first use, ensure your Beats Studio Buds and charging case are fully charged. Connect the provided USB-C to USB-C charging cable to the charging case and a compatible USB-C power adapter (not included). The LED indicator on the front of the case will show charging status.

- A full charge provides up to 8 hours of listening time for the earbuds.
- The charging case provides up to 24 hours of combined listening time.
- Fast Fuel: A 5-minute charge provides up to 1 hour of playback.

BATTERY LIFE

EACH EARBUD HAS UP TO 8 HOURS OF LISTENING TIME.¹ UP TO 24 HOURS COMBINED WITH CHARGING CASE.²

HOURS WITH
CHARGING CASE

¹ Testing conducted by Apple in April 2021 using preproduction Beats Studio Buds and Charging Case units and software paired with iPhone 11 Pro Max units and prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50% and Active Noise Cancellation and Transparency were turned off. Testing consisted of full Beats Studio Buds battery discharge while playing audio until the first Beats Studio Buds stopped playback. With Active Noise Cancellation turned on, listening time was up to 5 hours. Battery life depends on device settings, environment, usage, and many other factors.

² Testing conducted by Apple in April 2021 using preproduction Beats Studio Buds and Charging Case and software paired with iPhone 11 Pro Max units and prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50% and Active Noise Cancellation and Transparency were turned off. Testing consisted of full Beats Studio Buds battery discharge while playing audio until the first Beats Studio Buds stopped playback. The drained Beats Studio Buds were charged to 100 percent, then audio playback was resumed until the first Beats Studio Buds stopped playback. This cycle was repeated until both the Beats Studio Buds and charging case were fully discharged. With Active Noise Cancellation turned on, listening time was up to 15 hours. Battery life depends on device settings, environment, usage, and many other factors.

2. Pairing Your Earbuds

Beats Studio Buds offer simple one-touch pairing for both Apple and Android devices.

For Apple Devices:

1. With the earbuds in the charging case, open the lid and hold your Beats Studio Buds near your unlocked iPhone or iPad.
2. A setup animation will appear on your device. Follow the on-screen instructions.

For Android Devices:

1. Download the Beats app from the Google Play Store.
2. With the earbuds in the charging case, open the lid and hold your Beats Studio Buds near your Android device.
3. Follow the instructions within the Beats app to complete pairing.

For other Bluetooth devices, open the charging case lid, press and hold the system button on the case until the LED blinks white, then select "Beats Studio Buds" from your device's Bluetooth menu.

SIMPLE ONE-TOUCH PAIRING

COMPATIBLE WITH APPLE AND ANDROID

Image: An iPhone screen displaying the Beats Studio Buds pairing prompt, demonstrating the simple one-touch pairing process for compatible devices.

3. Ear Tip Fit

Selecting the correct ear tip size is crucial for optimal sound quality and noise cancellation. Experiment with the three included ear tip sizes (small, medium, large) to find the most stable and comfortable fit that also provides an optimum acoustic seal.

OPERATING YOUR BEATS STUDIO BUDS

1. Controls

Each earbud features a multi-function 'b' button for controlling audio, calls, and voice assistant interaction.

- **Single Press:** Play/Pause audio, Answer/End call.

- **Double Press:** Skip forward.
- **Triple Press:** Skip backward.
- **Press and Hold:** Toggle between Active Noise Cancelling (ANC) and Transparency mode. This action can also activate your voice assistant (Siri, Google Assistant, etc.) depending on your settings.

Image: Diagram showing the on-device controls for Beats Studio Buds, including single, double, triple press actions for media and calls, and press-and-hold for noise control or voice assistant.

2. Active Noise Cancelling (ANC) and Transparency Mode

Your Beats Studio Buds offer two distinct listening modes:

- **Active Noise Cancelling (ANC):** Blocks external noise for immersive sound. Ideal for travel or noisy environments.
- **Transparency Mode:** Allows you to hear your surroundings while still enjoying your audio. Useful for awareness in urban environments or when interacting with others.

Toggle between these modes by pressing and holding the 'b' button on either earbud.

MAINTENANCE

Cleaning Your Earbuds

To maintain optimal performance and hygiene, regularly clean your Beats Studio Buds and charging case. Use a soft, dry, lint-free cloth. Do not use abrasive materials or harsh chemicals. For ear tips, you can gently wipe them with a damp cloth and mild soap, then rinse and dry thoroughly before reattaching.

Water Resistance

The Beats Studio Buds are IPX4-rated, meaning they are sweat- and water-resistant. This makes them suitable for workouts and light rain. However, they are not waterproof and should not be submerged in water. Avoid exposing them to pressurized water or high-velocity water, such as showering or swimming.

TROUBLESHOOTING

If you encounter issues with your Beats Studio Buds, try the following common troubleshooting steps:

- **No Sound/Poor Sound Quality:** Ensure earbuds are properly seated in your ears and that the correct ear tip size is used for a good seal. Check device volume and Bluetooth connection.
- **Pairing Issues:** Ensure earbuds are charged. Turn off and on Bluetooth on your device. Try resetting the earbuds by placing them in the case, closing the lid for 10 seconds, then opening and holding the system button until the LED blinks red and white.
- **Charging Issues:** Ensure the USB-C cable is securely connected to both the case and power source. Try a different cable or power adapter. Clean the charging contacts on the earbuds and inside the case.
- **Controls Not Responding:** Ensure earbuds are charged. Restart your connected device.

For more detailed troubleshooting or persistent issues, refer to the official Beats support website or contact customer service.

SPECIFICATIONS

Feature	Specification
Model Name	Beats Studio Buds
Model Number	MJ4Y3LL/A
Connectivity Technology	Wireless (Bluetooth Class 1)
Noise Control	Active Noise Cancellation, Transparency Mode
