

**Beats MJ503LL/A****Beats Studio Buds - True Wireless Noise Cancelling Earbuds****USER MANUAL****Introduction**

Welcome to the user manual for your Beats Studio Buds True Wireless Noise Cancelling Earbuds. These earbuds are designed to deliver powerful, balanced sound with the flexibility of two distinct listening modes: Active Noise Cancelling (ANC) and Transparency mode. They offer a comfortable fit, long battery life, and seamless compatibility with both Apple and Android devices.

This manual provides essential information on setting up, operating, maintaining, and troubleshooting your Studio Buds to ensure an optimal audio experience.

## What's in the Box

Your Beats Studio Buds package includes the following components:

- Beats Studio Buds true wireless noise cancelling earphones
- Charging case
- Ear tips with three size options (Small, Medium, Large)
- USB-C to USB-C charging cable
- Quick Start Guide
- Warranty card

# WHAT'S IN THE BOX

- Beats Studio Buds
- USB-C to USB-C charging cable
- Eartips with three size options
- Quick Start Guide
- 'b' logo sticker
- Warranty card

## Setup

### Initial Pairing

To pair your Beats Studio Buds with your device:

1. Ensure your Studio Buds are in the charging case and the case lid is open.
2. For Apple devices: Hold your Studio Buds near your unlocked iPhone or iPad. A setup animation will appear on your device. Follow the on-screen instructions.
3. For Android devices: Download the Beats app from the Google Play Store. Open the app and follow the on-screen instructions to pair your Studio Buds. Alternatively, go to your device's Bluetooth settings and select "Beats Studio Buds" from the list of available devices.
4. Once paired, the indicator light on the charging case will turn white.

# SIMPLE ONE-TOUCH PAIRING

## COMPATIBLE WITH APPLE AND ANDROID

Image: Demonstrates the simple one-touch pairing process for Beats Studio Buds with a mobile device.

### Ear Tip Fit

Achieving a proper seal with the ear tips is crucial for optimal sound quality and effective Active Noise Cancellation. Your Studio Buds come with three sizes of silicone ear tips (Small, Medium, Large). Experiment with each size to find the one that provides a comfortable and secure fit, creating a good seal in your ear canal.

- Insert the earbud gently into your ear.
- Twist the earbud slightly forward or backward until it feels secure and forms a comfortable seal.
- If the sound quality is poor or noise cancellation is ineffective, try a different ear tip size.

## Operating Your Studio Buds

### Controls

Each earbud features a multi-function button (the 'b' logo) that allows you to control playback, calls, and listening modes:

- **Single Press:** Play/Pause audio, Answer/End call.
- **Double Press:** Skip forward.

- **Triple Press:** Skip backward.
- **Press and Hold:** Toggle between Active Noise Cancellation (ANC) and Transparency mode. This action can be customized via the Beats app for Apple and Android devices to activate your voice assistant.

Image: An illustration detailing the various button press commands on the Beats Studio Buds for media, calls, and voice assistant.

### Active Noise Cancellation (ANC)

Active Noise Cancellation blocks external noise for an immersive listening experience. When ANC is active, the earbuds use microphones to detect external sounds and then generate an anti-noise signal to cancel them out.

# ACTIVE NOISE CANCELLING (ANC)

BLOCKS EXTERNAL NOISE  
FOR IMMERSIVE SOUND

Image: Visual explanation of how Active Noise Cancelling works to block external noise for an immersive sound experience.

## Transparency Mode

Transparency mode allows you to hear your surroundings while still enjoying your audio. This is useful for staying aware of your environment, such as when walking in a city or listening for announcements.

# TRANSPARENCY MODE

STAY AWARE OF  
YOUR SURROUNDINGS

Image: Visual explanation of Transparency Mode, enabling users to stay aware of their surroundings while listening to audio.

## Charging

To charge your Beats Studio Buds:

- Place the earbuds into the charging case. The earbuds will begin charging automatically.
- To charge the case, connect the included USB-C to USB-C charging cable to the port on the back of the case and plug the other end into a USB-C power adapter (sold separately).
- The LED indicator on the front of the case shows the charging status:
  - White (solid): Fully charged.
  - White (flashing): Charging.
  - Red (flashing): Low battery.

## Battery Life

Your Beats Studio Buds offer extended listening time:

- Up to 8 hours of listening time on a single charge (with ANC/Transparency off).
- Up to 5 hours of listening time with Active Noise Cancellation or Transparency mode enabled.
- Up to 24 hours of combined listening time with the charging case.

- **Fast Fuel:** A 5-minute charge provides up to 1 hour of playback when the battery is low.

# BATTERY LIFE

EACH EARBUD HAS UP TO 8 HOURS OF LISTENING TIME.<sup>1</sup> UP TO 24 HOURS COMBINED WITH CHARGING CASE.<sup>2</sup>

<sup>1</sup> Testing conducted by Apple in April 2021 using preproduction Beats Studio Buds and Charging Case units and software paired with iPhone 11 Pro Max units and prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50% and Active Noise Cancellation and Transparency were turned off. Testing consisted of full Beats Studio Buds battery discharge while playing audio until the first Beats Studio Buds stopped playback. With Active Noise Cancellation turned on, listening time was up to 5 hours. Battery life depends on device settings, environment, usage, and many other factors.

<sup>2</sup> Testing conducted by Apple in April 2021 using preproduction Beats Studio Buds and Charging Case and software paired with iPhone 11 Pro Max units and prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50% and Active Noise Cancellation and Transparency were turned off. Testing consisted of full Beats Studio Buds battery discharge while playing audio until the first Beats Studio Buds stopped playback. The drained Beats Studio Buds were charged to 100 percent, then audio playback was resumed until the first Beats Studio Buds stopped playback. This cycle was repeated until both the Beats Studio Buds and charging case were fully discharged. With Active Noise Cancellation turned on, listening time was up to 15 hours. Battery life depends on device settings, environment, usage, and many other factors.

## Maintenance and Care

Proper care will extend the life and performance of your Beats Studio Buds.

### Cleaning

- Use a soft, dry, lint-free cloth to clean the earbuds and charging case.
- Do not use abrasive cleaners, aerosols, solvents, or chemical sprays.
- For ear tips, remove them from the earbuds and wipe with a damp cloth. Ensure they are completely dry before reattaching.
- Avoid getting moisture in any openings.

### Storage

- Always store your Studio Buds in their charging case when not in use to protect them and keep them charged.
- Store in a cool, dry place away from extreme temperatures and direct sunlight.

The Beats Studio Buds are IPX4-rated sweat and water resistant, meaning they can withstand splashes and sweat. They are not waterproof and should not be submerged in water.

## Troubleshooting

If you encounter issues with your Beats Studio Buds, try the following solutions:

- **No Sound or Intermittent Audio:**

- Ensure earbuds are charged.
- Check Bluetooth connection on your device. Try turning Bluetooth off and on again.
- Move closer to your device to avoid interference.
- Clean any debris from the earbud speakers and ear tips.

- **Earbuds Not Pairing:**

- Ensure earbuds are in the charging case with the lid open.
- Press and hold the system button on the charging case for 5 seconds until the LED indicator flashes white.
- On your device, forget the "Beats Studio Buds" from your Bluetooth settings and try pairing again.

- **Active Noise Cancellation Not Working Effectively:**

- Ensure you have a proper seal with the ear tips. Try different sizes.
- Make sure ANC is enabled (toggle using the earbud button or Beats app).

- **Charging Issues:**

- Ensure the USB-C cable is securely connected to both the case and the power adapter.
- Try a different USB-C cable or power adapter.
- Clean the charging contacts on the earbuds and inside the case.

- **Resetting Your Studio Buds:**

- Place both earbuds in the charging case and leave the lid open.
- Press and hold the system button on the charging case for 15 seconds until the LED indicator light flashes red and white.
- Release the button. Your Studio Buds are now reset and ready to be paired again.
