# **dadada Baby Soho 3-in-1 Convertible Crib Instruction Manual**

Model: Soho | Brand: dadada

## **INTRODUCTION**

This manual provides essential instructions for the safe assembly, operation, and maintenance of your dadada Baby Soho 3-in-1 Convertible Crib. Please read all instructions carefully before assembly and retain this manual for future reference. The dadada Soho crib is designed to convert from a crib to a toddler bed and a daybed, offering versatility as your child grows.

## **SAFETY INFORMATION**

Your child's safety is paramount. Always follow these guidelines:

- Follow all assembly instructions carefully. Ensure all parts are securely fastened before use.
- Regularly check all screws, bolts, and fasteners to ensure they are tight and secure.
- Do not use the crib if any parts are missing, damaged, or broken. Contact dadada customer support for replacement parts.
- Use only a mattress that is the correct size for the crib to prevent gaps that could entrap a child.
- Do not place the crib near windows where cords from blinds or drapes could strangle a child.
- Avoid placing toys or large objects in the crib that could be used as steps for climbing out.
- When converting to a toddler bed or daybed, ensure the conversion kit (sold separately) is installed correctly according to its instructions.

## PRODUCT OVERVIEW

The dadada Baby Soho 3-in-1 Convertible Crib is crafted in Italy from solid European beechwood, ensuring durability and a timeless design. It features a baby-safe, non-toxic finish and is GREENGUARD Gold Certified for a healthier nursery environment. This versatile crib offers three adjustable mattress heights and can be converted into a toddler bed and a daybed with the purchase of a separate conversion kit.

## SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the dadada Soho crib is designed to be straightforward. It typically takes two adults approximately 30-60 minutes. Please follow the step-by-step instructions provided in the included assembly manual. An assembly video is also available for visual guidance.

1. Unpack all components and verify against the components list.
2. Attach the legs to the end panels using the provided hardware.
3. Connect the side rails to the end panels. Ensure all connections are secure.
4. Install the mattress support frame at the desired height. Refer to the "Operating Instructions" section for guidance on mattress height selection.
5. Tighten all fasteners. Do not overtighten.

## OPERATING INSTRUCTIONS

---

### Adjusting Mattress Height (Crib Mode)

The dadada Soho crib features three adjustable mattress height positions to accommodate your child's growth and ensure safety. Always use the lowest position once your child can sit up unassisted.

- **Highest Position:** For newborns and infants who cannot push up on their hands and knees.
- **Middle Position:** For infants who can push up on their hands and knees but cannot sit up unassisted.
- **Lowest Position:** For infants who can sit up unassisted or pull themselves to a standing position.

To adjust the mattress height, remove the mattress and carefully detach the mattress support from the side rails. Reattach it to the desired height using the appropriate hardware and ensure it is securely fastened.

### Converting to Toddler Bed or Daybed

The Soho crib can be converted into a toddler bed and a daybed. A separate toddler rail conversion kit is required for these conversions (sold separately).

- **Toddler Bed:** Remove one of the fixed side rails and replace it with the toddler safety rail from the

conversion kit. Follow the specific instructions included with the toddler rail kit.

- **Daybed:** Remove one of the fixed side rails completely. No toddler rail is used for this configuration.

# One Crib *Newborn to Age 5*

## MAINTENANCE

To maintain the quality and safety of your dadada Soho crib, follow these simple maintenance steps:

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid abrasive cleaners or strong chemicals that could damage the finish.
- **Inspections:** Periodically check all hardware (screws, bolts) to ensure they are tight. Retighten as necessary.
- **Storage:** If storing the crib, disassemble it carefully and store all parts and hardware in a dry, temperature-controlled environment.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Crib feels wobbly or unstable.	Loose hardware.	Check and tighten all screws and bolts. Ensure all connections are secure.
Difficulty adjusting mattress height.	Hardware not fully loosened or obstruction.	Ensure all bolts securing the mattress support are completely loosened before attempting to move. Check for any obstructions.
Missing parts after unpacking.	Packaging not thoroughly checked.	Carefully check all packaging materials. If parts are still missing, contact dadada customer support.
