Bestway 57445

Bestway Fast Set Pool Model 57445 Instruction Manual

Model: 57445 | Brand: Bestway

INTRODUCTION

This manual provides essential instructions for the safe and efficient setup, operation, and maintenance of your Bestway Fast Set Pool, Model 57445. Please read all instructions carefully before assembly and use. Retain this manual for future reference.

Image: The Bestway Fast Set Pool, showcasing its rattan print exterior and inflatable top ring, set up in a grassy area.

The Bestway Fast Set Pool is designed for quick and easy setup, offering a convenient option for backyard enjoyment. It features heavy-duty PVC and polyester 3-ply side walls for durability, with the liner supported by an inflatable top ring. The pool will rise as it is filled with water, simplifying the assembly process.

SETUP INSTRUCTIONS

1. **Site Selection:** Choose a completely flat and level surface for pool installation. Uneven surfaces can cause the pool to collapse, leading to water spillage and potential injury. Clear the area of any sharp objects or debris.
2. **Unpack Components:** Carefully unpack the pool and all included components, including the filter pump (220-240V).
3. **Inflate Top Ring:** Locate the inflation valve on the top ring of the pool. Using an air pump (not included), inflate the top ring until it is firm to the touch but not over-inflated.
4. **Fill with Water:** Begin filling the pool with water. As the water level rises, the inflatable top ring will lift the pool walls, causing the pool to take its final shape. Ensure the pool walls are rising evenly. Stop filling when the water reaches approximately 80% capacity, which is 5,377 liters (1,421 gallons).
5. **Connect Filter Pump:** Refer to the separate filter pump manual for detailed connection instructions. Ensure all hoses are securely attached and the pump is placed on a stable surface away from the pool.

Image: A family enjoying the Bestway Fast Set Pool, illustrating the pool's capacity and design once fully set up and filled.

OPERATING INSTRUCTIONS

- **Water Level:** Maintain the water level between the minimum and maximum fill lines indicated on the pool liner. Overfilling can stress the pool structure, while underfilling can affect filter pump operation.
- **Filter Pump Operation:** Operate the filter pump daily to ensure proper water circulation and filtration. The duration of operation depends on pool size and usage, typically several hours per day. Consult the filter pump manual for specific recommendations.

- **Water Treatment:** Use appropriate pool chemicals to maintain water hygiene and balance. Follow the chemical manufacturer's instructions carefully.
- **Safety Guidelines:** Always supervise children in and around the pool. Do not dive or jump into the pool. Ensure all users understand basic pool safety rules.

MAINTENANCE

Filter Pump Maintenance

Image: The Bestway filter pump, an essential component for maintaining water clarity and hygiene.

- **Filter Cartridge Cleaning:** Turn off and unplug the filter pump before performing any maintenance. Remove the filter cartridge and rinse it thoroughly with a garden hose to remove debris.
- **Filter Cartridge Replacement:** Replace the filter cartridge (compatible with Cartridge 58093(l)) every two weeks, or more frequently depending on pool usage and water condition.
- **Pump Inspection:** Regularly inspect the pump and hoses for any signs of damage or leaks.

Image: A Bestway filter cartridge, which should be regularly cleaned and replaced to ensure effective water filtration.

Pool Draining and Storage

- **Draining:** The pool features a built-in flow control drain valve. Attach a garden hose (with the included adapter) to the drain valve to direct water away from the pool area.
- **Cleaning:** Once drained, clean the pool liner thoroughly with mild soap and water. Rinse completely and allow to air dry.
- **Storage:** Deflate the top ring and fold the pool carefully. Store in a dry, cool place, protected from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Pool not inflating/rising evenly	Uneven ground; insufficient air in top ring; small leak in top ring.	Ensure pool is on a level surface. Inflate top ring fully. Check for leaks and repair with a patch kit if necessary.
Water is cloudy or dirty	Insufficient filter pump operation; dirty filter cartridge; improper chemical balance.	Operate filter pump for longer periods. Clean or replace filter cartridge. Test water and adjust chemical levels as needed.
Filter pump not working	Power supply issue; clogged impeller; damaged pump.	Check power connection and circuit breaker. Refer to filter pump manual for impeller cleaning. Contact customer support if pump is damaged.
Water leaking from pool	Puncture in liner; loose hose connections.	Locate puncture and repair with a pool patch kit. Tighten all hose clamps and connections.

SPECIFICATIONS

Brand	Bestway
Model Number	57445
Product Dimensions (Diameter x Height)	366 cm x 76 cm (144 inches x 30 inches)
Water Capacity (80%)	5,377 Liters (1,421 Gallons)
Material Type	Heavy-duty PVC and Polyester 3-ply side walls
Shape	Round (Fast Set Inflatable)
Item Weight	14.74 Kilograms
Included Components	One Pool, Filter Pump (220-240V), Adapter for garden hose
Compatible Filter Cartridge	58093(I)
Indoor/Outdoor Usage	Outdoor
Special Features	Easy 10-minute setup, Realistic rattan print, Auto-rise feature, Flow control drain valve

WARRANTY INFORMATION

Bestway products are manufactured to high-quality standards and undergo rigorous testing. This product is covered by a limited manufacturer's warranty against defects in materials and workmanship. The specific warranty period and terms may vary by region and product type. Please retain your proof of purchase for warranty claims.

For detailed warranty information, please refer to the warranty card included with your product or visit the official Bestway website.

CUSTOMER SUPPORT

Should you encounter any issues or have questions regarding your Bestway Fast Set Pool, please do not hesitate to contact Bestway Customer Support. Our team is available to assist you with troubleshooting, parts replacement, and general inquiries.
