## KEY FEATURES

- **Integrated HD Video Doorbell:** Features a built-in camera for live monitoring and recording, including a 32GB micro-SD card for local storage without monthly fees. Supports two-way audio communication.

- **Multiple Unlocking Methods:** Access via patented PIN Genie digital keypad, 3D biometric fingerprint reader, Scan-to-Open QR code, smartphone app, voice control (Alexa or Google Assistant), or physical key.

- **Patented PIN Genie Keypad:** Dynamic number shuffling on the touchscreen keypad enhances security by preventing code guessing.

- **Fast Fingerprint Recognition:** 3D biometric sensor provides quick access in under 0.3 seconds, storing up to 99 fingerprints.

- **Remote App Control:** Lock and unlock your door, monitor status, and manage access from anywhere using the Lockly App.

- **Real-Time Monitoring & Alerts:** Receive instant notifications on your smartphone regarding lock status.

- **Programmable Auto-Locking:** Customizable auto-lock feature ensures the door is secured after a set period.

- **Offline Access Codes:** Generate temporary access codes that function without Wi-Fi or internet connectivity.
- **Easy DIY Installation:** Designed for straightforward installation with common household tools.

## SETUP

### Installation

The Lockly Vision Smart Lock is designed for DIY installation. Refer to the detailed step-by-step instructions provided in the packaging or utilize the BILT app for interactive 3D guidance. Ensure your door meets the compatibility requirements before beginning installation.

# Door Compatibility

## Check Before Purchase

Please measure and confirm the sizes
that are shown below before purchase

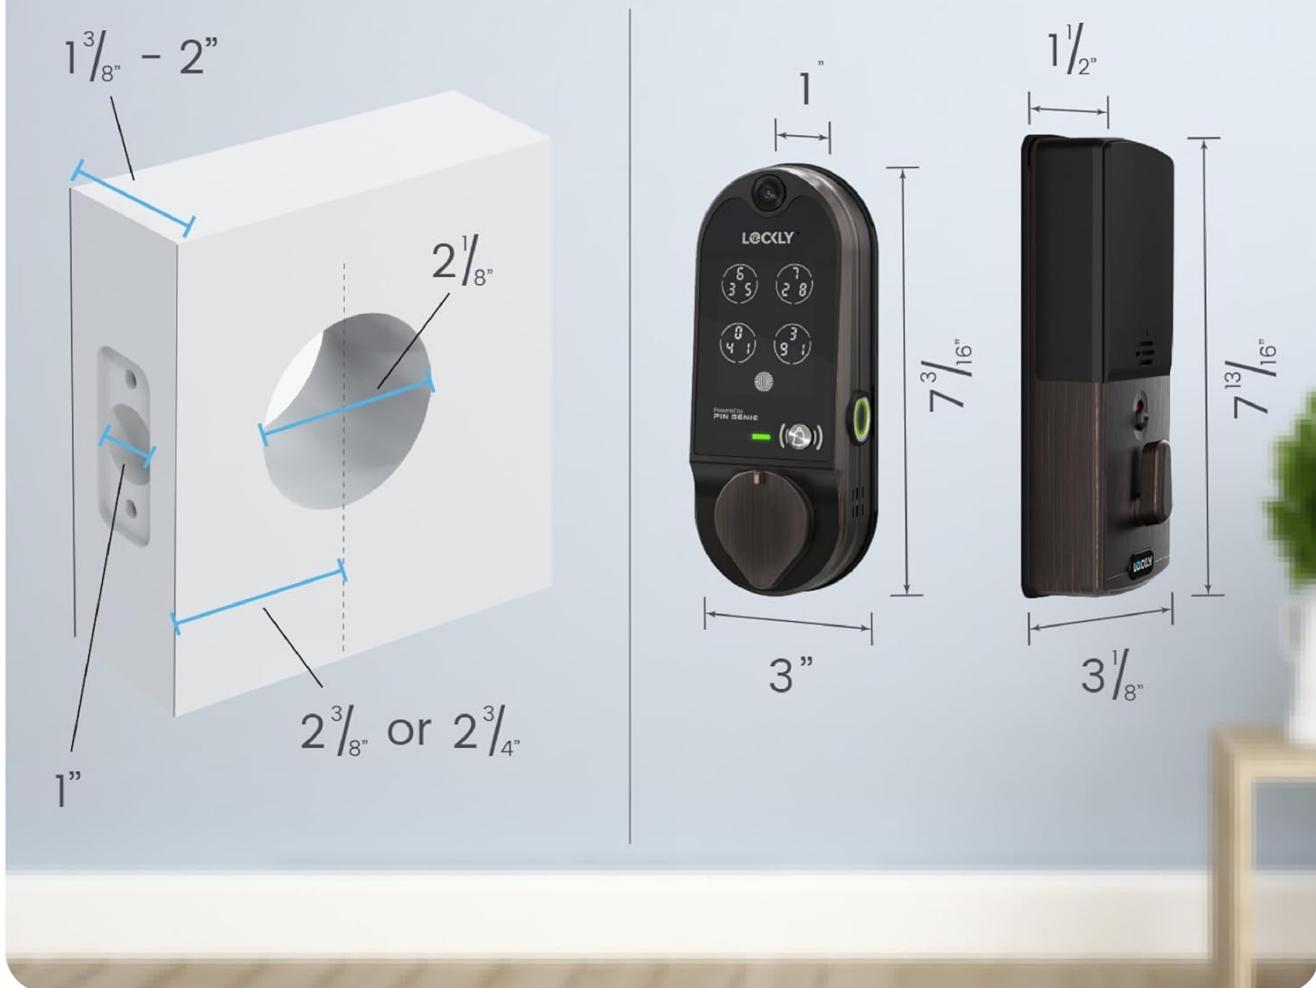

Image: Diagram showing door compatibility measurements (thickness 1 3/8" - 2", backset 2 3/8" or 2 3/4", bore hole 2 1/8") for the Lockly Vision Smart Lock.

## App Setup

Download the Lockly App from your smartphone's app store. Follow the in-app instructions to pair your smart lock with your device and connect it to your home Wi-Fi network via the included Lockly Connect Hub. This enables remote control and monitoring features.

## OPERATING THE LOCKLY VISION SMART LOCK

### Unlocking Methods

- **PIN Genie Digital Keypad:** Enter your access code on the touchscreen. The numbers on the keypad shuffle after each use to prevent observation of your code.

Image: The Lockly PIN Genie keypad showing how digit locations dynamically shuffle after each use to enhance security.

- **3D Biometric Fingerprint Reader:** Place your registered finger on the sensor for quick access. The lock recognizes fingerprints in less than 0.3 seconds.

**3D Biometric Fingerprint**

Quickly Unlock with advnaced fingerprint sensor.

**0.3sec** recognition

Up to

**99** fingerprints

**AI** learning to improve speed and accuracy

Image: A hand placing a finger on the 3D biometric fingerprint sensor of the Lockly Smart Lock for quick unlocking.

- **Scan-to-Open QR Code:** Use the Lockly App to scan the unique blue QR code on the lock for contactless access.
- **Smartphone App:** Remotely lock or unlock your door from anywhere using the Lockly App.
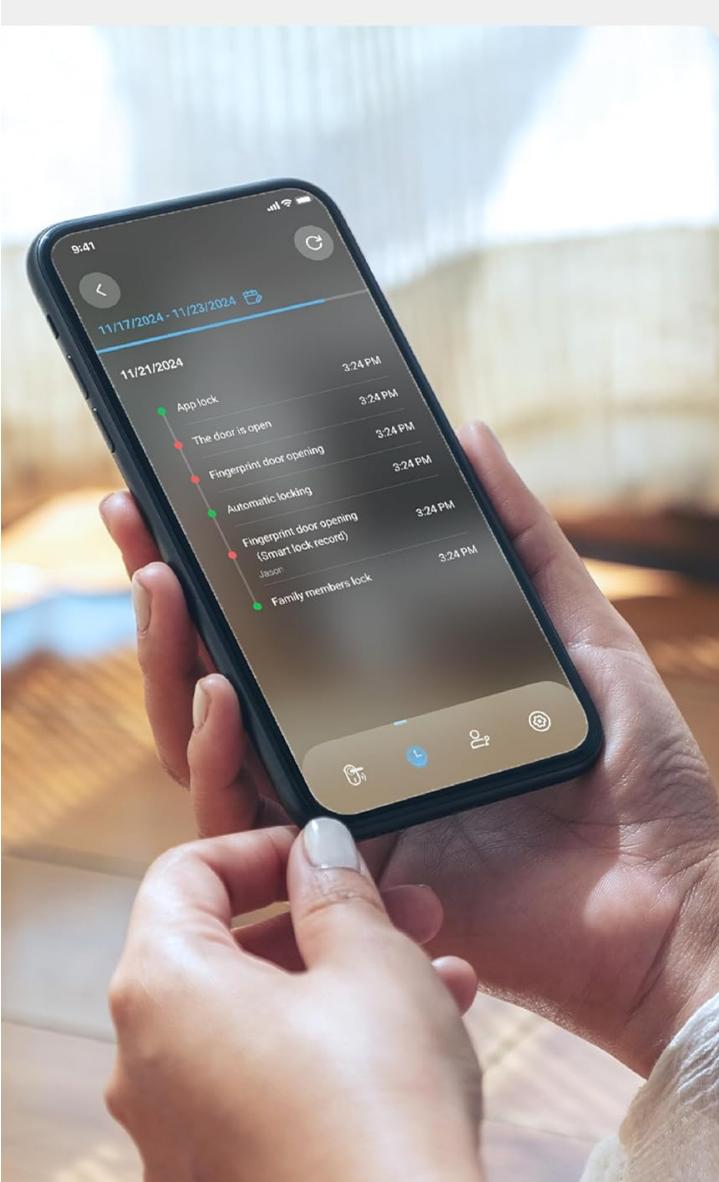

# App Control

**Lock and Unlock**

**Notifications**

**Access history**

No monthly fee for cloud storage or remote control

Image: A smartphone displaying the Lockly App interface, showing options to lock/unlock and view access history.

- **Voice Control:** Integrate with Amazon Alexa or Google Assistant to lock, unlock, or check the status of your door using voice commands.

- **Physical Key:** Use the provided physical keys as a traditional backup access method.

Image: A person using voice control with an Amazon Alexa device to unlock the door, alongside an image of physical backup keys and a 9V battery for emergency access.

## Doorbell Camera and Two-Way Audio

The integrated HD camera and doorbell allow you to see and communicate with visitors at your door from your smartphone, even when you are away. Live view and two-way audio are accessible through the Lockly App.

Image: A person viewing and speaking to guests at their front door through the Lockly Vision Smart Lock's video doorbell feature on a smartphone.

## Programmable Auto-Lock

Activate the auto-lock feature to automatically secure your door after a user-defined period (5 to 300 seconds). This ensures your door is always locked, providing peace of mind.

Image: A mother and child at a front door with the Lockly Smart Lock, representing the convenience of the programmable auto-lock feature.

## Access Management

Manage access for family, friends, and visitors through the Lockly App:

- **eKeys & eBadges:** Grant revocable digital access credentials.
- **Offline Access Codes:** Create single-use or limited-use codes that do not require internet connectivity for the recipient.

## Monitoring and Alerts

Receive real-time notifications on your smartphone for all lock and unlock events, ensuring you are always aware of your door's status.

## MAINTENANCE

## Battery Replacement

The Lockly Vision Smart Lock operates on 8 AA batteries (included). Battery life typically ranges from 8 months to a year, depending on usage. The Lockly App will provide low battery alerts. For emergency power, a 9V battery can be temporarily connected to the external terminals.

## Cleaning

Clean the touchscreen and fingerprint sensor with a soft, dry, lint-free cloth. Avoid abrasive cleaners or solvents that may damage the finish or electronic components.

## TROUBLESHOOTING

- **Camera or Doorbell Not Functioning:** Ensure the Lockly Connect Hub is properly connected to your Wi-Fi network and within range of the smart lock. Check the Lockly App for any error messages or connectivity issues. Restarting the lock by removing and reinserting batteries may resolve minor glitches.

- **Touchscreen Unresponsive:** If the touchscreen becomes unresponsive, especially after prolonged exposure to direct sunlight, consider installing a sun visor accessory to protect it from UV rays. Check battery levels.

- **Fingerprint Reader Issues:** Ensure your finger is clean and dry when attempting to use the fingerprint reader. Re-registering fingerprints in the app may resolve recognition problems.

- **Connectivity Problems:** Verify your home Wi-Fi network is operational. Ensure the Lockly Connect Hub is powered on and its indicator lights are normal. If issues persist, try resetting the hub and re-pairing it with the lock and app.

## SPECIFICATIONS

| Brand | Lockly |
|---|---|
| Model Name | LOCKLY Vision (PGD798VB) |
| Lock Type | Biometric, Keypad, Smart Door Lock |
| Material | Zinc |
| Color | Venetian Bronze |
