## 1. INTRODUCTION

Thank you for purchasing the FRIGIDAIRE EFRW1225 Wine and Beverage Cooler. This manual provides important information regarding the installation, operation, and maintenance of your appliance. Please read it thoroughly before use and retain it for future reference.

This compact cooler is designed for efficient storage of up to 12 standard wine bottles or 26 beverage cans, featuring an adjustable electronic temperature control and a stylish curved glass door.

## 2. SAFETY INFORMATION

**WARNING:** To reduce the risk of fire, electric shock, or injury, follow these basic precautions:

- Read all instructions before using the appliance.
- Do not touch cold surfaces immediately after the unit has been plugged in.
- Ensure the appliance is properly grounded.
- Do not use damaged cords or plugs.
- Unplug the appliance before cleaning or performing any maintenance.
- Keep ventilation openings clear of obstructions.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

## 3. PACKAGE CONTENTS

Verify that all items are present in the package:

- FRIGIDAIRE EFRW1225 Wine and Beverage Cooler Unit
- Removable Shelves
- DC Car Cord (for 12V vehicle power outlets)
- Instruction Manual

#### 4. PRODUCT FEATURES

The FRIGIDAIRE EFRW1225 is designed with convenience and efficiency in mind:

- **Versatile Storage:** Accommodates up to 12 standard wine bottles or 26 beverage cans. Features an innovative design allowing for standing or vertical storage.
- **Compact Design:** Ideal for small spaces, with dimensions of 20.2"D x 25.2"W x 10"H.
- **Curved Glass Door:** Aesthetically pleasing design with a clear view of contents.
- **Blue Interior Light:** Illuminates the interior when the door is opened, enhancing visibility.
- **Adjustable Electronic Temperature Control:** Set your desired temperature between 46°F and 64°F (8°C to 18°C). Options for Celsius and Fahrenheit display.
- **Ultra Quiet Operation:** Equipped with an advanced cooling system that minimizes vibration and noise, preventing disturbance of bottle sediments.
- **DC Rated:** Includes a car cord for use with 12V vehicle power outlets, offering portability.

## 5. SETUP AND INSTALLATION

---

1. **Unpacking:** Carefully remove all packaging materials. Inspect the cooler for any shipping damage. Report any damage to your retailer immediately.
2. **Placement:** Choose a location that is flat, stable, and strong enough to support the cooler when fully loaded. Ensure adequate ventilation around the unit. Allow at least 4 inches (10 cm) of space on the back and sides for proper air circulation. Avoid direct sunlight or heat sources.
3. **Leveling:** The cooler should be level for optimal performance. Adjust the leveling feet at the bottom of the unit if necessary.
4. **Initial Cleaning:** Before first use, clean the interior and exterior of the cooler with a soft cloth and mild detergent. Rinse thoroughly and dry.
5. **Power Connection:** Connect the cooler to a suitable power outlet. For AC power, use a standard 110-120V AC outlet. For DC power, use the provided car cord to connect to a 12V vehicle power outlet. Allow the unit to stand upright for at least 2 hours before plugging it in to allow refrigerating fluids to settle.

## 6. OPERATING INSTRUCTIONS

---

### 6.1. Powering On/Off

Plug the unit into a suitable power source. The cooler will automatically begin cooling. To turn off, unplug the unit.

### 6.2. Temperature Control

The cooler features an electronic temperature control panel, typically located on the top front of the unit. Use the up and down arrows to adjust the desired temperature. The temperature range is 46°F to 64°F (8°C to 18°C).

- **Setting Temperature:** Press the 'Set' button (if available) or simply use the up/down arrows to change the displayed temperature. The display will flash while setting and then return to the current internal temperature.
- **Temperature Display:** The display shows the current internal temperature. You can switch between Celsius and Fahrenheit display options using the dedicated button (if available) or by holding a combination of buttons as indicated on the control panel.

### 6.3. Loading Beverages

Arrange bottles or cans on the removable shelves. Ensure proper air circulation by not overfilling the cooler. The innovative design allows for both horizontal and vertical storage of bottles or cans.

### 6.4. Interior Light

The blue interior light automatically activates when the curved glass door is opened, providing visibility of the contents.

## 7. MAINTENANCE

---

### 7.1. Cleaning

- **Exterior:** Wipe the exterior surfaces with a soft cloth and mild detergent. Dry thoroughly.
- **Interior:** Clean the interior with a solution of mild detergent and warm water. For stubborn odors, a solution of baking soda and water can be used. Rinse and dry thoroughly.
- **Door Seal:** Regularly clean the door gasket to ensure a tight seal.
- **Shelves:** Removable shelves can be washed with warm soapy water.

**CAUTION:** Always unplug the cooler before cleaning. Do not use abrasive cleaners, scouring pads, or harsh chemicals as they can damage surfaces.

### 7.2. Defrosting

This appliance is designed to minimize frost buildup. If frost accumulates, unplug the unit and allow it to defrost naturally. Wipe away melted ice with a soft cloth.

### 7.3. Storage

If the cooler will not be used for an extended period, unplug it, clean it thoroughly, and leave the door slightly ajar to prevent odors and mold growth.

## 8. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Cooler does not operate	No power to the unit.	Check if the power cord is securely plugged into the outlet. Check the circuit breaker or fuse.

Problem	Possible Cause	Solution
Cooler is not cold enough	Temperature setting is too high. Door is not closed properly. Excessive door opening. Poor ventilation.	Adjust temperature to a lower setting. Ensure door is fully closed. Minimize door openings. Ensure adequate space around the unit for air circulation.
Excessive noise	Unit is not level. Objects touching the back or sides.	Adjust leveling feet. Move unit away from walls or other objects.
Door does not close properly	Unit is not level. Door gasket is dirty or damaged. Shelves are improperly placed.	Level the unit. Clean or replace door gasket. Re-position shelves.
