SETUP

1. **Assemble Elefun Body:** Attach the Elefun ears and tail to the main body. Ensure they are securely fastened.
2. **Attach Stabilizing Base:** Place the Elefun body onto the stabilizing base. The base helps keep the elephant steady during play.
3. **Assemble Nets:** Insert each mesh net into its corresponding plastic net frame. The nets should be taut within the frames.
4. **Prepare Flyers:** Gather the 15 flyers. These are the spinning discs that will be launched.

OPERATING INSTRUCTIONS (HOW TO PLAY)

The objective of the Elefun Flyers game is to catch the most flying discs. Follow these steps to play:

1. **Load Flyers:** Carefully load the spinning discs into the Elefun's trunk. You can load multiple discs at once.

3. **Catch Flyers:** Use your net to catch the flying discs as they float through the air or after they land. Each caught disc counts as one point.

4. **Scoring:** The player who collects the most discs by the end of the game wins. Discs caught in the air or picked up from the floor both count towards the final score.

MAINTENANCE

- **Cleaning:** Wipe the plastic components with a damp cloth as needed. Do not submerge the Elefun unit in water.
- **Storage:** For easy storage, load the discs into the Elefun's belly compartment and hang the nets on its trunk. This keeps all components together and organized.
