## Galanz GLF11US2A16

# Galanz GLF11US2A16 Upright Temperature Control Convertible Refrigerator/Freezer

User Instruction Manual

## PRODUCT OVERVIEW

---

The Galanz GLF11US2A16 is an 11 Cu.Ft. upright convertible refrigerator/freezer designed for versatile food storage. Its electronic temperature control allows for easy switching between refrigerator and freezer modes, providing optimal preservation for various items. This unit features a sleek stainless steel finish, interior LED lighting, and adjustable leveling legs for stable placement.

### Key Features

- **Easily Convertible:** Seamlessly switch between refrigerator (33 °F to 45 °F) and freezer (-8 °F to 5 °F) modes.
- **Better Organization and Longer Freshness:** Includes crystal crisper drawers for produce and removable glass shelves for flexible storage.
- **Temperature Control:** Electronic controls for precise temperature adjustment.
- **Bright LED Lighting:** Illuminates the interior for clear visibility.
- **Durable Design:** Constructed with stainless steel and features adjustable feet for stability.

## SETUP AND INSTALLATION

---

This Galanz unit is designed for freestanding installation. Ensure proper ventilation around the appliance. Before plugging in, allow the unit to stand upright for at least 24 hours to allow refrigerants to settle.

### Placement

- Place the appliance on a flat, stable surface.
- Ensure adequate clearance around the unit for proper air circulation.
- Adjust the two leveling front legs to ensure the appliance is stable and level.

## OPERATING INSTRUCTIONS

---

### Electronic Temperature Control

The unit features an electronic temperature control panel located inside the appliance. This allows for precise temperature adjustments and conversion between refrigerator and freezer modes.

- **Refrigerator Mode:** Temperature can be set between 33 °F to 45 °F.
- **Freezer Mode:** Temperature can be set between -8 °F to 5 °F.
- Use the "TEMP" button to cycle through temperature settings.
- Use the "SWITCH" button to toggle between refrigerator and freezer modes.
- A "LOCK" function is available by holding the "SELECT" button for 3 seconds to prevent accidental changes.
- The "QUICK COOLING" feature can be activated for rapid temperature reduction.

## Handle Design

The streamlined design gives you comfortable feeling.

## Adjustable Electrical Thermostat Control

Refrigerator mode 33°F to 45°F.  
Freezer mode -8°F to 5°F.

## Crystal Crisper

Transparent and large capacity.

Video 3: A segment from the official product video demonstrating the electronic temperature control and the convertible refrigerator/freezer functionality, showing how to adjust settings and switch modes.

## Interior Organization

- The unit includes three full slide-out glass shelves that can be adjusted or removed to accommodate items of

various sizes.

- A crystal crispener drawer with a glass cover is provided to keep fruits and vegetables fresh for longer.
- Versatile door storage offers additional space for bottles, jars, and smaller items.
- Interior LED lighting ensures clear visibility of contents.

## CARE AND MAINTENANCE

---

Regular cleaning and proper maintenance will ensure the longevity and efficient operation of your Galanz convertible refrigerator/freezer.

### Cleaning

- Always unplug the appliance before cleaning.
- Clean the interior with a soft cloth and a mild, non-abrasive detergent. Rinse with clean water and dry thoroughly.

- The exterior, especially the stainless steel surface, can be cleaned with a soft cloth and a stainless steel cleaner.
- Removable shelves and crisper drawers can be washed with warm, soapy water.

## Frost-Free Operation

This unit features a frost-free system, which automatically prevents ice buildup in the freezer compartment, eliminating the need for manual defrosting. Ensure the door seal is clean and intact to maintain optimal performance.

## TROUBLESHOOTING GUIDE

Before contacting customer support, please refer to the following common issues and their potential solutions:

Problem	Possible Cause	Solution
Appliance does not operate	Not plugged in; circuit breaker tripped; temperature control set to "OFF".	Ensure power cord is securely plugged in. Check household fuse/circuit breaker. Adjust temperature control to desired setting.
Temperature is too warm	Door opened too frequently; large amount of warm food added; poor ventilation; temperature setting too high.	Minimize door openings. Allow warm food to cool before placing inside. Ensure adequate space around the unit. Lower temperature setting.
Excessive noise	Appliance not level; parts loose; normal operating sounds.	Adjust leveling legs. Check for loose components. Gurgling or vibrating sounds are normal during operation.
Door does not close completely	Food packages obstructing door; gasket dirty or twisted; appliance not level.	Rearrange contents. Clean or adjust door gasket. Level the appliance.

For more detailed troubleshooting or issues not listed here, please consult the official user manual or contact Galanz customer support.

## PRODUCT SPECIFICATIONS
