

KUQIBAO X9K10

KUQIBAO Motorcycle Bluetooth Helmet User Manual

Model: X9K10

INTRODUCTION

This user manual provides comprehensive instructions for the safe and effective use of your KUQIBAO Motorcycle Bluetooth Helmet. Please read this manual thoroughly before using the helmet to ensure proper operation, maintenance, and to maximize your riding experience.

SAFETY INFORMATION

Your KUQIBAO Motorcycle Bluetooth Helmet is designed with safety as a priority. It is DOT Approved, meeting stringent safety standards for motorcycle helmets.

- The helmet shell is constructed from new **ABS material**, providing robust protection.
- The inner buffer layer is made of high-density **EPS**, engineered to absorb and withstand impact effectively.
- Always ensure the helmet fits snugly and the chin strap is securely fastened before riding.
- Never modify the helmet or its components, as this may compromise its protective capabilities.
- The dual lens system includes an inner lens to block strong light and an outer high-definition anti-fog lens for clear vision.

PRODUCT OVERVIEW

Components

- **Helmet Shell:** Made from new ABS material.
- **Buffer Layer:** High-density EPS for impact absorption.
- **Dual Lens System:**
 - Inner lens for strong light protection.
 - Outer high-definition anti-fog lens.
- **Inner Lining:** Breathable, comfortable, removable, and washable material.
- **Integrated Bluetooth System:** Detachable unit with controls.

Key Features

- **Advanced Visor Design:** Dual lens system ensures clear vision in various conditions.
- **Comfort and Hygiene:** Removable and washable inner lining allows for easy cleaning and maintenance.
- **Durable Construction:** ABS shell and EPS buffer layer provide superior impact resistance.
- **Long-lasting Battery:** 1200 mAh polymer lithium battery offers approximately 20 hours of continuous music playback and 80 hours of standby time on a 2-hour charge.
- **High-Quality Audio:** Equipped with 40MM speakers and a CSR5.0 Bluetooth chip for excellent sound quality.
- **Clear Communication:** Microphone with electronic noise reduction technology ensures clear calls even during high-speed riding.
- **Versatile Bluetooth Unit:** The Bluetooth host and speaker are detachable, offering convenience for maintenance or transfer to another helmet.
- **Multi-functional Connectivity:** Supports music playback, phone calls, radio, and mobile phone navigation audio.

1. Sizing and Fit

To ensure optimal safety and comfort, select the correct helmet size. Use a soft measuring tape to measure the circumference of your head, placing the tape around your forehead and the back of your head.

Helmet Size Chart

Size	Head Circumference (CM)
Small	57-58
Medium	59-60
Large	61-62
X-Large	63-64

If your head size is between two sizes, it is generally recommended to choose the larger size for comfort, or consult the manufacturer's specific fitting guide if available.

2. Charging the Bluetooth System

Before first use, fully charge the integrated Bluetooth system.

1. Locate the charging port on the Bluetooth unit (typically a micro-USB port).
2. Connect the provided charging cable to the Bluetooth unit and a compatible USB power source.
3. A full charge takes approximately **2 hours**. The indicator light on the unit will change to indicate charging status (e.g., red for charging, blue/off for fully charged).

Image: Top-down view of the interior of the KUQIBAO Motorcycle Bluetooth Helmet, showing the comfortable padding and chin strap mechanism.

3. Bluetooth Pairing

To connect your helmet's Bluetooth system to your mobile device:

1. Ensure the Bluetooth unit is charged and powered on.
2. Activate Bluetooth on your mobile phone.
3. Search for available devices. The helmet's Bluetooth unit will typically appear as "KUQIBAO" or a similar identifier.
4. Select the helmet from the list to pair. A confirmation tone or voice prompt may indicate successful pairing.
5. Once paired, your helmet is ready for audio playback, calls, and navigation instructions.

OPERATING INSTRUCTIONS

Visor Operation

- **Outer Visor:** The clear outer visor can be raised or lowered manually to protect against wind, debris, and for anti-fog functionality.
- **Inner Sun Visor:** The tinted inner lens (for strong light) can be deployed or retracted using a dedicated lever or

switch on the side of the helmet.

Bluetooth Controls

The integrated Bluetooth system allows for various functions:

- **Power On/Off:** Press and hold the power button (usually marked with a power symbol) to turn the unit on or off.
- **Music Playback:**
 - Press the main function button (often a phone or play/pause icon) to play or pause music.
 - Use the '+' and '-' buttons to adjust volume.

- Long press '+' or '-' to skip tracks (functionality may vary by model).

- **Phone Calls:**

- Press the main function button to answer an incoming call.
- Press again to end a call.
- Long press to reject an incoming call.
- Double-press to redial the last number (functionality may vary).

- **Radio/Navigation:** Audio from your phone's radio app or navigation system will be streamed directly to the helmet's speakers.

MAINTENANCE

Cleaning the Helmet

- **Outer Shell:** Clean the helmet's exterior with a soft cloth and mild soap and water. Avoid abrasive cleaners or solvents.
- **Visors:** Use a soft, damp cloth and clean water to gently wipe the visors. Do not use harsh chemicals or paper towels, which can scratch the surface.
- **Inner Lining:** The inner lining is **removable and washable**. Carefully detach the lining components and hand wash them with mild soap and cool water. Allow to air dry completely before reinserting into the helmet.

Bluetooth Unit Care

- The Bluetooth unit is designed to be detachable. This allows for easier cleaning of the helmet and convenient transfer of the unit if you acquire another compatible helmet.
- Keep the charging port clean and dry.
- Store the helmet in a cool, dry place away from direct sunlight when not in use.

TROUBLESHOOTING

If you encounter any issues with your KUQIBAO Motorcycle Bluetooth Helmet, please refer to the following common solutions:

- **No Power to Bluetooth Unit:** Ensure the unit is fully charged. Check the charging cable and power source.
- **Bluetooth Not Pairing:**
 - Ensure the helmet's Bluetooth is in pairing mode.
 - Turn off and on your phone's Bluetooth.
 - Forget the device on your phone and try pairing again.
 - Ensure no other devices are actively connected to the helmet.
- **Poor Audio Quality:**
 - Check the volume levels on both the helmet and your connected device.
 - Ensure the speakers are correctly positioned inside the helmet.
 - Move closer to your connected device to avoid signal interference.
- **Microphone Issues:** Ensure the microphone is properly positioned and not obstructed. The electronic noise reduction works best when the microphone is close to your mouth.

If the problem persists after attempting these steps, please contact KUQIBAO customer support for further assistance.
