Global Teck Worldwide Poly BT600 USB-A Dongle

Poly BT600 USB-A Bluetooth Adapter User Manual

Model: Poly BT600 USB-A Dongle

Brand: Poly / Global Teck Worldwide

INTRODUCTION

The Poly BT600 USB-A Bluetooth Adapter is designed to provide seamless and extended range connectivity for your audio devices, such as headsets and speakerphones, with your PC or Mac. This compact dongle ensures high-quality audio for communication and media consumption, offering reliable and hassle-free operation.

WHAT'S IN THE BOX

Upon unboxing your Poly BT600 USB-A Bluetooth Adapter, please verify the presence of the following items:

- Poly BT600 USB-A Bluetooth Adapter Dongle
- GTW Microfiber Cloth (included in bundle)

IN THE BOX

Plantronics BT600
USB-A Dongle

GTW Microfiber Cloth

2. **Driver Installation:** The operating system (Windows or macOS) should automatically detect and install the necessary drivers for the dongle. This process typically takes a few moments.
3. **Pairing Mode:** Once the dongle is recognized, it will enter pairing mode. The LED indicator on the dongle will typically flash to indicate it is ready for connection.
4. **Connect Your Device:** On your Bluetooth audio device (e.g., headset, speakerphone), activate its pairing mode. Refer to your device's user manual for specific instructions.
5. **Establish Connection:** The dongle will automatically connect to your Bluetooth audio device when both are in pairing mode and within range. A solid LED indicator on the dongle usually signifies a successful connection.

OPERATING INSTRUCTIONS

The Poly BT600 USB-A Bluetooth Adapter facilitates a stable and clear audio connection for various applications, including calls, music, and video conferencing.

- **Audio Quality:** The dongle is designed to provide crystal-clear and certified call quality, enhancing your communication experience.

Excellent Communication and Music Experience

- **Compatibility:** Compatible with various Bluetooth devices, PCs, and Macs.
- **Discrete Design:** Its small and discrete design ensures it does not obstruct adjacent ports when plugged in.

MAINTENANCE

To ensure the longevity and optimal performance of your Poly BT600 USB-A Bluetooth Adapter, follow these simple maintenance guidelines:

- Keep the dongle clean and free from dust and debris. Use the provided microfiber cloth or a soft, dry cloth for cleaning.
- Avoid exposing the dongle to extreme temperatures, humidity, or direct sunlight.
- Store the dongle in a safe place when not in use, especially if transporting it, to prevent physical damage.
- Do not attempt to disassemble or modify the dongle, as this will void any applicable warranties and may cause damage.

TROUBLESHOOTING

| Problem | Possible Solution |
|--|--|
| Dongle not recognized by computer. | Try plugging the dongle into a different USB-A port. Restart your computer. Ensure your operating system is up to date. |
| Cannot pair with Bluetooth device. | Ensure both the dongle and your Bluetooth device are in pairing mode. Make sure they are within close proximity. Turn off and on Bluetooth on your computer. Restart both devices. |
| Audio quality is poor or intermittent. | Check for interference from other wireless devices. Ensure your Bluetooth device is fully charged. Move closer to the dongle to improve signal strength. Update Bluetooth drivers on your computer if available. |
| Dongle LED indicator is not lit. | Ensure the dongle is fully inserted into the USB port. Try a different USB port. If the issue persists, the dongle may be faulty. |
