Blackfire BBM6412

Blackfire BBM6412 Rechargeable Weatherproof Magnetic Flashlight with Lantern

User Instruction Manual

INTRODUCTION

Thank you for choosing the Blackfire BBM6412 Rechargeable Weatherproof Magnetic Flashlight with Lantern. This versatile and durable lighting tool is designed for various outdoor and work applications, offering both focused illumination and area lighting. Its robust construction and intelligent features ensure reliable performance in challenging environments.

Safety Information

Please read all safety warnings and instructions carefully before using this product to ensure safe operation and prevent injury.

- **Eye Safety:** Do not shine the flashlight directly into eyes. The high lumen output can cause temporary vision impairment or damage.
- **Battery Safety:** This product contains a Lithium-Ion battery. Do not expose to extreme temperatures, puncture, or disassemble. Dispose of batteries according to local regulations.
- **Water Resistance:** The flashlight is IP66 rated for water and dust resistance. This means it is protected against powerful water jets and dust ingress. It is not designed for submersion. Ensure the USB-C charging port is securely closed when not charging to maintain water resistance.
- **Magnetic Field:** The magnetic end cap may affect sensitive electronic devices or magnetic media. Keep away from pacemakers, credit cards, and hard drives.

- **Children:** Keep out of reach of children. This is not a toy.

PACKAGE CONTENTS

Verify that all items are present upon opening the package:

- Blackfire BBM6412 Flashlight with integrated battery
- USB-C Charging Cable
- Removable Pocket Clip (pre-installed or included separately)

PRODUCT FEATURES

The Blackfire BBM6412 is engineered with several key features for optimal performance and user convenience:

- **Durable Construction:** Rated for a 10-foot drop and IP66 water-resistant and dustproof, ensuring resilience in harsh outdoor conditions.
- **Versatile Lighting:** Offers 5 distinct light modes, including a powerful flashlight and an integrated lantern function.
- **High Output:** Delivers up to 500 lumens in flashlight mode and 375 lumens in work light mode.
- **Magnetic End Cap:** Allows for hands-free mounting on metallic surfaces, enhancing utility as a work light.
- **Side-Barrel LEDs:** Provides broad area illumination when used as a lantern.
- **Removable Pocket Clip:** For convenient and secure carrying.
- **Last Mode Memory:** The flashlight powers on in the last used mode, eliminating the need to cycle through settings.
- **Tri-color LED Battery Indicator:** Provides clear indication of battery life and charging status.
- **USB-C Rechargeable:** Easy and convenient charging via the integrated USB-C port.
- **Glow-in-the-Dark Ring:** A glow ring locator on the bezel charges when the flashlight is on, making it easy to find in the dark.

SETUP

Initial Charging

Before first use, fully charge your Blackfire BBM6412 flashlight.

1. Locate the charging collar near the base of the flashlight.
2. Twist the charging collar to reveal the USB-C charging port.
3. Connect the provided USB-C cable to the flashlight's port and the other end to a USB power source (e.g., wall adapter, computer USB port).
4. The tri-color LED indicator will show charging status:
 - **Red:** Charging
 - **Green:** Fully Charged
5. Once fully charged, disconnect the cable and twist the charging collar back to securely cover the USB-C port to maintain water resistance.

OPERATING INSTRUCTIONS

Power On/Off and Mode Selection

The Blackfire BBM6412 features a single button for power control and mode cycling.

- **To Turn On:** Press the power button once. The flashlight will activate in the last used mode (Last Mode Memory).
- **To Cycle Modes:** While the flashlight is on, press the power button repeatedly to cycle through the 5 available modes:
 1. Flashlight High (500 Lumens)
 2. Flashlight Low (315 Lumens)
 3. Work Light High (375 Lumens)
 4. Work Light Medium (235 Lumens)
 5. Work Light ECO (35 Lumens)

- **To Turn Off:** Press and hold the power button for approximately 1 second. The flashlight will remember the current mode for the next power-on.

Lantern Function and Magnetic Mounting

The side-barrel LEDs and magnetic end cap provide versatile hands-free lighting options.

- When cycling through modes, the "Work Light" settings activate the side-barrel LEDs, transforming the flashlight into a lantern.
- The strong magnetic end cap allows you to attach the flashlight to any ferrous metal surface, providing convenient overhead or angled lighting.

Glow-in-the-Dark Ring

The glow ring on the bezel charges when the flashlight is active, providing a subtle glow that helps locate the flashlight in complete darkness.

MAINTENANCE

Cleaning

To maintain the performance and appearance of your flashlight:

- Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure the USB-C port cover is clean and free of debris before closing to maintain water resistance.

Storage

When storing the flashlight for extended periods:

- Store in a cool, dry place away from direct sunlight and extreme temperatures.
- For optimal battery health, charge the flashlight fully every 3-6 months, even if not in use.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|------------------------------------|--|---|
| Flashlight does not turn on. | Battery is depleted. | Charge the flashlight using the provided USB-C cable. |
| Flashlight does not charge. | USB-C cable not properly connected or damaged. Power source issue. Charging port obstructed. | Ensure the USB-C cable is fully inserted. Try a different USB-C cable or power source. Check the charging port for debris and clear if necessary. Ensure the charging collar is twisted open. |
| Light output is dim. | Low battery level. | Recharge the flashlight. |
| Flashlight turns off unexpectedly. | Low battery level. Overheating (unlikely for normal use). | Recharge the flashlight. If overheating is suspected, allow the unit to cool down before resuming use. |
