Pemberly Row Modern-Traditional Style 4 Drawer Shoe Cabinet Instruction Manual

INTRODUCTION

Thank you for choosing the Pemberly Row Modern-Traditional Style 4 Drawer Shoe Cabinet. This manual provides detailed instructions for the assembly, operation, and maintenance of your new shoe storage unit. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This shoe cabinet is designed to offer practical and stylish storage for your footwear, accommodating approximately 16 pairs of shoes up to a male size 12. It features a modern-traditional design and is crafted from engineered wood, ensuring durability and a Scandinavian aesthetic. This product is proudly made in Denmark.

SAFETY INFORMATION

Please observe the following safety precautions during assembly and use:

- Keep all hardware and small parts out of reach of children and pets.
- Assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all connections are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not overload the drawers. Distribute weight evenly.
- For stability, it is recommended to secure the cabinet to a wall using appropriate anti-tip hardware (if included or purchased separately), especially in households with children or pets.
- Assembly is recommended for two people to ensure safety and ease.

PARTS LIST AND HARDWARE

Before assembly, unpack all components and verify that you have received all parts and hardware as indicated in the included assembly manual. If any parts are missing or damaged, please contact customer support.

ASSEMBLY INSTRUCTIONS

Follow the step-by-step diagrams provided in your physical assembly manual. The following general steps and visual aids will assist you:

1. **Prepare the Area:** Clear a spacious area and lay out all parts on a soft, clean surface to prevent damage.
2. **Assemble the Frame:** Begin by assembling the main frame of the cabinet according to the diagrams. Ensure all panels are correctly oriented.
3. **Install Drawer Mechanisms:** Attach the drawer slides and tilting mechanisms to the cabinet frame.
4. **Assemble Drawers:** Construct the four individual drawers. Each drawer is designed with two rows of storage.
5. **Attach Handles:** The cabinet comes with two types of handles: gray knobs and brown leather handles. Choose your preferred style and attach them to the drawer fronts.
6. **Insert Drawers:** Carefully insert the assembled drawers into the cabinet frame, ensuring they operate smoothly.
7. **Final Checks:** Verify that all screws and fasteners are tight and that the cabinet is stable.

OPERATING INSTRUCTIONS

Using your Pemberly Row Shoe Cabinet is straightforward:

- **Opening Drawers:** Gently pull the chosen handle to tilt the drawer open. The drawer will pivot forward, revealing the two internal storage tiers.
- **Storing Shoes:** Place shoes on the internal shelves. The design allows for two rows of shoes per drawer. For optimal storage, place shoes with the toes facing inwards or alternate directions. The cabinet can accommodate up to 16 pairs of shoes, including male size 12.
- **Closing Drawers:** Push the drawer back into the cabinet until it is fully closed and flush with the cabinet front.

MAINTENANCE

To ensure the longevity and appearance of your shoe cabinet:

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Avoid Overloading:** Do not exceed the recommended capacity to prevent strain on the drawers and frame.

- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading or material degradation.

TROUBLESHOOTING

If you encounter any issues with your shoe cabinet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Drawers do not close smoothly or are misaligned.	Loose hardware; incorrect assembly of drawer mechanism.	Check and re-tighten all screws on the drawer slides and mechanisms. Review assembly steps for correct installation.
Cabinet feels wobbly or unstable.	Loose frame connections; uneven floor.	Ensure all frame screws are securely tightened. Place the cabinet on a level surface or use furniture levelers if necessary. Consider wall anchoring for added stability.
Shoes do not fit or drawers are difficult to close with shoes inside.	Overloaded drawer; shoes incorrectly placed.	Reduce the number of shoes in the drawer. Ensure shoes are placed flat on the shelves and not obstructing the closing mechanism. The cabinet accommodates up to male size 12 shoes.
