SETUP

1. Initial Pairing

For Android Devices (One-Tap Pairing):

1. Ensure your Android device is unlocked and has Bluetooth enabled.
2. Open the charging case of your Pixel Buds A-Series next to your Android device.
3. A pairing notification will appear on your device's screen. Tap to connect.

For iOS and Other Bluetooth 4.0+ Devices:

1. With the earbuds in the charging case, open the lid.
2. Press and hold the pairing button on the back of the charging case until the status light begins to pulse white.
3. On your device, navigate to Bluetooth settings and select "Pixel Buds A-Series" from the list of available devices.
4. Confirm the pairing on your device.

2. Achieving a Secure Fit

The Pixel Buds A-Series come with three sizes of eartips (small, medium, large) and a flexible stabilizer arc to ensure a comfortable and secure fit.

- Experiment with different eartip sizes to find the best seal for your ears. A good seal is crucial for optimal sound quality and bass response.
- Gently insert each earbud into your ear, rotating slightly until the stabilizer arc tucks comfortably into your ear's concha.

- Avoid using abrasive materials or harsh chemicals.

2. Storage

- Always store the Pixel Buds A-Series in their charging case when not in use to protect them and keep them charged.
- Store in a cool, dry place away from extreme temperatures and direct sunlight.
