SETUP

1. Assembling the Soundbar (Detachable Design)

The PHEANOO D6 soundbar features a unique detachable design for flexible placement. Follow these steps to assemble it:

1. Align the audio connector from one half of the soundbar with the corresponding port on the other half.
2. Gently push the two halves together until they click into place.
3. Twist the two halves to secure the connection, ensuring the soundbar is firmly assembled.

UNIQUE DETACHABLE DESIGN

2. Connecting the Subwoofer

Connect the wired subwoofer to the soundbar using the dedicated subwoofer cable. Ensure the connection is secure.

3. Placement Options

You can place the soundbar on a tabletop or mount it on a wall.

- **Tabletop Placement:** Place the soundbar directly in front of your TV, ensuring it does not obstruct the TV's remote sensor.
- **Wall Mounting:** Use the included wall mount kit. It is recommended to measure and mark the drilling points accurately, rather than relying solely on the paper stencil, to ensure a level installation.

4. Audio Connections

The PHEANOO D6 offers multiple connectivity options. Choose the best one for your device:

- **HDMI (ARC):** For the best audio quality and control, connect an HDMI cable from the soundbar's HDMI (ARC) port to your TV's HDMI (ARC) port. This allows your TV remote to control the soundbar's volume.
- **Optical:** Connect an optical cable from the soundbar's Optical port to your TV's Optical Digital Audio Out port.
- **AUX:** Use the 3.5mm AUX cable to connect to devices with a 3.5mm audio output.
- **Bluetooth 5.0:** For wireless connection, pair your device via Bluetooth.
