2. SETUP AND INITIAL USE

Upon receiving your Hello Kitty HK-341 eyeglasses, it is recommended to have them professionally fitted by an optician. This ensures proper alignment and comfort, especially if prescription lenses are being installed.

Steps for Initial Use:

1. **Professional Fitting:** Visit a qualified optician to have the frames adjusted to your face shape and to ensure correct lens placement.
2. **Lens Insertion:** If not already installed, your optician will insert the appropriate prescription lenses into the frames.
3. **Gentle Handling:** Always use both hands to put on and take off your eyeglasses to prevent bending the frame or temples.

3. OPERATING INSTRUCTIONS

Wearing your eyeglasses correctly ensures comfort and optimal vision. Handle them with care to maintain their integrity.

Proper Wearing:

- Ensure the nose pads rest comfortably on your nose bridge without pinching.
- The temples should extend straight back to your ears, with a slight curve to hold them securely in place.
- The frames should be centered on your face, allowing for an unobstructed field of vision.

4. MAINTENANCE AND CARE

Proper care extends the life of your eyeglasses and ensures clear vision.

Cleaning Instructions:

- **Lenses:** Use a specialized lens cleaning spray and a microfiber cloth. Avoid using paper towels, clothing, or harsh chemicals, as these can scratch the lenses.
- **Frame:** Wipe the frame gently with a damp, soft cloth. For deeper cleaning, a mild soap solution can be used, followed by rinsing with water and drying thoroughly.

Storage:

- Always store your eyeglasses in the provided protective case when not in use.
- Avoid placing eyeglasses face down on surfaces to prevent lens scratches.
- Keep eyeglasses away from extreme heat (e.g., car dashboards) as this can warp the frame.

5. TROUBLESHOOTING

Minor issues can often be resolved with simple adjustments. For significant damage, professional repair is recommended.

Common Issues and Solutions:

- **Loose Screws:** If a screw on the hinge or nose pad becomes loose, gently tighten it with a small

optical screwdriver. Avoid overtightening.

- **Bent Frame/Temples:** If the frame or temples are slightly bent, a gentle adjustment may be possible. However, for significant bends, consult an optician to avoid breakage.
- **Smudges/Dirt:** Refer to the cleaning instructions in Section 4.
- **Discomfort:** If eyeglasses feel uncomfortable or slip, they may require adjustment. Visit an optician for a professional fitting.
