Bellemave 328K

Bellemave Twin Over Full House Bunk Bed Instruction Manual

Model: 328K

1. Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Bellemave Twin Over Full House Bunk Bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This bunk bed features a house design, a slide, a ladder, and guardrails, offering a functional and engaging sleeping solution.

2. Important Safety Information

- **Read all instructions before assembly.** Failure to follow these instructions may result in injury or damage to the product.
- **Two-person assembly is recommended.** Some steps may require assistance.
- **Maximum Weight Capacity:** Upper bed: 400 lbs. Bottom bed: 600 lbs. Do not exceed these limits.
- **Guardrails:** Ensure all guardrails are securely installed on the upper bunk.
- **Ladder:** Always use the provided ladder for accessing the upper bunk. Ensure it is stable before use.
- **Slide:** Use the slide only as intended. Supervise children during slide use.
- **Mattress Requirements:** Use only mattresses that comply with the bed's dimensions. (Twin for upper, Full for lower).
- **Regular Checks:** Periodically check all bolts and fasteners to ensure they are tight. Retighten as necessary.
- **Ventilation:** Ensure adequate air circulation around the bed.
- **No Jumping:** Do not allow jumping on the bed.

3. Package Contents

Before beginning assembly, verify that all parts and hardware are present. Refer to the included parts list in your

packaging. If any parts are missing or damaged, contact Bellemave customer support.

Typical components include:

- Bed frame components (headboards, footboards, side rails)
- Roof and window panels for the house design
- Ladder steps and supports
- Slide components
- Guardrails
- Wooden slats for mattress support
- Hardware pack (screws, bolts, nuts, washers, Allen wrench)
- Assembly instructions (this manual)

4. Assembly Instructions

Assembly requires two adults. Clear a spacious area for assembly. Do not fully tighten bolts until instructed to do so.

4.1. General Assembly Tips

- Identify all parts and hardware before starting.
- Use the provided tools. Do not use power tools unless specifically instructed, as over-tightening can damage wood.
- Follow the numbered steps in the included diagrammatic instructions.
- Ensure all connections are secure before proceeding to the next step.

4.2. Assembly Configuration Options

Image 4.2.1: Two Assembly Methods. This diagram illustrates the flexibility in positioning the lower bed and slide on either the left or right side of the main structure to suit room layout preferences.

This bunk bed offers two assembly options, allowing you to position the entire lower half of the bunk bed, including the slide, on either the left or right side of the main structure. Choose the configuration that best suits your room layout before starting assembly.

4.3. Detailed Assembly Steps (Refer to your included diagrammatic instructions for specific part numbers and hardware)

1. **Assemble the Lower Bed Frame:** Connect the lower bed side rails to the headboard and footboard using the specified hardware. Ensure all connections are snug but do not fully tighten yet.
2. **Assemble the Upper Bed Frame:** Construct the upper bed frame similarly, connecting the upper side rails to the headboard and footboard sections.
3. **Attach House Structure:** Secure the roof and window panels to the upper bed frame according to the diagrams.
4. **Connect Upper and Lower Sections:** Carefully lift the assembled upper bed frame and house structure onto the lower bed frame, aligning the connection points. Secure with the appropriate bolts. This step requires at least two people.
5. **Install Ladder:** Attach the ladder to the designated side of the upper bunk. Ensure it is firmly secured and stable.
6. **Install Slide:** Attach the slide to the designated opening. Verify that all connections are tight and the slide is stable.
7. **Install Guardrails:** Secure the full-length guardrails to the upper bunk.

8. **Install Mattress Slats:** Place the wooden slats across the bed frames for both the upper (14 slats) and lower (7 slats) bunks. Secure them as indicated in the instructions (typically with screws).
9. **Final Tightening:** Once all components are in place and aligned, go back and fully tighten all bolts and screws. Do not overtighten.

Image 4.3.1: Partially Assembled Frame. This image shows the basic structure of the bunk bed, including the upper and lower frames, the house design, and the attached slide and ladder, prior to mattress placement.

Image 4.3.2: Frame without Slide. This view highlights the bunk bed frame from a different angle, demonstrating the structural integrity and the placement of the ladder, with the slide removed for clarity.

5. Usage Instructions

5.1. General Use

- Ensure mattresses are properly sized and placed on the slats.
- The upper bunk is intended for use by older children or individuals who can safely use the ladder.
- The lower bunk is designed for easy access and can be used as a floor bed.

5.2. Using the Ladder

- Always face the ladder when climbing up or down.
- Use both hands to grip the ladder rails.
- Ensure the ladder is free of obstructions.

5.3. Using the Slide

- Supervise children when using the slide.
- Ensure the area at the bottom of the slide is clear.

- Slide feet first, one person at a time.
- Do not climb up the slide.

Image 5.3.1: Fully Assembled Bunk Bed. This image displays the complete Bellemave Twin Over Full House Bunk Bed, ready for use, showcasing its design with the slide and ladder.

6. Maintenance

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically (e.g., monthly) inspect all bolts, screws, and fasteners. Tighten any loose hardware to ensure stability and safety.
- **Wood Care:** Protect the wood from excessive moisture and direct sunlight to prevent warping or fading.
- **Moving the Bed:** If relocating the bed, disassemble it partially or fully to prevent structural damage. Do not drag the assembled bed.

7. Troubleshooting

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure all connections are secure.
Parts do not align during assembly.	Incorrect orientation of parts; hardware not fully loosened.	Review the assembly diagrams carefully. Loosen all hardware slightly, adjust parts, then retighten. Ensure parts are not forced.
Missing or damaged parts.	Packaging error or shipping damage.	Do not proceed with assembly. Contact Bellemave customer support immediately for replacement parts.
Slide or ladder feels loose.	Mounting hardware is not tight.	Ensure all bolts securing the slide and ladder are fully tightened.

8. Product Specifications

- **Model:** 328K
- **Type:** Twin Over Full House Bunk Bed
- **Material:** Engineered Wood, Pine Wood
- **Color:** White House
- **Product Dimensions:** 82.1"L x 89"W x 82.3"H
- **Upper Bed Weight Capacity:** 400 lbs
- **Lower Bed Weight Capacity:** 600 lbs
- **Compatible Mattress Size:** Twin (upper), Full (lower)
- **Features:** Guardrails, Slide, Ladder, House Design
- **Assembly Required:** Yes
- **Item Weight:** 193.6 pounds
- **UPC:** 733805718091
