## IVIEW 3500STBA III

# IVIEW 3500STBA III ATSC Digital Converter Box Instruction Manual

Model: 3500STBA III

## INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your IVIEW 3500STBA III ATSC Digital Converter Box. Please read this manual thoroughly before using the device to ensure proper functionality and to maximize your viewing experience.

## PRODUCT OVERVIEW

The IVIEW 3500STBA III is a versatile digital converter box designed to convert digital broadcast signals for analog TVs, act as a media player, and offer recording capabilities. It supports ATSC and ClearQAM signals, providing access to local over-the-air channels and unscrambled cable channels.

Figure 4: Rear panel of the converter box with various input and output ports.

## 3. Connecting the Device

Connect the converter box to your TV and antenna using the appropriate cables.

1. Connect your antenna to the **ANT IN** port on the converter box.
2. Connect the converter box to your TV using either an HDMI cable (for HDTVs) or the A/V cable (for analog TVs).
3. Plug in the power adapter to the converter box and then to a power outlet.

Video 1: This video demonstrates the basic wiring connections for the digital converter box, including power, IR cable, coaxial antenna, and HDMI/AV cables.

## OPERATING INSTRUCTIONS

Learn how to navigate the converter box and utilize its features.

### 1. Initial Setup and Channel Search

Upon first power-on, the device will guide you through an installation process. You will need to perform a channel search to find available TV channels.

- **Auto Search:** This option automatically scans for all available digital channels in your area.
- **Manual Search:** Use this to search for specific channels by entering their frequency. This is useful if you know the exact channel number or if auto-search misses some channels.

Video 2: This video demonstrates how to perform both manual and automated channel searches on the converter box.

## 2. TV Recording Functions

The converter box supports TV recording to an external USB drive (up to 4TB, not included).

- **Real-time Recording:** Press the REC button on the remote to start recording the current program. You can watch another program on the same frequency while recording. Press the square stop button, then OK to stop and save.
- **EPG Timed Recording:** Use the Electronic Program Guide (EPG) to select a program and schedule a recording. Set the correct channel, time, and recording content.
- **Timer Scheduled Recording:** Press the TIMER button on the remote to manually set a recording schedule. You can set recordings for once, daily, or weekly.
- **Recording Name Change:** Access your recorded programs via the PVR button and use the blue timer button to rename files.

Video 3: This video demonstrates real-time recording, EPG timed recording, timer scheduled recording, and how to rename recorded files.

## 3. Media Player Function

Play videos, music, and view photos from a USB drive connected to the converter box's USB port.

## 4. Favorite Programs

Organize your preferred channels into a favorites list for quick access.

- Press the MENU button, navigate to 'Program Edit', and enter the password (default is '000000').
- Select a channel and press the FAV button to assign it to a favorite category (Movie, News, Sport, Music).
- To view favorite programs, press the FAV button on the remote and use the arrow keys to browse by genre.

Video 4: This video demonstrates how to set up and access favorite programs.

## 5. Closed Captioning

Enable or disable closed captioning by pressing the CC button on the remote control.

## 6. Volume Adjustment

Adjust the volume directly using the VOL+/- buttons on the remote control.

## 7. Channel Switching

Change channels using the CH+/- buttons, direct number input, or the RECALL button to switch between the last two viewed channels.

## 8. Signal Strength Check

To check the signal quality, press the INFO button twice on the remote. This will display a signal meter, which is helpful for optimizing antenna placement.

## MAINTENANCE

To ensure the longevity and optimal performance of your converter box, keep it clean and free from dust. Use a soft, dry cloth for cleaning. Avoid using liquid cleaners or abrasive materials.

## TROUBLESHOOTING

If you encounter issues with your device, try the following general troubleshooting steps:

- **No Signal:** Check all cable connections, especially the antenna. Perform an auto channel search. Adjust antenna position.
- **Poor Picture Quality:** Check signal strength (INFO button). Adjust antenna. Ensure your TV input is correctly selected.
- **Remote Not Responding:** Check battery levels. Ensure there are no obstructions between the remote and the converter box.
- **Audio/Video Sync Issues:** Restart the converter box by unplugging it from power for a few seconds and plugging it back in.

## SPECIFICATIONS

- **Product Dimensions:** 8.66 x 1.79 x 7.95 inches
- **Item Weight:** 1.25 pounds
- **Connectivity Technology:** USB
- **Controller Type:** Remote Control
- **Compatible Devices:** Personal Computer, Television
- **Total HDMI Ports:** 1
- **Connector Type:** A/C cable, HDMI
- **Audio Output Mode:** Stereo
- **Video Encoding:** MPEG-4
- **Color:** Black
