2. ASSEMBLY INSTRUCTIONS

Follow the detailed step-by-step instructions provided in the packaging to assemble your Nanoblock Dragonite model. Due to the micro-sized nature of the blocks (as small as 4mm x 5mm), careful attention to detail is required.

2.1. Preparation

- Unpack all components and verify that all 190 blocks and the instruction manual are present.
- Organize blocks by color or size to facilitate easier assembly.
- Ensure a clean, well-lit workspace to prevent loss of small pieces.

2.2. Building Process

1. Begin by identifying the base pieces as indicated in the manual.
2. Carefully connect blocks according to the visual diagrams and numerical sequence.
3. Apply gentle, even pressure to ensure blocks are securely fitted.
4. If available, utilize specialized construction tools for micro-sized blocks to enhance the assembly experience and precision.

5. Proceed through each step, ensuring each layer is stable before adding the next.

Warning: This product contains small parts which may pose a choking hazard for children under 3 years of age. Adult supervision is recommended during assembly for younger users within the recommended age range.

3. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Nanoblock Dragonite model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry brush or cloth. For more thorough cleaning, gently wipe with a slightly damp cloth and allow to air dry completely. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model in a stable location away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation or discoloration.
- **Handling:** Handle the model with care to avoid accidental disassembly, especially with delicate parts like wings or antennae.

4. TROUBLESHOOTING

Should you encounter any issues during assembly or with the product, consider the following:

- **Missing Pieces:** Carefully re-check the packaging and your workspace. If a piece is genuinely missing, contact Mattel customer support with your product details (Model HDP75, UPC 194735029624).
- **Blocks Not Connecting:** Ensure the blocks are correctly oriented and aligned before applying pressure. Some blocks may require a firm, but gentle, push to snap into place. Avoid excessive force, which could damage the blocks.
- **Model Instability:** Review the assembly steps to confirm all connections are secure and no steps were missed. Ensure the base is firmly constructed.
