## 6. TROUBLESHOOTING

Here are some common issues and solutions related to dishwashing:

Problem	Possible Cause	Solution
Dishes not clean / Greasy residue	Insufficient scrubbing, not enough liquid, or water not hot enough.	Increase scrubbing effort, use more liquid, or pre-soak dishes in warm, soapy water. Ensure water is warm.
Streaks on glassware	Incomplete rinsing or hard water.	Rinse thoroughly under running water. For hard water, consider a final rinse with a small amount of vinegar.
Unpleasant odor on dishes	Food residue not fully removed, or dishes not dried properly.	Ensure thorough cleaning and rinsing. Dry dishes completely before storing. Bcleen's lemon scent helps eliminate odors.
