Usage Guidelines

To ensure safe and proper use of your MERITLINE L-Shaped Bunk Bed:

- **Weight Capacity:** Adhere strictly to the weight limits: Upper Bunk Bed: 220 lbs, Down Bunk Bed: 400 lbs, Loft Bed: 220 lbs.
- **Mattress Requirements:** For the upper bunk and loft bed, use a mattress with a maximum thickness of 6 inches. For the down bunk bed, use a mattress with a thickness of 8-10 inches. This ensures the guardrails remain effective.
- **Guardrails:** The guardrails are designed to prevent falls. Do not remove or modify them.
- **Ladder Use:** Always use the provided ladder to access and exit the upper bunk and loft bed. Ensure the ladder is stable before climbing.
- **Desk Use:** The integrated desk is suitable for study or light work. Do not place excessively heavy items on the desk surface.

Care and Maintenance

Regular care will help maintain the appearance and longevity of your bunk bed:

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes, as these can damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections to ensure they are tight. Re-tighten if necessary to maintain structural integrity.
- **Avoid Moisture:** Keep the bed in a dry environment. Prolonged exposure to moisture can lead to rust or damage.

Troubleshooting

If you encounter any issues with your MERITLINE L-Shaped Bunk Bed, refer to the following common problems and solutions:

- **Bed Wobbles:** Ensure all bolts and screws are fully tightened. Check that the bed is placed on a level surface.
- **Squeaking Noises:** Re-tighten all hardware. Ensure mattresses are properly seated on the slats.
- **Missing Parts:** If you find parts missing upon unpacking, do not proceed with assembly. Contact MERITLINE customer support immediately for assistance.
