

## Juskys PIM200L

# Juskys PIM200L Ice Maker Instruction Manual

Model: PIM200L

## 1. INTRODUCTION

Thank you for choosing the Juskys PIM200L Ice Maker. This appliance is designed to provide convenient and efficient ice production for your home or office. It features a 2-in-1 direct dispenser for ice cubes and cold water, a timer function, and the ability to produce two different ice cube sizes. Please read this manual thoroughly before operating the appliance to ensure safe and optimal performance.

## 2. SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before using the appliance.
- Do not touch cold surfaces when the appliance is operating.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from the outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Do not use outdoors.
- Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach the plug to the appliance first, then plug the cord into the wall outlet. To disconnect, turn any control to "off", then remove the plug from the wall outlet.
- Use only for intended household purposes.
- This appliance must be grounded.
- Ensure the voltage indicated on the appliance matches your local power supply.
- Do not block any ventilation openings.

- Only use potable water in the water tank.

### 3. PACKAGE CONTENTS

---

Upon unpacking, please ensure all items listed below are present and in good condition:

- 1 x Juskys PIM200L Ice Maker
- 1 x Ice Cube Dispenser (integrated)
- 1 x User Manual

If any parts are missing or damaged, please contact Juskys customer support.

### 4. PRODUCT FEATURES

---

The Juskys PIM200L Ice Maker offers the following key features:

- **Rapid Ice Production:** Produces ice cubes in approximately 6-10 minutes.
- **High Capacity:** Up to 12 kg of ice cubes per day with a 2-liter water tank capacity.
- **Dual Ice Cube Sizes:** Choose between small and large ice cubes.
- **Direct Dispenser:** Dispenses ice cubes directly into your glass.
- **Cold Water Dispenser:** Provides chilled water at the touch of a button.
- **Timer Function:** Allows for scheduled automatic shut-off.
- **Easy to Clean:** Designed for straightforward maintenance.

## 5. SETUP

1. **Unpacking:** Carefully remove the ice maker from its packaging. Retain the packaging for future transport or storage.
2. **Placement:** Place the ice maker on a stable, level surface away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit (at least 10 cm clearance on all sides).
3. **Initial Cleaning:** Before first use, clean the water tank, ice basket, and dispenser area with a mild detergent and warm water. Rinse thoroughly and dry.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet (220-240V AC, 50Hz).
5. **Fill Water Tank:** Open the water tank lid and fill the tank with potable water up to the "MAX" fill line. Do not overfill. The tank capacity is 2 liters.

## 6. OPERATING INSTRUCTIONS

### 6.1 Control Panel Overview

# Automatisches Ein-/ Ausschalten Aktivierbarer Standby Modus

*Image: The control panel of the Juskys PIM200L Ice Maker, highlighting the 'Timer', 'Select', 'On/Off', 'Water', and 'Ice' buttons.*

- **ON/OFF Button:** Powers the unit on or off.
- **SELECT Button:** Toggles between small and large ice cube sizes.
- **ICE Button:** Activates the ice dispensing function.
- **WATER Button:** Activates the cold water dispensing function.
- **TIMER Button:** Sets the automatic shut-off timer.
- **Display Screen:** Shows current status, selected ice size, and timer settings.

## 6.2 Making Ice Cubes

1. Ensure the water tank is filled with potable water.
2. Press the **ON/OFF** button to turn on the ice maker.
3. Press the **SELECT** button to choose your desired ice cube size (small or large). The selected size will be indicated on the display.
4. The ice maker will begin the ice-making cycle automatically. The first batch of ice cubes will be ready in

approximately 6-10 minutes.

5. The unit will continue to produce ice until the ice basket is full or the water tank is empty.

### 6.3 Dispensing Ice Cubes

1. Place a glass or container under the ice dispenser outlet.
2. Press the **ICE** button. Ice cubes will be dispensed directly into your glass.
3. Release the button to stop dispensing.

### 6.4 Dispensing Cold Water

Gekühltes Wasser per Knopfdruck

*Image: The Juskys PIM200L Ice Maker demonstrating its cold water dispensing function, filling a glass with chilled water.*

1. Ensure the water tank is filled with potable water.
2. Place a glass or container under the water dispenser outlet.
3. Press the **WATER** button. Chilled water will be dispensed.
4. Release the button to stop dispensing.

## 6.5 Using the Timer Function

2 Liter großer Wassertank  
Eiswürfel nach ca. 6 - 10 Minuten

*Image: A close-up of the ice maker's control panel, highlighting the timer button and the digital display which shows timer settings.*

1. With the unit powered on, press the **TIMER** button.
2. Use the **SELECT** button to adjust the desired shut-off time in hours.
3. Press the **TIMER** button again to confirm the setting. The unit will automatically shut off after the set time.
4. To cancel the timer, press the **TIMER** button until the timer display disappears or turn off the unit.

## 7. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your ice maker.

### 7.1 Daily Cleaning

- Unplug the appliance before cleaning.
- Wipe the exterior with a soft, damp cloth.

- Empty any remaining water from the tank and wipe it dry.
- Clean the ice dispenser outlet and drip tray.

## 7.2 Weekly Cleaning

- Remove the ice basket and wash it with warm, soapy water. Rinse and dry thoroughly.
- Clean the interior of the water tank and the ice-making components with a solution of water and white vinegar (1:1 ratio) to prevent mineral buildup.
- Run a cleaning cycle by filling the tank with the cleaning solution and operating the unit for a few minutes without making ice (if a dedicated cleaning cycle is not available, simply let the solution circulate).
- Drain the solution completely and rinse the tank several times with fresh water.

## 7.3 Storage

If the ice maker will not be used for an extended period, drain all water, clean the unit thoroughly, and allow it to dry completely before storing it in a cool, dry place.

## 8. TROUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Unit does not turn on.	No power supply.	Check if the power cord is securely plugged into a grounded outlet.
No ice production.	Water tank is empty.	Fill the water tank with potable water.
	Ice basket is full.	Remove ice from the basket.
	Ambient temperature is too high.	Move the unit to a cooler location.
Ice cubes are too small or misshapen.	Water temperature is too high.	Use colder water.
	Mineral buildup.	Perform a thorough cleaning and descaling.
Water leakage.	Drain plug not properly sealed.	Ensure the drain plug is securely closed.
	Overfilling the water tank.	Do not fill water above the "MAX" line.

If the problem persists after trying these solutions, please contact Juskys customer support.

## 9. TECHNICAL SPECIFICATIONS

Specification	Value
Model Number	PIM200L (Manufacturer Part Number: 40527)
Brand	Juskys

<b>Specification</b>	<b>Value</b>
Material	Acrylonitrile Butadiene Styrene (ABS Plastic)
