SparkPod SH3F-C

SparkPod High Pressure 3-Function Rain Shower Head Instruction Manual

Brand: SparkPod | **Model:** SH3F-C

1. Product Overview

The SparkPod 3-Function Shower Head is designed to provide a high-pressure showering experience with versatile water flow options. It features 90 anti-clogging rubber nozzles for consistent performance and is universally compatible with standard 1/2 inch J-pipes for easy installation.

2. What's Included

The following items are included with your SparkPod 3-Function Rain Shower Head:

- SparkPod 3-Function Rain Shower Head
- Teflon Tape (Plumber's Tape)
- Additional Water Filter

3. Key Features

- **Multi-Function Massage Rainfall:** Offers three distinct spray modes: Full Body Rainfall for complete coverage, Power Focused Massage for deep rinsing, and Relaxing Massage for stress relief.
- **Self-Cleaning Nozzles:** Equipped with 168 powered anti-clogging rubber jets made from rustproof ABS plastic. These nozzles allow for easy removal of hard water deposits like limescale, ensuring consistent performance.
- **Easy 1-Minute Installation:** Designed for quick, tool-less installation. It connects to any standard 1/2 inch shower arm by hand-tightening.
- **Energy Saving:** Features a maximum outflow of 1.8 gallons per minute (GPM) with an additional interchangeable flow-rate to 2.5 GPM, allowing for water and energy savings or longer hot showers.
- **Swivel Ball Joint:** Allows for easy tilting and adjustment of the shower head to your desired direction.

4. Setup and Installation

The SparkPod 3-Function Rain Shower Head is designed for quick and easy installation without the need for specialized tools.

Installation Steps:

1. Ensure your existing shower arm is clean and free of debris.
2. Apply the included Teflon tape clockwise around the threads of your shower arm. Wrap it 3-5 times for a secure seal.
3. Screw the SparkPod shower head onto the shower arm.**Hand tighten only. Do NOT use any tools**, as this can damage the shower head or shower arm.
4. Ensure the connection is snug to prevent leaks.

5. Turn on the water supply and check for any leaks. If leaks occur, tighten slightly more by hand.

5. Operating Instructions

Your SparkPod 3-Function Rain Shower Head offers three distinct spray settings. To switch between modes, simply rotate the lever located on the side of the shower head.

Spray Modes:

- **Full Body Rainfall:** Provides a wide, gentle rain-like spray for complete body coverage.
- **Power Focused Massage:** Delivers a concentrated, powerful stream ideal for rinsing shampoo or targeting specific areas.
- **Relaxing Massage:** Offers a soothing, pulsating spray to help de-stress and unwind.

Video: A short preview demonstrating the high water pressure and the three massage modes: Rain Setting, Mixed Stream, and Focused Massage, available with the SparkPod shower head.

6. Maintenance

Regular cleaning of your SparkPod shower head will ensure optimal performance and longevity.

Cleaning the Nozzles:

The shower head features self-cleaning rubber jets designed to resist limescale and hard water buildup. To clean:

- Simply wipe the rubber nozzles with your finger or a soft cloth to dislodge any mineral deposits.
- For more stubborn buildup, you can use a mild descaling solution or a mixture of white vinegar and water. Apply the solution to the nozzles, let it sit for a few minutes, then wipe clean.

Avoid using harsh abrasive cleaners or tools that could damage the finish or rubber nozzles.

7. Troubleshooting

If you encounter issues with your SparkPod shower head, consider the following common solutions:

Low Water Pressure:

- **Check for Clogged Nozzles:** Refer to the Maintenance section (Section 6) for instructions on cleaning the self-cleaning rubber nozzles.
- **Inspect Water Filter:** The included water filter can sometimes become clogged. Remove the shower head and inspect the filter for debris. Clean or replace if necessary.
- **Verify Water Supply:** Ensure that the main water supply valve to your shower is fully open.

Leaks at Connection Point:

- **Re-tighten Connection:** Gently hand-tighten the shower head onto the shower arm.
- **Re-apply Teflon Tape:** Remove the shower head, clean the threads, and re-apply Teflon tape (3-5 wraps clockwise) before re-attaching the shower head.
- **Check Washer:** Ensure the rubber washer inside the shower head connection is properly seated and not damaged.

If problems persist, please contact SparkPod customer support.

8. Product Specifications

Specification	Detail
Model Number	SH3F-C
Brand	SparkPod
Color	Chrome
Material	Acrylonitrile Butadiene Styrene (ABS)
Finish Type	Polished
Shape	Round
Product Dimensions	5.08 x 2.54 x 0.03 cm (3.75" Wide Angle)
Item Weight	181 g
Installation Type	Wall Mounted
Number of Settings	3
Flow Rate	1.8 GPM (interchangeable to 2.5 GPM)
