CHiQ CPC07PAP01

CHiQ Portable Air Conditioner User Manual

Model: CPC07PAP01

PRODUCT OVERVIEW

The CHiQ Portable Air Conditioner CPC07PAP01 is a versatile 4-in-1 unit designed for efficient cooling, fan operation, dehumidification, and a quiet sleep mode. Its compact and mobile design, featuring 360° rotating universal wheels, allows for easy relocation between rooms. This unit is engineered to provide fast cooling and comfortable air circulation in spaces up to 80 square meters.

PACKAGE CONTENTS

Before beginning installation, please ensure all components listed below are present and in good condition.

Video: Demonstrates the step-by-step installation of the exhaust hose and window kit for the portable air conditioner.

Image: Close-up of the window kit components, including the window seal cloth and connectors.

1. Open the window where the unit will be installed.
2. Apply the adhesive velcro tape around the inner frame of the window, ensuring a clean and dry surface.
3. Attach the window seal cloth to the velcro tape, starting from the middle of the window frame, ensuring a tight and secure seal around the entire opening.
4. Insert the exhaust hose through the opening in the window seal cloth and zip it closed to prevent air leakage.
5. Connect the other end of the exhaust hose to the air conditioner unit's exhaust port.

OPERATING INSTRUCTIONS

Your CHiQ Portable Air Conditioner offers various modes and controls for customized comfort.

Control Panel

The intuitive control panel is located on the top of the unit, providing direct access to all functions.

Image: Top view of the air conditioner's control panel with buttons for power, mode selection, temperature adjustment (Up/Down), fan speed, and swing function.

Remote Control

For convenient operation from a distance, use the provided remote control.

Operating Modes

- **Cooling Mode:** Provides rapid cooling with a powerful air volume of 340m³/h and a 5-meter long-distance air supply. The temperature can be set between 16°C and 32°C.
- **Fan Mode:** Circulates air without cooling. Three fan speed settings are available to suit your preference.
- **Dehumidifier Mode:** Effectively removes excess moisture from the air, improving indoor comfort.
- **Sleep Mode:** Designed for quiet operation during sleep, adjusting temperature and reducing noise levels for a comfortable night. Includes a 24-hour On/Off timer for convenience.

Air Flow and Coverage

The unit's optimized design ensures wide and effective air distribution throughout your room.

MAINTENANCE

Regular maintenance is essential to ensure the optimal performance, efficiency, and longevity of your CHiQ Portable Air Conditioner.

Filter Cleaning

The air filter should be cleaned regularly to prevent dust buildup, which can reduce cooling efficiency and air quality. The filter is easy to dismantle for cleaning.

Image: Demonstrates the removal of the air filter from the back of the unit and shows it being rinsed under running water to remove dust and debris.

1. Always turn off and unplug the unit from the power outlet before performing any maintenance.
2. Locate the filter cover at the back of the unit and gently open it.
3. Carefully remove the air filter.
4. Rinse the filter under lukewarm running water to remove accumulated dust and debris. For heavy buildup, a mild detergent can be used, followed by thorough rinsing.
5. Allow the filter to air dry completely before reinserting it into the unit. Do not use direct heat to dry.
6. Close the filter cover securely.

TROUBLESHOOTING

If you encounter any issues with your CHI Q Portable Air Conditioner, please refer to the following common troubleshooting tips before contacting customer service.

- **Unit not turning on:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the unit's power button has been pressed and if it is not in standby mode. Verify the circuit breaker has not tripped.
- **Insufficient cooling:** Confirm that the exhaust hose is properly installed and sealed to the window kit, preventing hot air from re-entering the room. Clean the air filter if it is dirty. Ensure all windows and doors

in the room are closed to maintain cooling efficiency. Check if the selected temperature setting is appropriate for the room size.

- **Unusual noise:** Place the unit on a flat, stable surface to minimize vibrations. Check for any obstructions in the air intake or exhaust vents.
- **Water leakage:** If not using continuous drainage, ensure the drainage plug is securely closed. If using continuous drainage, check the drainage hose for kinks, blockages, or improper connection. Empty the water tank if it is full and the unit has stopped operating.
- **Remote control not working:** Check and replace the batteries in the remote control. Ensure there are no obstructions between the remote and the unit's sensor.

SPECIFICATIONS

Detailed technical specifications for the CHiQ Portable Air Conditioner CPC07PAP01.

| Feature | Detail |
|--------------------|--|
| Brand | CHiQ |
| Model | CPC07PAP01 |
| Product Dimensions | 44.1 x 32.7 x 70 cm |
| Item Weight | 32 kg |
